This action is compatible with the Grand Junction Resource Area Resource Management Plan (1987). Including the area in the Unaweep Seep Research Natural Area accomplishes a 24 year objective in the Whitewater Management Framework Plan. The addition completes the enclosure of the entire natural feature known as the Unaweep Seep in a protective designation. It extends the conditions contained in 48 FR 23716 (5-26-83) to these additional acres.
