#### Notice of Meeting

In accordance with section 10(d) of the Federal Advisory Committee Act (5 U.S.C., Appendix 2), announcement is made of a Special Emphasis Panel (SEP) meeting.

SEPs are committees used for scientific review activities. These committees have members drawn from a list of experts who are designated to serve for particular individual meetings rather than for extended fixed terms of service.

Substantial segments of the upcoming SEP meeting listed below will be closed to the public in accordance with the Federal Advisory Committee Act, section 10(d) of 5 U.S.C., Appendix 2 and 5 U.S.C., 552b(c)(6). Grant applications are to be reviewed and discussed at this meeting. These discussions are likely to reveal personal information concerning individuals associated with the applications. This information is exempt from mandatory disclosure under the above-cited statutes.

1. *Name of SEP:* HIV/AIDS.

*Date:* November 19, 1999 (Open from 2:00 p.m. to 2:15 p.m. and closed for remainder of the meeting)

*Place:* AHCPR, 2101 E. Jefferson Street, suite 400W Rockville, Maryland 20852.

*Contact Person:* Anyone wishing to obtain a roster of members or minutes of the meeting should contact Ms. Jenny Griffith, Committee Management Officer, Office of Research Review, Education and Policy, AHCPR, 2101

East Jefferson Street, Suite 400, Rockville, Maryland 20852, Telephone (301) 594-1847.

Agenda items for this meeting are subject to change as priorities dictate.

This notice is being published less than 15 days prior to the November 19 meeting due to the time constraints of reviews and funding cycles.

Dated: October 29, 1999.

### Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention is providing opportunity for public comment on proposed data collection projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 639-7090.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) The accuracy of the agency's estimate of the burden of the proposed collection of information; (c) Ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques for other forms of information technology. Send comments to Seleda Perryman, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

### Proposed Projects

1. Evaluation of Viral Hepatitis Educational Materials—New—National Center for Infectious Disease (NCID). The purpose of the proposed study is to assess the usefulness of hepatitis educational materials developed and

distributed by the Hepatitis Branch, CDC. Annually, 125,000–200,000 Americans are infected with hepatitis A virus (HAV) and results in approximately 100 deaths. The estimated cost associated with HAV infections is estimated at \$200 million a year in medical care and lost work days. An estimated 1 million to 1.25

million Americans are chronically infected with hepatitis B virus (HBV) and 4,000 to 5,000 die each year due to resultant cirrhosis and liver cancer. The estimated cost associated with HBV infections is estimated at \$700 million a year in medical care and lost work days. It is estimated that 3.9 million Americans have been infected with

hepatitis C virus (HCV), 2.7 million of which are chronically infected. Not including the cost of liver transplantation, the estimated cost associated with HCV infections is \$600 million a year in medical care and lost work days.

There are no costs to respondents other than their time to participate.

#### Proposed Projects

1. Telephone Survey Measuring HIV/STD Risk Behavior Using Standard Methodology—New—The Behavioral Surveillance Working Group, coordinated by the National Center for HIV, STD and Tuberculosis Prevention (NCHSTP). Proposes to conduct testing of a set of survey questions intended to obtain measures of risk behaviors for Human Immunodeficiency Virus (HIV) and Sexually Transmitted Diseases (STDs). Knowledge about the level of HIV risk behaviors in populations is essential for effective HIV prevention programs. Currently, survey-based assessment of these behaviors depends on a range of survey questions that differ across survey, and that are difficult to compare and to reconcile. Therefore, CDC has developed a draft set of items to be proposed as standard survey questions on the topics of sexual behavior, HIV testing, drug use, and other behaviors related to risk of contracting HIV and/or STDs. As part of this effort, CDC will sponsor a telephone-based pretest of 150 households, selected randomly from

within an urban area, in order to test these questions.

Further, because some of the survey questions are private and potentially sensitive, the project will entail the testing of a survey administration mode: Telephone-based audio computer-assisted self-interview (T-ACASI), in which a computer will be used to administer the most sensitive questions, and in which the surveyed individual enters responses directly onto the telephone keypad. This procedure eliminates the need for communication of sensitive questions from the interviewer to the respondent, as well as the need for respondents to answer the questions verbally. In order to test the effectiveness of this procedures, half of the interviews will be conducted using the T-ACASI procedure for the most sensitive questions, and half using standard, interviewer-based administration of all questions. Data analysis will rely on an assessment of the response rate under each mode, and on the nature of the data obtained to the sensitive questions.

Information and data obtained from this evaluation will help direct future surveys by determining whether it is feasible to attempt to administer these standard risk questions using a telephone survey and whether a T-ACASI-based procedure represents a technological innovation that will positively contribute to such an effort, through improvements in data quality.

The total cost to respondents is \$505.60.
