SUPPLEMENTARY INFORMATION: *Title:* Construction Grants Delegation to States; OMB Control No. 2040-0095; EPA ICR No. 0909.06; expiring 12/31/99. This is a request for extension of a currently approved collection.

Abstract: The purpose of this ICR is to revise and extend the current clearance for the collection of information under the Construction Grants Delegation to States, 40 CFR part 35, subpart J, and Title II of the Clean Water Act (CWA). While the Construction Grants Program is being phased out and replaced by the State Revolving Loan Fund (SRF) program, collection activities for the Construction Grants Program must continue until program completion. The program includes reporting, monitoring and program requirements for municipalities and delegated States.

The information collection activities described in this ICR are authorized under Section 205(g) of the Clean Water Act as amended, 33 U.S.C. 1251 *et seq.*, and under 40 CFR part 35, subpart J. The requested information provides the minimum data necessary for the Federal government to maintain appropriate fiscal accountability for use of section 205(g) construction grant funds. The information is also needed to assure an adequate management overview of those State project review activities that are most important to fiscal and project integrity, design performance, Federal budget control, and attainment of national goals.

Managers at the State and Federal levels both rely on the information described in this ICR. State managers rely on the information for their own program and project administration. Federal managers rely on this information to assess, control, and predict the impacts of the construction grants program on the Federal Treasury and future budget requirements. Federal managers also use this information to respond to OMB and Congressional requests and to maintain fiscal accountability.

In addition, builders of wastewater treatment plants use the information discussed in this ICR. The builders of these plants assess and use the information in the Innovative/Alternative Technology Data Base File to obtain technical information on innovative or alternative wastewater treatment systems.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 7/6/99 (64 FR 36350); no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 59.4 hours and 20 hours per response respectively. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and

providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: States and municipalities.

Estimated Number of Respondents: 32.

Frequency of Response: On occasion and annually.

Estimated Total Annual Hour Burden: 6016 hours.

Estimated Total Annualized Non-labor Cost Burden: \$0.

Abstract: During 1993, EPA promulgated regulations under section 608 of the Clean Air Act Amendments of 1990 (Act) for the recycling of chlorofluorocarbons (CFCs) and hydrochlorofluorocarbons (HCFCs) in air-conditioning and refrigeration equipment. These regulations were published in 58 FR 28660 and are codified at 40 CFR subpart F (section 82.150 *et seq.*).

The continued collection of this information will allow the Agency to carry on enforcement of the Act by reducing emissions of class I and class II refrigerants to the lowest achievable level during the service, maintenance, repair, and disposal of appliances in accordance with section 608 of the Act. The Act (40 CFR subpart F (section 82.166)) requires affected entities to maintain records and report requested information to the Agency. The ICR renewal does not include any burden for third-party or public disclosures not previously reviewed and approved by OMB.

Entities affected by this action are refrigeration and air-conditioning contractors, refrigerated transport service dealers, scrap metal recyclers, and automobile dismantlers and recyclers. Additional entities affected include Clean Air Act section 608 technician certification programs, equipment testing organizations, refrigerant wholesalers and purchasers, refrigerant reclaimers, and other establishments that perform refrigerant removal, service, or disposal.

Affected entities are required to maintain records and submit reports. Recordkeeping requirements and

Respondents/Affected Entities: 2,342,047.

Estimated Number of Respondents: 2,342,047.

Frequency of Response: Varies (occasional, annual, and semiannual).

Estimated Total Annual Hour Burden: 419,546 hours.
