SUPPLEMENTARY INFORMATION:

Background

Codex was established in 1962 by two United Nations organizations, the Food and Agriculture Organization and the World Health Organization. Codex is the major international organization for encouraging fair international trade in food and protecting the health and economic interests of consumers. Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to ensure that the world's food supply is sound, wholesome, free from adulteration, and correctly labeled.

The Codex Committee on Food Hygiene Issues (CCFH) was established to draft basic provisions on food hygiene for all foods. The Government of United States of America hosts this committee and will chair the Thirty-second Session of the Codex Committee on Food Hygiene Issues.
