

determinations until EPA has affirmatively found them adequate. Since the April 30, 1998, submittal does not contain adequate budgets, this attainment demonstration can not be used for future conformity determinations.

SUPPLEMENTARY INFORMATION:

Background: Throughout this document, whenever "we", "us" or "our" is used, we mean EPA. Today's notice is simply an announcement of a finding that we have already made. EPA Region 5 sent a letter to the Illinois Environmental Protection Agency on September 28, 1999, stating that the Chicago, Illinois submitted ozone attainment demonstration does not contain adequate mobile source emission budgets. This finding will also be announced on EPA's conformity website: <http://www.epa.gov/oms/traq>, (once there, click on the "Conformity" button, then look for "Adequacy Review of SIP Submissions for Conformity").

Transportation conformity is required by section 176(c) of the Clean Air Act. EPA's conformity rule requires that transportation plans, programs, and projects conform to state air quality implementation plans and establishes the criteria and procedures for determining whether or not they do. Conformity to a SIP means that transportation activities will not produce new air quality violations, worsen existing violations, or delay timely attainment of the national ambient air quality standards.

The criteria by which we determine whether a SIP's motor vehicle emission budgets are adequate for conformity purposes are outlined in 40 CFR 93.118(e)(4). Please note that an adequacy review is separate from EPA's completeness review, and it also should not be used to prejudge EPA's ultimate approval of the SIP. Even if we find a budget adequate, the SIP could later be disapproved.

We've described our process for determining the adequacy of submitted

SIP budgets in guidance (May 14, 1999 memorandum titled "Conformity Guidance on Implementation of March 2, 1999 Conformity Court Decision"). We followed this guidance in making our adequacy determination.

SUPPLEMENTARY INFORMATION: NACEPT is a federal advisory committee under the Federal Advisory Committee Act, Public Law 92463. NACEPT provides advice and recommendations to the Administrator and other EPA officials on a broad range of domestic and international environmental policy issues. NACEPT consists of a representative cross-section of EPA's partners and principle constituents who provide advice and recommendations on policy issues and serve as a sounding board for new strategies that the Agency is developing.

In follow-up to completion of work by EPA's Common Sense Initiative (CSI) Council, the Administrator has asked NACEPT to create a new Standing Committee on Sectors. This will provide a continuing Federal Advisory Committee forum from which the Agency can continue to receive valuable multi-stakeholder advice and recommendations on sector approaches.

Based on the lessons learned in CSI and many other sector based programs, the Agency has developed a Sector Based Environmental Protection Action Plan to reinforce and expand sector based approaches to achieving environmental results. The Standing Committee on Sectors will, through NACEPT (the Council): (1) Continue to support the on-going CSI work, (2) support the implementation of the Action Plan, as noted above, and (3) serve as a vehicle to get stakeholder reaction and input on sector based issues in a timely way.
