

standard, designated "Draft FIPS 140-2," is proposed to supersede FIPS 140-1.

FIPS 140-1, first published in 1994, specified that it be reviewed within five years. In 1998, NIST solicited public comments on reaffirming the standard. The comments received by NIST supported maintaining the standard. The comments also supported updating the standard due to advances in technology. The proposed revision (Draft FIPS 140-2) is now available for public review and comment.

Prior to the submission of this proposed standard to the Secretary of Commerce for review and approval, it is essential that consideration is given to the needs and views of the public, users, the information technology industry, and Federal, State and local government organizations. The purpose of this notice is to solicit such views.

**DATES:** Comments must be received on or before February 15, 2000.

**ADDRESSES:** Written comments may be sent to: Chief, Computer Security Division, Information Technology Laboratory, Attention: Comments on Draft FIPS 140-2, 100 Bureau Drive—Stop 8930, National Institute of Standards and Technology, Gaithersburg, MD 20899-8930.

Electronic comments may also be sent to: "Proposed140-2@nist.gov."

Copies of the current FIPS 140-1 and its proposed replacement, Draft FIPS 140-2, are available from the Computer Security Division, Information Technology Laboratory, 100 Bureau Drive—Stop 8930, National Institute of Standards and Technology, Gaithersburg, MD 20899-8930. They are also available electronically at: <http://csrc.nist.gov/fips/>. Comments received in response to this notice will be published electronically at <http://csrc.nist.gov/cryptval/>.

**FOR FURTHER INFORMATION CONTACT:** Mr. Ray Snouffer, Computer Security Division, 100 Bureau Drive, Stop 8930, National Institute of Standards and Technology, Gaithersburg, MD 20899-8930, telephone (301) 975-4436.

**SUPPLEMENTARY INFORMATION:** FIPS 140-1, Security Requirements for Cryptographic Modules, first issued in 1994, identifies requirements for four security levels for cryptographic modules to provide for a wide spectrum of data sensitivity (e.g., low value administrative data, million dollar funds transfers, and life protecting data), and a diversity of application environments. Over 60 modules have been tested by accredited private-sector laboratories and validated to-date as conforming to this standard. The

standard provided that it be reviewed within five years to consider its continued usefulness and whether new or revised requirements should be added.

A notice was published in the **Federal Register** (Volume 63, Number 205) on October 23, 1998, soliciting public comments on reaffirming the standard. The comments (available at <http://csrc.nist.gov/cryptval/>) supported reaffirmation of the standard, but suggested technical modifications to address advances in technology since the standard was originally issued. Using these comments, NIST prepared by Draft FIPS 140-2.

**Authority:** NIST's activities to develop computer security standards to protect Federal sensitive (unclassified) systems are undertaken pursuant to specific responsibilities assigned to NIST in section 5131 of the Information Technology Management Reform Act of 1996 (Pub. L. 104-106), the Computer Security of 1987 (Pub. L. 100-235), and Appendix III to Office of Management and Budget Circular A-130.

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of workshop.

**SUMMARY:** NMFS will present a workshop on the year 2000 permit requirements for vessels, processors, and cooperatives wishing to participate in the Bering Sea and Aleutian Islands pollock fishery under the American Fisheries Act (AFA).

**DATES:** The public workshop will be held on Monday, November 29, 1999, 8:30 a.m. - 5:00 p.m.

**ADDRESSES:** The workshop will be held at the NMFS Alaska Fisheries Science Center, Building 9, Auditorium, 7600 Sand Point Way, NE., Seattle, WA.

**FOR FURTHER INFORMATION CONTACT:** Sue Salveson, 907-586-7228.

**SUPPLEMENTARY INFORMATION:** NMFS is considering implementing permit requirements for vessels, processors, and cooperatives wishing to participate in the Bering Sea pollock fishery under the AFA through an emergency rule. This action would be necessary to comply with the implementation deadline specified in the AFA.

NMFS is conducting a November 29, 1999, workshop for interested industry members to provide guidance on the AFA permit application process for the year 2000 BSAI pollock fishery. This guidance has been requested by industry given the anticipated short time period between publication of an emergency rule, submission of industry applications in response to an emergency rule, and agency issuance of applicable permits prior to the start of the year 2000 Bering Sea pollock fishery scheduled for January 20, 2000.

#### Special Accommodations

This workshop will be physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Sue Salveson at
