FEDERAL EMERGENCY MANAGEMENT AGENCY

[FEMA-1293-DR]

Virginia; Amendment No. 5 to Notice of a Major Disaster Declaration

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Notice.

SUMMARY: This notice amends the notice of a major disaster for the Commonwealth of Virginia, (FEMA-1293-DR), dated September 18, 1999, and related determinations.

EFFECTIVE DATE: September 28, 1999.

FOR FURTHER INFORMATION CONTACT: Madge Dale, Response and Recovery Directorate, Federal Emergency Management Agency, Washington, DC 20472, (202) 646-3772.

SUPPLEMENTARY INFORMATION: The notice of a major disaster for the Commonwealth of Virginia is hereby amended to include the following areas among those areas determined to have been adversely affected by the catastrophe declared a major disaster by the President in his declaration of September 18, 1999:

Mathews County for Individual Assistance and Public Assistance.

Northumberland County for Public Assistance (already designated for Individual Assistance.)

The counties of Charles City, King George, Lancaster, Lunenburg, and Richmond for Public Assistance.

(The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 83.537, Community Disaster Loans; 83.538, Cora Brown Fund Program; 83.539, Crisis Counseling; 83.540, Disaster Legal Services Program; 83.541, Disaster Unemployment Assistance (DUA); 83.542, Fire Suppression Assistance; 83.543, Individual and Family Grant (IFG) Program; 83.544, Public Assistance Grants; 83.545, Disaster Housing Program; 83.548, Hazard Mitigation Grant Program)

FEDERAL EMERGENCY MANAGEMENT AGENCY

Cooperating Technical Communities

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Notice of Cooperating Technical Communities flood hazard mapping initiative.

SUMMARY: We (FEMA) give notice of the Cooperating Technical Communities initiative that will recognize and encourage participation by states, regional agencies, and communities in the flood hazard mapping process.

DATES: Pilot projects are ongoing.

FOR FURTHER INFORMATION CONTACT: Your FEMA Regional Cooperating Technical Communities Coordinator. We list contact names for the coordinators under Section 5 of this document.

SUPPLEMENTARY INFORMATION:

1. Background

FEMA administers the National Flood Insurance Program (NFIP) and under § 1360 of the National Flood Insurance Act of 1968, as amended (42 U.S.C. 4101), we establish and update flood-risk zone data in floodplain areas. In the identification of flood-prone areas, we may consult with, receive information from, and enter into agreements or other arrangements with the head of any State, regional, or local agency in order to identify these floodplain areas.

We are implementing the Cooperating Technical Communities (CTC) concept as part of our Flood Map Modernization plan (<http://www.fema.gov/library/mapmod.pdf>). The CTC initiative will formally recognize and encourage the ongoing contributions that our mapping partners—States, regional agencies, and communities—make in assisting us in providing timely and accurate flood hazard information. The participating entity will enter into a partnership agreement with us to develop or maintain all or a component of its flood hazard maps.

CTC partnerships will maximize the effectiveness of the limited local and Federal funding available for flood mapping, while maintaining consistent national standards. Through these partnerships, the integration of locally-funded or developed flood and mapping data in the flood mapping process will enable contributing partners to expand the scope of our flood mapping efforts. We expect that this will result in enhanced responsibility for the maps by the partners and, in turn, heightened local awareness of flood risks, more effective floodplain management, and more accurate maps. The Cooperating Technical Communities initiative includes both locally-funded and FEMA-funded activities.

Under the initiative, the partner will enter a general overall agreement (CTC Agreement) with us that recognizes the fundamental importance of flood hazard identification, as well as flood insurance and floodplain management. Then, as the CTC partner and we identify specific flood mapping activities to undertake, we and the CTC partner will develop and enter into Mapping Activity Agreements under the umbrella of the overall CTC Agreement.

We envision that most Mapping Activity Agreements will be collaborative efforts where both the CTC partner and FEMA contribute data and units of work to maximize the extent, accuracy, and utility of flood studies to best meet local and Federal needs, while minimizing costs for all parties. Federal

funding will be limited even if we can allocate supplemental map modernization funding. In any event, we will allocate funding within the context of our flood study prioritization process.

We will consider Fiscal Years 1999 and 2000 as pilot years for this initiative. Initial Guidance is available at <http://www.fema.gov/mit/tsd/CTC-main.htm>. We anticipate that updated guidance will be available in Fiscal Year 2000.

2. Availability of Fiscal Year 1999 Funds

We set aside \$400,000 (\$40,000 per Region) for FEMA-funded CTC activities in Fiscal Year 1999. We identified partners as potential recipients of funding through CTC agreements for this pilot year. We based the selection on floodplain mapping needs and on the partners' interest, contributions, and their capability to perform the types of

activities that we identified for the pilot effort.

3. Activities

All of the activities listed below contain the following benefits for both the CTC partner and for FEMA:

- Local capabilities in hazard identification and risk assessment—the building blocks for disaster resistance—will be enhanced through FEMA technical assistance, experience, standards, and funding;
- The data, methods, and mapping used for local, regional, and state permitting processes will also be used for NFIP mapping, to the extent possible;
- Close coordination and involvement in the flood hazard mapping process will result in more efficient local floodplain management by the CTC partners;
- The program has the potential to interject a tailored, local focus into a

national program where unique conditions may exist that necessitate special approaches to flood hazard identification.

- By incorporating local knowledge and expertise, FEMA's National Flood Insurance Program flood hazard maps will be more accurate and can be updated faster;

Mapping Activity Agreements will support the development of flood hazard mapping or a component of the production and maintenance of flood hazard mapping. FEMA and the CTC partner will collaborate on these mapping activities. FEMA may provide technical assistance, support, and data to the CTC partner. In some cases, funding may also be available. The following mapping activities may receive funding in Fiscal Year 1999 through a cooperative agreement with FEMA:

Activity	Partner	Description
Refinement of Approximate Zone A Boundaries.	Community/Regional/State Agency	The CTC partner works with FEMA to perform analyses to refine Zone A boundaries. Emphasis placed on automation techniques.
Hydrologic & Hydraulic (H&H) Modeling and Floodplain Mapping.	Community/Regional/State Agency	The CTC partner develops digital engineering data and floodplain mapping using GIS-based or traditional H&H modeling.
DFIRM Preparation.	Community/Regional/State Agency	The CTC partner digitizes the effective FIRM into a DFIRM.
Redelineation of Detailed Flood Hazard Information Using Updated Topographic Data.	Community/regional/State Agency	The CTC partner redelineates the effective flood hazard information using more up-to-date topographic data. GIS is used, where available.
Analysis of Community Mapping Needs to support FEMA's Mapping Needs Update Support System (MNUSS).	Regional/State Agency	The CTC partner performs a detailed community-by-community investigation and assessment of every NFIP community's mapping needs, including flood data updates, map maintenance, and includes unmapped communities.

While we provide no funding to CTC partners for the following mapping activities, we may provide technical assistance, support, and data to the CTC partner:

Activity	Partner	Description
Base Map Inventory	Regional or State Agency	The CTC partner performs an investigation and provides an inventory of base maps meeting FEMA's specifications for NFIP communities in the state.
Digital Base Map Data Sharing.	Community/Regional/ State Agency	The CTC partner supplies a base map for DFIRM production. The base map will comply with FEMA's minimum accuracy requirements and be distributable by FEMA to the public (hardcopy and electronic formats).
DFIRM Maintenance	Community/Regional/State Agency	The CTC partner assumes responsibility for long-term, periodic maintenance of the DFIRM.
Hydrologic and Hydraulic Review Agreement ...	Community/ Regional/State Agency	The CTC partner evaluates H&H studies prepared for flood data updates and/or 44 CFR Part 65 map revisions. The review will focus on compliance with the technical and regulatory requirements contained in FEMA's various flood mapping guidelines and specifications, the pertinent NFIP flood mapping regulations, as well as standard accepted engineering practices.

Activity	Partner	Description
Technical Standards Agreement	Community/ Regional/State Agency	Adoption of specific technical standards or processes appropriate for local conditions for NFIP flood mapping purposes.

4. Eligibility Criteria

The cooperative agreements (CAs) awarded in this effort are intended to supplement and not supplant, on-going mapping efforts by the community, regional agency, or State. The FEMA funds are in addition to the partner's current effort. This is the first year of this initiative and the FEMA Regional Offices have selected pilot communities based on the following criteria:

(a) The CTC partner must have existing processes or systems in place that support mapping or data collection activities that contribute to flood hazard identification. These ongoing processes or systems must be supported by non-federal funding.

(b) The CTC partner must have demonstrated the capability to perform the mapping activities for which it is applying.

(c) The CTC partner must be a community participating in the NFIP, and be in good standing in the program as determined by the FEMA Regional Office, or be a State or regional agency that serves communities that participate in the NFIP.

These criteria, which have been used in this pilot year, will be evaluated by FEMA and further enhanced in subsequent years. In addition to the selection criteria above, communities that receive a CA must be able to perform the financial management activities required as part of the cooperative agreement (i.e., account for federal funds, prepare financial reports). FEMA regional offices will assist the communities with these financial management activities.

FEDERAL EMERGENCY MANAGEMENT AGENCY

Opening Meeting, National Dam Safety Review Board

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Notice of meeting.

SUMMARY: In accordance with § 8(h) of the National Dam Safety Program Act

(P.L. 104-303), the Federal Emergency Management Agency gives notice that the following meeting will be held:

NAME: National Dam Safety Review Board.

DATE OF MEETING: October 11, 1999.

PLACE: Hyatt Regency Union State, St. Louis, Missouri.

TIME: 1:00 p.m.-5:00 p.m.

PROPOSED AGENDA: Review National Dam Safety Program activities.

STATUS: This meeting is open to the public.

FOR FURTHER INFORMATION CONTACT: Donald Bathurst, Director, National Dam Safety Program, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street, S.W., Room 416, Washington, D.C. 20472, telephone (202) 646-2753 or by facsimile at (202) 646-3990.

SUPPLEMENTARY INFORMATION: This meeting is open to the public with limited seating available on a first-come, first-served basis. Members of the general public who plan to attend the meeting should contact Rita Henry, Federal Emergency Management Agency, 500 C Street, S.W., Room 416, Washington, D.C. 20472, Telephone (202) 646-2704 or Bud Andress at (202) 646-2801 or by facsimile at (202) 646-3990 on or before October 7, 1999.

Minutes of the meeting will be prepared and available upon request 30 days after they have been approved by the National Dam Safety Review Board.

Dated: September 28, 1999.

Michael J. Armstrong,
Associate Director for Mitigation
