The PIRIB telephone number is 703-305-5805.

II. Meeting Information

A. What Will be Discussed at the Public Meeting?

The Agency notes in the Rodenticide Cluster Reregistration Eligibility Decision (RED) document that there are primary and secondary wildlife incidents involving rodenticides that the Agency would continue to evaluate before taking any further regulatory action. Since August 1998 the Agency has collected data and conducted further analysis. The Agency is initiating a one-day public meeting to discuss available data and to gather any further information regarding risks posed to birds and non-target mammals from rodenticides. Based on all available data, risk mitigation measures to protect birds and non-target mammals could be implemented in the amended RED this fall, if warranted.

The meeting will involve and potentially affect products with the following active ingredients: brodifacoum, bromadiolone, bromethalin, chlorophacinone, cholecalciferol, difethialone, diphacinone (and its sodium salt), pival (and its sodium salt), warfarin (and its sodium salt) and/or zinc phosphide.

Except for zinc phosphide, these rodenticides are used primarily for control of Norway rats, roof rats, and house mice in and around buildings, transport vehicles, and in sewers. Zinc phosphide is used mainly to control field rodents. Chlorophacinone and diphacinone also have some state special local need registrations for field uses. Anyone interested in these active ingredients is encouraged to attend. An opportunity will be provided at the meeting for interested parties to provide oral or written comments or submit additional information for the Agency to consider.

B. Where Will the Meeting Be Held?

The public meeting will be held from 9:00 a.m. to 3:00 p.m. on Tuesday, October 19, 1999, at The National Rural Electric Cooperative Association Conference Center, 4301 Wilson Blvd., Arlington, Virginia 22203-1860. The telephone number for the Conference Center is (703) 907-5500. Additional information about the Conference Center, including directions for getting there, have also been posted on the EPA internet www.epa.gov/pesticides/ppdc/rodent.

The TRAC has been co-chaired by EPA's Deputy Administrator and USDA's Deputy Secretary. The TRAC is a diverse group representing a broad range of interests including: farmers and growers; public health officials including pediatricians; pesticide companies and trade associations; food processors and distributors, academicians; Federal agencies; and State, local and Tribal governments.

Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action
