Proposed Collection; Comment Request

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment and Training Administration is soliciting comments concerning the proposed consolidation and renewal of Job Corps applicant forms. A copy of the proposed information collection request (ICR) can be obtained by contacting the office

listed below in the addressee section of this notice.

DATES: Written comments must be submitted to the office listed in the **ADDRESSES** section below on or before December 7, 1999.

SUPPLEMENTARY INFORMATION:

I. Background

The Job Corps program is designed to serve low-income young women and men, 16 through 24, who are in need of additional vocational, educational and social skills training, and other support services in order to gain meaningful employment, return to school or enter the Armed Forces. Authorized by the Workforce Investment Act (WIA) of 1998, Job Corps is operated by the Department of Labor through a nationwide network of 118 Job Corps centers. The program is primarily a residential program operating 24 hours per day, 7 days per week, with non-resident enrollees limited by legislation to 20 percent of national enrollment. These centers presently accommodate more than 40,000 students. To ensure that the centers are filled with youth

who are low-income, as well as capable of and committed to doing the work necessary to achieve the benefits of Job Corps, certain eligibility requirements have been established by the legislation.

The purpose of this collection is to gather information from applicants to the program in order to determine their eligibility for Job Corps. These forms are critical to the screening process. They are the initial forms completed by the Job Corps admissions counselors for each applicant.

The ETA 652, Job Corps Data Sheet, is used to obtain information for screening and enrollment purposes to determine eligibility for the Job Corps program in accordance with the requirements of the Workforce Investment Act. It is prepared electronically by an admissions counselor for each applicant. It also provides demographic characteristics for program reporting purposes. Data for the form are collected by interview. The information collected determines eligibility in regard to age, legal U.S. residency, family income/welfare status, school status, behavioral problems (if any), parental consent, and child care needs of each applicant.

The ETA 655, Statement from Courts or Other Agencies, and ETA 655A, Statement from Institution, collect essential information for determining an applicant's eligibility. They are used to document past behavior problems for all applicants, as well as provide a basis for projecting future behavior. If this
