### Agency Information Collection Activities: Submission for OMB Review; Comment Request, New Source Performance Standard (NSPS) for Surface Coating of Metal Coils

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: New Source Performance Standard (NSPS) for Surface Coating of Metal Coils, 40 CFR part 60, subpart TT, OMB Number 2060-0107, expiration 10/31/99. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

**DATES:** Comments must be submitted on or before October 14, 1999.

**FOR FURTHER INFORMATION CONTACT:** Sandy Farmer at EPA by phone at (202) 260-2740, by E-Mail at [Farmer.Sandy@epamail.epa.gov](mailto:Farmer.Sandy@epamail.epa.gov) or download a copy of the ICR off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 0660.07.

### SUPPLEMENTARY INFORMATION:

**Title:** New Source Performance Standard (NSPS) for Surface Coating of Metal Coils, 40 CFR part 60, subpart TT, OMB Number 2060-0107, EPA ICR Number 0660.07 expiration 10/31/99. This is a request for extension of a currently approved collection.

**Abstract:** The NSPS for Surface Coating of Metal Coils were proposed on January 5, 1981, and promulgated on November 1, 1982. These standards

apply to each metal coil surface coating operation in which organic coatings are applied that commenced construction, modification or reconstruction after January 5, 1981. Approximately 150 sources are currently subject to the standard, and it is estimated that 6 sources per year will become subject to the standard. Volatile Organic Compounds (VOCs) are the pollutants regulated under this subpart, and this information is being collected to assure compliance with 40 CFR part 60, subpart TT.

Owners or operators of the affected facilities described must make initial reports when a source becomes subject, conduct and report on a performance test, demonstrate and report on continuous monitor performance, and maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility. Semiannual reports of excess emissions are required. These notifications, reports, and records are essential in determining compliance; and are required, in general, of all sources subject to NSPS.

Any owner or operator subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least 2 years following the date of such measurements, maintenance reports, and records. All reports are sent to the delegated State or Local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA Regional Office. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on June 4, 1999: no comments were received.

**Burden Statement:** The annual reporting and record keeping burden for this collection of information is estimated to average 26 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any

previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** Owners/Operators of Metal Coil Surface Coating Plants.

**Estimated Number of Respondents:** 156.

**Frequency of Response:** Initial, Quarterly, and Semiannual Reports.

**Estimated Total Annual Hour Burden:** 15,335 hours.

**Estimated Total Annualized Capital, O & M Cost Burden:** \$398,000.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 0660.07, and OMB Control No. 2060-0107 in any correspondence.
