Federal Land Managers' Air Quality Related Values Work Group (FLAG)

AGENCY: National Park Service, Interior.

ACTION: Notice of availability.

SUMMARY: The National Park Service, in cooperation with the U.S. Fish and Wildlife Service and the U.S. Department of Agriculture Forest Service, is announcing the availability of, and accepting comments on, the draft FLAG Phase I Report.

The Federal Land Managers' Air Quality Related Values Work Group (FLAG) was formed to develop a more consistent approach for the Federal Land Managers (FLMs), *i.e.*, National Park Service, U.S. Fish and Wildlife Service, and U.S. Department of Agriculture Forest Service, to evaluate air pollution effects on their resources. The FLAG effort focuses on the effects of the air pollutants that could affect the health and status of resources in areas managed by the three agencies, primarily such pollutants as ozone, particulate matter, nitrogen dioxide, sulfur dioxide, nitrates, and sulfates. In Phase I, FLAG formed subgroups that concentrated on four issues: (1) terrestrial effects of ozone; (2) aquatic and terrestrial effects of wet and dry pollutant deposition; (3) visibility; and (4) process and policy issues. The draft report contains issue-specific technical and policy analyses, recommendations for evaluating air quality related values, and guidelines for completing and evaluating new source review permit applications. These recommendations and guidelines are intended for use by the FLMs, permitting authorities, permit applicants, and other interested parties.

DATES: Written comments on the FLAG report must be received by January 7, 2000.

The FLMs will conduct a public meeting to discuss the FLAG report on December 15, 1999, from 8:00 a.m. to 5:00 p.m. at the Holiday Inn Lakewood, 7390 W. Hampden Avenue, Lakewood, CO 80227; (303) 980-9200. The meeting agenda is as follows: 8:00 a.m. to 10:00 a.m.—Process and Policy Issues, 10:00 a.m. to 12:00 noon—Visibility Issues, 1:00 p.m. to 3:00 p.m.—Ozone Issues, and 3:00 p.m. to 5:00 p.m.—Deposition Issues.
