ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve
revisions to the California State

concern rules from the Amador County
Air Pollution Control District (ACAPCD)

in accordance with the Clean Air Act, as
amended in 1990 (CAA or the Act). In
the Rules section of this **Federal

received, no further activity is
contemplated in relation to this rule. If
EPA receives adverse comments, the
direct final rule will not take effect and
all public comments received will be
addressed in a subsequent final rule
based on this proposed rule. EPA will
not institute a second comment period

Approval and Promulgation of Air Quality Implementation Plans; Colorado; Revisions to Regulation No. 7, Section III, General Requirements for Storage and Transfer of Volatile Organic Compounds

AGENCY: Environmental Protection
Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is taking direct final
action to approve a revision to the
Colorado State Implementation Plan
(SIP) to Regulation No. 7, "Regulation
To Control Emissions of Volatile
Organic Compounds." The revision to
Regulation No. 7 involves the addition
of paragraph C to section III, "General
Requirements for Storage and Transfer
of Volatile Organic Compounds." This
new paragraph C exempts beer
production and associated beer
container storage and transfer
operations involving volatile organic
compounds with a true vapor pressure
of less than 1.5 psia, at actual
conditions, from the submerged or
bottom-fill requirements of section III.
B. In the "Rules and Regulations"
section of this **Federal Register**, EPA is
approving the State's SIP revision as a
direct final rule without prior proposal
because the Agency views this as a
noncontroversial SIP revision and
anticipates no adverse comments. A
detailed rationale for the approval is set
forth in the direct final rule. If EPA
receives no adverse comments, EPA will
not take further action on this proposed
rule. If EPA receives adverse comments,
EPA will withdraw the direct final rule
and it will not take effect. EPA will
address all public comments in a
subsequent final rule based on this
proposed rule. EPA will not institute a
second comment period on this action.
Any parties interested in commenting
on this action should do so at this time.
