

Commission and the diverse agricultural and agriculture-related organizations represented on the Committee. The purposes and objectives of the AAC are more fully set forth in its charter.

The meeting is open to the public. The Chairman of the AAC, Commissioner David D. Spears, is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the AAC should mail a copy of the statement prior to the meeting to the attention of: The Agricultural Advisory Committee, c/o Commissioner David D. Spears, Commodity Futures Trading Commission, Three Lafayette Centre, 1155 21st Street, NW., Washington, DC 20581. Members of the public who wish to make oral statements should also inform Commissioner Spears in writing at the foregoing address at least three business days before the meeting. Reasonable provision will be made, if time permits, for an oral presentation of no more than five minutes each in duration.

For further information contact Jennifer A. Roe, Administrative Assistant to Commissioner Spears, at 202-418-5043, or Marcia K. Blase, Committee Management Officer, at 202-418-5138.

Issued by the Commission in Washington, DC, on November 15th, 1999.

Jean A. Webb,

Secretary of the Commission.

Board of Visitors Meeting

AGENCY: Department of Defense Acquisition University, DoD.

ACTION: Board of Visitors meeting.

SUMMARY: The next meeting of the Defense Acquisition University (DAU) Board of Visitors (BoV) will be held at the Packard Conference Center, Building 184, Ft. Belvoir, Virginia on Wednesday December 1, 1999 from 0900 until 1500. The purpose of this meeting is to report back to the BoV on continuing items of interest. The agenda will also include a discussion on the most recent efforts to reorganize the University into unified structure.

The meeting is open to the public; however, because of space limitations, allocation of seating will be made on a first-come, first served basis. Persons

desiring to attend the meeting should call Mr. John Michel at 703-845-6756.

Dated: November 12, 1999.

L.M. Bynum,

*Alternate OSD Federal Liaison Officer,
Department of Defense.*

Notice of Intent To Prepare a Joint Use Supplement to the Final Programmatic Environmental Impact Statement (EIS) for the Disposal of Kelly Air Force Base (AFB), Texas

The United States Air Force (Air Force) is issuing this notice to advise the public of its intent to prepare a joint use supplement to the May 1997, Final Programmatic EIS, Disposal of Kelly AFB in San Antonio, Texas (Joint Use Supplemental EIS). The Greater Kelly Development Corporation (GKDC) has requested that the Air Force authorize joint civil and military use of portions of the airfield facilities at Kelly AFB and permit regular civilian aircraft operations. The Joint Use Supplemental EIS will analyze potential environmental impacts from GKDC's proposal and alternatives and will be considered in making decisions about joint use that will be documented in the Air Force's Record of Decision. The GKDC, the City of San Antonio, and the Federal Aviation Administration have been invited to act as cooperating agencies in this process.

On December 7, 1999, starting at 6:00 p.m., a public scoping meeting will be held at John F. Kennedy High School, 1922 South General McMullen Highway, San Antonio, Texas. The scoping meeting will be a forum for public officials and the community to provide information and comments relative to environmental issues and concerns that need to be assessed and discussed in the Joint Use Supplemental EIS. During the meeting, the Air Force will discuss the proposal for joint use of portions of Kelly AFB, describe the process involved in preparing a supplemental EIS, and ask for input on joint use alternatives. The Air Force will consider all comments offered by any federal, state, or local government agency, as well as any individual or private entity. The cumulative impacts of a proposed Texas Air National Guard mission change environmental assessment will be incorporated into the Joint Use Supplemental EIS.

To ensure sufficient time to adequately consider public comments concerning joint use alternatives, the Air Force recommends that comments be presented at the earliest possible date. The formal coping process will end January 7, 2000. The Air Force will, however, accept additional comments any time during the process.

Please direct written comments or requests for further information concerning the Joint Use Supplemental EIS to Jonathan D. Farthing, HQ AFCEE/ECA, 3207 North Road, Brooks AFB, TX 78235-5363, 210-536-3787, or fax to 210-536-3890.

Janet A. Long,

Air Force Federal Register Liaison Officer.

Department of the Army, Corps of Engineers

Intent To Prepare an Environmental Impact Statement/Environmental Impact Report (EIS/R) and Feasibility Report for the Upper Penitencia Creek, California, Flood Control Study

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Notice of intent.

SUMMARY: The San Francisco District, U.S. Army Corps of Engineers, together with its non-Federal sponsor, the Santa Clara Valley Water district, is conducting a feasibility study for flood control along Upper Penitencia Creek, Santa Clara County, California. Based on the results of the reconnaissance study the Corps has determined there is a Federal interest in two alternatives that would modify the floodplain, construct a bypass culvert, and in the alternative, floodproof some structures. These alternatives would provide net economic benefits while minimizing environmental impacts. The Corps of Engineers is the lead agency for this project under the National Environmental Policy Act (NEPA), and the Santa Clara Valley Water district (SCVWD) is the lead agency under the California Environmental Quality Act (CEQA). The EIS/R will enable the lead agencies to comply with the requirements of NEPA and CEQA.

FOR FURTHER INFORMATION CONTACT: Written comments and questions regarding the scoping process or preparation of the EIS/R should be directed to Mr. Bill DeJager at (415) 977-8670 or Mr. Gary Flickinger at (415) 977-8548 at the U.S. Army Corps of

Engineers, San Francisco District, 333 Market Street, 7th Floor, Planning Branch, San Francisco, CA 94105-2197.

SUPPLEMENTARY INFORMATION:

1. Authority

The feasibility study is being conducted under authority of the Flood Control Act of 18 August 1941, which authorized a preliminary examination and survey of the Coyote River (now Coyote Creek) and its tributaries. A reconnaissance study of flood control alternatives along Upper Penitencia Creek was completed in 1995. This study determined there is a Federal interest in a flood control project in the study area. A detailed (feasibility) study has subsequently been initiated with the SCVWD to support further Federal participation in the project.

2. Alternatives

Three basic alternatives, each with three subalternatives, were developed for the reconnaissance study. These alternatives included various combinations of modified floodplains, bypass channels, trapezoidal channels, and floodproofing. The feasibility study will examine a range of alternative methods of flood control.

3. Comments and Scoping Meetings

The Corps of Engineers is requesting public input during the EIS/R preparation for this project. All interested Federal, State, and local agencies, Indian tribes, private organizations, and individuals are invited to participate in the environmental scoping process established by Federal regulations. A scoping meeting will be held on December 1, 1999, from 7:00 PM to 9:00 PM, at the Education Center Lounge, East Side Union High School, 830 N. Capitol Ave., San Jose, California 95133. The purpose of the meeting is to determine the environmental issues of concern to the public that should be addressed by the EIS/R. A public comment period for the proposal will open on November 19, 1999, and will close on December 20, 1999. The public will have an additional opportunity to comment on proposed alternatives after the EIS/R is released to the public at a later date. This EIS scoping meeting will also serve as a scoping meeting for the purposes of CEQA.

4. Issues to be Considered

The EIS/R will examine environmental issues of public concern arising from the scoping process, and project impacts already known to the Corps. These impacts will include, but are not limited to: wildlife, fisheries,

threatened and endangered species, vegetation, water quality, recreation and park development, aesthetics, transportation, cultural resources, public safety, and noise. The EIS/R will disclose the project's compliance with all applicable statutes, rules, and regulations. Included will be coordination with the U.S. Fish and Wildlife Service (FWS) under the Fish and Wildlife Coordination Act, coordination with the FWS and the National Marine Fisheries Service under the Endangered Species Act, and coordination with the State of California under the Federal Clean Water Act and Clean Air Act.

Erik T. Blechinger,

Maj, En, Deputy Commander.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. RP99-441-002]

CNG Transmission Corporation; Notice of Proposed Changes in FERC Gas Tariff

Take notice that on November 8, 1999, CNG Transmission Corporation (CNG) filed as part of its FERC Gas Tariff, Second Revised Volume No. 1, the following tariff sheets, with an effective date of August 1, 1999:

Sub. Second Revised Sheet No. 254A

Sub. Second Revised Sheet No. 260

CNG requests waiver of the notice requirements of Section 154.207 of the Commission's regulations, so that CNG's revised tariff sheets may become effective as proposed.

CNG states that the purpose of this filing is to comply with the October 25, 1999, letter order in this docket. Consistent with the order, CNG has revised Sheet Nos. 254A and 260 to reflect the gigacalorie measurements set forth in GISB Standard 2.3.9.

CNG states that copies of its letter of transmittal and enclosures are being served upon its customers and to interested state commissions.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to

be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

Linwood A. Watson, Jr.,

Acting Secretary.
