**Independence Pipeline Company; ANR Pipeline Company; Transcontinental Gas Pipe Line Corporation; Notice of Public Conference**

September 15, 1999.

Take notice that the Federal Energy Regulatory Commission will convene a public conference on September 29, 1999, in the above-captioned proceedings.

In these proceedings, Independence Pipeline Company, ANR Pipeline Company, and Transcontinental Gas Pipe Line Corporation have filed applications with the Commission to construct and operate extensive pipeline facilities. These applications, in turn, have sparked significant interest from the public and energy industry.

In light of the recent high level of interest in these proposals, the Commission will convene a conference in the above-captioned proceedings, to

allow the record to be supplemented to address the market need for the proposed project. The purpose of the conference is to provide an opportunity for parties to provide new information, not to restate positions or information already in the record. In addition, the Commission is particularly interested in hearing from elected officials concerning their analysis and views of the project.

The conference will be held in the offices of the Federal Energy Regulatory Commission, in the Commission Meeting Room, 888 First Street, N.E., Washington, DC 20426, starting at 1:00 p.m.

Any party wishing to participate in the conference should submit a written request to the Secretary of the Commission by September 21, 1999. The request should indicate the scope of the participants' planned remarks. Because of time constraints, parties with common interests are encouraged to designate a single speaker to represent their views. The Commission will review the requests and the requesters, and will select the participants in the conference based on the number of requests to speak and the issues to be addressed. Speakers that have audio/visual requirements should contact Wanda Washington at (202) 208-1460.

Any written comments may be filed within 15 days after the conference.

The Capitol Connection offers all Open and special FERC meetings live over the Internet as well as via telephone and satellite. Take notice that Commission Staff is seeking volunteers to participate in a Pilot Project for electronic filing of documents in Commission proceedings over the Internet. This Pilot Project will commence on October 1, 1999, and will continue until further notice by the Commission. Because this is a test of the electronic system, participants in the pilot will still be required to comply with existing filing requirements, by filing paper copies of documents in accordance with the Commission's existing regulations.

This pilot is part of the Commission Staff's effort to implement electronic filing. Eventually, Staff expects to recommend that the Commission require that all filings by regulated entities be made in electronic form, with limited exceptions. Participants in this pilot will have the opportunity not only to assist the Commission in making its determination on electronic filing, but to familiarize themselves with the process at an early stage of development. At the outset of the pilot only a few participants may be selected, but Commission Staff anticipates that the number of testers will be increased incrementally as more experience is gained with electronic filing. Staff will be particularly interested in working
