

estimates and justification files are proposed for permanent retention; electronic copies of these records created using electronic mail, word processing, spreadsheet applications and database management applications are proposed for disposal.

5. Central Intelligence Agency (N1-263-99-1, 13 items, 5 temporary items). Security name check records, accounting and administrative files, commercially available phonograph records, reading file of reports prepared by other agencies, and unintelligible audio recordings relating to Guatemala, 1952-1954. Records relating to overall development, coordination, and implementation of policies and plans are proposed for permanent retention.

6. Environmental Protection Agency, Office of Pesticide Programs (N1-412-98-3, 6 items, 4 temporary items). Copies of records that document the review processes relating to the registration of pesticides, including electronic copies of documents created using electronic mail, word processing, and a document management system. Paper records created after June 1996 and microform copies created from 1963 to 1996 are proposed for permanent retention.

7. Environmental Protection Agency (N1-412-98-5, 2 items, 2 temporary items). Permit Appeals Files including electronic copies of documents created using electronic mail and word processing. These records document appeals to EPA regional administrators concerning permit decisions. Landmark or precedent-setting appeals and all decisions of the Administrative Law Judge were previously approved for permanent retention.

8. General Accounting Office (N1-217-99-1, 24 items, 14 temporary items). Older records of the Accounting Officers of the Department of Treasury dating approximately from 1815-1948, which were transferred to the General Accounting Office upon its establishment in 1921. Records proposed for disposal consist of indexes, ledgers, registers, bound volumes, claim files, contract records, and account abstracts relating to such matters as claims by Spanish-American War veterans, taxes on national banks, U.S. loans to foreign nations during World War I, purchases of bonds by Navy personnel during World War I, payments made to Civil War and Spanish-American War officers, and Soldiers' Home expense accounts. In most instances, records proposed for disposal are duplicates of records which have previously been accessioned into the National Archives of the United States. Records proposed for permanent

retention include registers of Black Hawk War Claims, 1833-1835; records of fishing vessel allowances, 1837-1857; state and Indian claims, 1861-1926; Indian settlements, 1875-1880; water rights applications, 1907-1922; selected ledgers and fiscal records, 1861-1922; selected ordnance and construction contracts, 1886-1918; and contracts for mail service, 1913-1921.

9. General Accounting Office (N1-411-99-1, 12 items, 4 temporary items). Older records of the General Accounting Office, dating primarily from 1887-1947. Records proposed for disposal include National Guard pay cards, 1929-1936; a general account journal for the years, 1926-1932; miscellaneous ledgers, 1887-1944; and copies of General Court-Martial Orders, 1922-1927. Indian Claim Warrants, 1924-1925; World War I Unsettled Loan Files and Indexes, 1914-1930; selected ledgers, journals, and fiscal records, 1887-1944; Ledgers for Indian Warrants and Settlements, 1924-1935; Pay Warrants Issued, 1923-1925; World War II Contract Hardship Claims, 1946-1947; and Indian Claims Settlement Files, 1922-1924, are proposed for permanent retention.

10. Tennessee Valley Authority, Office of Communications (N1-142-97-10, 1 item, 1 temporary item). Correspondence relating to requests for information or action from outside TVA that are handled by lower level managers. Correspondence signed by the vice president, chief operating officer or Board members was previously approved for permanent retention.

11. U.S. Nuclear Regulatory Commission (N1-431-96-2, 1 item, 1 temporary item). Files relating to cases heard by the agency panel which reviews allegations made by individuals against specific utilities or other organizations which are regulated by the NRC. The case files include allegations, minutes and summaries of allegation review panel meetings, correspondence with allegers and licensees, referral memoranda to the Office of Investigations, inspection reports, staff safety evaluations, automated system printouts, documents showing staff resolution, and closure documents sent to allegers.

Dated: January 26, 1999.

Michael J. Kurtz,

Assistant Archivist for Record Services—Washington, DC.

BILLING CODE 7515-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-29]

Yankee Atomic Electric Company; Yankee Nuclear Power Station Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (Commission) is considering issuance of an amendment to Possession Only License (POL) No. DPR-3 issued to the Yankee Atomic Electric Company (YAEC or licensee) for the Yankee Nuclear Power Station (YNPS or plant). The plant is located in Rowe Township, Franklin County, Massachusetts.

Environmental Assessment

Identification of Proposed Action

The proposed action would revise the POL through the following three changes to the Technical Specifications (TS) by (1) deletion of the definition of SITE BOUNDARY, (2) moving the Site Boundary and Plant Exclusion Area map from the TS to the Final Safety Analysis Report (FSAR) and (3) Deletion of TS 5.1.1—EXCLUSION AREA.

The proposed action is in accordance with the licensee's application for amendment dated August 20, 1998.

The Need for the Proposed Action

The proposed action would, for item (1) above, remove an obsolete and unneeded definition from the TS. For Item (2), the TS that is being relocated to a licensee controlled document, the FSAR, is not required to be in the TS under 10 CFR 50.36 requirements. The licensee may revise the FSAR under the provisions of 10 CFR 50.59, which provides appropriate procedural means to control such revisions. Furthermore, this change is consistent with the NRC guidance in NUREG-1625, Proposed Standard Technical Specifications for Permanently Defueled Westinghouse Plants. Item (3) would delete an unneeded section of the TS as its only function was to reference the map being moved to the FSAR.

Environmental Impacts of the Proposed Action

The Commission has completed its evaluation of the proposed action and concludes that the proposed action will not have any impact on the environment as the proposed changes are administrative in nature. The licensee does not propose any disposal nor relocation of fuel by this action. This action is considered administrative in nature.

The proposed action will not increase the probability or consequences of accidents, no changes are being made in the types of any effluents that may be released off site, and there is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential non-radiological impacts, the proposed action does not involve any historic sites. It does not affect non-radiological plant effluents and has no other environmental impact. Therefore, there are no significant non-radiological environmental impacts associated with the proposed action.

Accordingly, the Commission concludes that there are no significant environmental impacts associated with the proposed action.

Alternative to the Proposed Action

As an alternative to the proposed action, the staff considered denial of the proposed action. Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

This action does not involve the use of any resources not evaluated in previous environmental reviews for the YNPS.

Agencies and Persons Consulted

In accordance with its stated policy, on December 15, 1998, the staff consulted with the Commonwealth of Massachusetts State liaison officer, Jim Muckerheide of the Massachusetts Civil Defense Agency, regarding the environmental impact of the proposed action. The Commonwealth official had no comments.

Finding of No Significant Impact

On the basis of the environmental assessment, the Commission concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the Commission has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the YAEC's letter of August 20, 1998, which is available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, D.C., and at the Local Public Document Room located in the Library of the Greenfield Community

College, 1 College Drive, Greenfield, Massachusetts 01301.

Dated at Rockville, Maryland, this 28th day of January 1999.

For the Nuclear Regulatory Commission.

Seymour H. Weiss,

Director, Non-Power Reactors, and Decommissioning Project Directorate, Division of Reactor Program Management, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Advisory Committee on the Medical Uses of Isotopes: Meeting Notice

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Notice of meeting.

SUMMARY: The U.S. Nuclear Regulatory Commission will convene two sub-committee meetings of the Advisory Committee on the Medical Uses of Isotopes as follows: The Diagnostic Sub-Committee Meeting will be held on February 23 and 24, 1999; the Therapeutic Sub-Committee meeting will be held on February 25 and 26, 1999. Both meetings, which are open to the public, will take place at the address provided below. The discussions will be focused on resolution of comments received on the proposed revision to 10 CFR part 35 (Medical Use of Byproduct Material) that was published in the **Federal Register** for comment on August 13, 1998 (63 FR 43580). The Diagnostic Sub-Committee will focus on comments pertaining to uses of unsealed byproduct material in medicine (§§ 35.100, 35.200, and 35.300). The Therapeutic Sub-Committee will focus on comments pertaining to therapeutic uses of sealed sources (§§ 35.400 and 35.600).

DATES: The Diagnostic Sub-Committee meeting will be held on February 23, 1999, from 8:00 a.m. to 5:00 p.m. and on February 24, 1999, from 8:00 a.m. to 12:00 p.m. The Therapeutic Sub-Committee meeting will be held on February 25, 1999, from 8:00 a.m. to 5:00 p.m. and on February 26, 1999, from 8:00 a.m. to 12:00 p.m.

ADDRESSES: U.S. Nuclear Regulatory Commission, One White Flint North Building, 11555 Rockville Pike, Room 04B6, Rockville, MD 20852-2738.

FOR FURTHER INFORMATION CONTACT: Mary Louise Roe, U.S. Nuclear Regulatory Commission, Office of Nuclear Material Safety and Safeguards, MS T9F31, Washington, DC, 20555, Telephone (301) 415-7809.

Conduct of the Meetings

The Diagnostic Sub-Committee meeting will be chaired by Mr. Dennis Swanson. Dr. Judith Stitt will chair the Therapeutic Sub-Committee meeting. Each sub-committee meeting will be conducted in a manner that will facilitate the orderly conduct of business. The following procedures apply to public participation in the meetings:

1. Persons who wish to provide a written statement should submit a reproducible copy to Mary Louise Roe (address listed previously), by February 19, 1999. Statements must pertain to the topics on the agenda for the meeting.

2. Questions from members of the public will be permitted during the meetings at the discretion of the Chairmen.

3. The meeting summaries and written comments will be available for inspection, and copying, for a fee, at the NRC Public Document Room, 2120 L Street, N.W., Lower Level, Washington, DC 20555, telephone (202) 634-3273, on or about April 1, 1999.

4. Seating for the public will be on a first-come, first-served basis.

These meetings will be held in accordance with the Atomic Energy Act of 1954, as amended (primarily Section 161a); the Federal Advisory Committee Act (5 U.S.C. App); and the Commission's regulations in Title 10, *U.S. Code of Federal Regulations*, Part 7.

Dated: January 28, 1999.

Andrew L. Bates,

Advisory Committee Management Officer.

Draft Standard Review Plan; Review of a Reclamation Plan for Mill Tailings Sites Under Title II of the Uranium Mill Tailings Radiation Control Act; Draft Standard Review Plan

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of availability; Opportunity for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is soliciting comments on a Draft Standard Review Plan for Review of a Reclamation Plan for Mill Tailings Sites Under Title II of the Uranium Mill Tailings Radiation Control Act (NUREG-1620) from interested parties. An NRC source and byproduct material license is required
