POLICY JUSTIFICATION**Egypt - High Mobility Multi-purpose Wheeled Vehicles**

The Government of Egypt has requested a possible sale of 239 High Mobility Multi-purpose Wheeled Vehicles (HMMWV), electronic test set, spare and repair parts, personnel training and equipment, publications, U.S. Government and contractor engineering and logistics personnel services, a Quality Assurance Team, and other related elements of logistics support. The estimated cost is \$30 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in the Middle East.

The proposed sale of the HMMWVs will be fielded with Egypt's TOW weapon system in their Field Artillery and to replace existing jeeps as support vehicles. Egypt, which already has trucks in its inventory, will have no difficulty absorbing these trucks.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

The prime contractor will be AM General of South Bend, Indiana. There are no offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of a U.S. Government Quality Assurance Team for one week and a contractor Field Services Representative for a year to Egypt.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Dated: November 3, 1999.
