Submission for OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: 2000 Panel of the Survey of Income and Program Participation, Core and Wave 1 Topical Modules.

Form Number(s): SIPP–20105(L) Director's Letter, SIPP/CAP Automated Survey Instrument.

Agency Approval Number: None.

Type of Request: New collection.

Burden: 25,467 hours.

Number of Respondents: 26,250.

Avg Hours Per Response: 30 minutes.

Needs and Uses: The Census Bureau conducts the Survey of Income and Program Participation (SIPP) to collect information from a sample of households concerning the distribution of income received directly as money or indirectly as in-kind benefits. SIPP data are used by economic policymakers, the Congress, state and local governments, and Federal agencies that administer social welfare and transfer payment programs such as the Department of Health and Human Services, the Department of Housing and Urban Development, and the Department of Agriculture.

The SIPP is a longitudinal survey, in that households in the panel are interviewed at 4-month intervals or waves over the life of the panel. The duration of a panel is typically 3 to 4 years. The length of the 2000 SIPP Panel is subject to the approval of budget initiatives but is currently scheduled for one year and will include three waves of interviews.

The survey is molded around a central core of labor force and income questions, health insurance questions, and questions concerning government program participation that remain fixed throughout the life of the panel. The core questions are asked at Wave 1 and are updated during subsequent interviews. The core is supplemented with additional questions or topical modules designed to answer specific needs.

This request is for clearance of the core survey questions and topical modules to be asked during Wave 1 of the 2000 SIPP Panel. The topical modules for Wave 1 are: Reciprocity History and Employment History. Wave 1 interviews will be conducted from February through May 2000.

Additionally, a reinterview for quality control purposes will be conducted with a small sub-sample of respondents throughout the life of the panel. We also seek approval to use the Wave 1 survey instrument as part of an experimental panel designed to deliver an improved and less burdensome instrument for use in the 2004 SIPP Panel. Testing of monetary incentives to encourage non-respondents is planned for all waves of the 2000 SIPP Panel.

Affected Public: Individuals or households.

Frequency: Every 4 months.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 USC, Section 182.

OMB Desk Officer: Susan Schechter, (202) 395–7313.

International Trade Administration

[C-508-605]

Preliminary Results of Full Sunset Review: Industrial Phosphoric Acid From Israel

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of preliminary results of full sunset review: industrial phosphoric acid from Israel.

SUMMARY: On March 1, 1999, the Department of Commerce ("the Department") initiated a sunset review of the countervailing duty order on industrial phosphoric acid from Israel (64 FR 9970) pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). On the basis of the notices of intent to participate and adequate substantive responses filed on behalf of the domestic and respondent interested parties, the Department is conducting a full (240 day) review. In conducting this sunset review, the Department preliminarily finds that termination of the countervailing duty order would be likely to lead to continuation or recurrence of a countervailable subsidy.

The net countervailable subsidy and the nature of the subsidy are identified in the "Preliminary Results of Review" section of this notice.

FOR FURTHER INFORMATION CONTACT: Kathryn B. McCormick or Melissa G. Skinner, Office of Policy for Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street & Constitution Avenue, NW, Washington, D.C. 20230; telephone: (202) 482-1698 or (202) 482-1560, respectively.

EFFECTIVE DATE: September 27, 1999.

Statute and Regulations

This review was conducted pursuant to sections 751(c) and 752 of the Act. The Department's procedures for the conduct of sunset reviews are set forth in *Procedures for Conducting Five-year ("Sunset") Reviews of Antidumping and Countervailing Duty Orders*, 63 FR 13516 (March 20, 1998) ("Sunset Regulations") and 19 CFR Part 351(1998) in general. Guidance on methodological or analytical issues relevant to the Department's conduct of sunset reviews is set forth in the Department's Policy Bulletin 98:3—*Policies Regarding the Conduct of Five-year ("Sunset") Reviews of Antidumping and Countervailing Duty Orders; Policy Bulletin*, 63 FR 18871 (April 16, 1998) ("Sunset Policy Bulletin").

Scope

This order covers shipments of Israeli industrial phosphoric acid ("IPA"). The subject merchandise was originally classifiable under item number 416.30 of the Tariff Schedules of the United States Annotated ("TSUSA"); currently, it is classifiable under item number 2809.20.00 of the Harmonized Tariff Schedule of the United States ("HTSUS"). Although the TSUSA and HTSUS item numbers are provided for convenience and customs purposes, the written description remains dispositive.

This review covers all producers and exporters of industrial phosphoric acid from Israel.

History of the Order

The Department published its final affirmative countervailing duty determination on industrial phosphoric acid from Israel in the **Federal Register** on July 7, 1987 (52 FR 25447) and issued the countervailing duty order on August 19, 1987 (52 FR 31057). The Department found the following programs to confer subsidies:

- (1) Encouragement of Capital Investments Law Grants
- (2) Long-Term Industrial Development Loans
- (3) Bank of Israel Export Production, Shipment, and Import-for Export Fund Loans
- (4) Exchange Rate Risk Insurance Scheme
- (5) Encouragement of Research and Development Law Grants

The Department determined the estimated net subsidy to be 19.46 percent for Haifa Chemicals Ltd. ("Haifa") and 6.02 percent for all other producers and exporters of IPA from Israel. In this case, the Government of Israel ("GOI") provided to eligible exporters preferential short-term financing in local and foreign currencies through the Bank of Israel Export Production, Shipment, and Import-for Export Fund Loans programs. However, the Department verified that, since 1985, the loans under these funds were provided only in foreign currencies and were no longer at preferential terms. In cases in which program-wide changes have occurred prior to a preliminary determination and where the changes are verifiable, the Department's practice is to adjust the duty deposit rate to correspond to the eventual duty liability. Accordingly, the Department did not include the BOI export loan benefits in the duty deposit rate, for which the final results were 15.11 for Haifa and 5.36 percent for all others.¹

The Department has conducted the following administrative reviews since the issuance of the order:

Period of review	Citation	Net subsidy (percent)

(2) 1 Jan 88-31 Dec 88	56 FR 50854	9.18
