Information Pertaining to the Requirement To Be Submitted

1. *The title of the information collection:* NRC Form 241, "Report of Proposed Activities in Non-Agreement States."

2. *Current OMB approval number:* 3150-0013.

3. How often the collection is required: NRC Form 241 must be submitted each time an Agreement State licensee wants to engage in or revise its activities involving the use of radioactive byproduct material in a non-Agreement State. 5. *The number of annual respondents:* The NRC annually receives approximately 4,600 responses from Agreement States associated with NRC Form 241. These responses include 200 initial reciprocity requests on NRC Form 241, and 1,100 revisions and 3,300 clarifications of the information submitted on the forms.

This mandatory notification permits NRC to schedule inspections of the activities to determine whether the activities are being conducted in accordance with requirements for protection of the public health and safety.

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?
