### Foreign-Trade Zones Board

[Docket 58-99]

#### Foreign-Trade Zone 84—Houston, Texas; Application for Expansion

An application has been submitted to the Foreign-Trade Zones (FTZ) Board (the Board) by the Port of Houston Authority, grantee of FTZ 84, requesting authority to expand its zone to include a site at the George Bush Intercontinental Airport in Houston, Texas, within the Houston-Galveston Customs port of entry. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR Part 400). It was formally filed on November 17, 1999.

FTZ 84 was approved on July 15, 1983 (Board Order 214, 48 FR 34792, 8/1/83), and the zone project currently consists of thirteen sites (1,499.92) at port facilities, industrial parks and warehouse facilities in Harris County.

The applicant is now requesting authority to expand the general-purpose zone to include the jet fuel storage and distribution system (22 acres) at the George Bush Intercontinental Airport on Fuel Storage Road, Houston, Texas. The site includes the existing jet fuel storage facility (17 acres) and an adjacent proposed 5-acre expansion of the facility planned for the year 2001. This facility consists primarily of jet fuel storage tanks, a pumping station, pipelines and other facilities and structures for loading and unloading fuel. The facility is owned by the City of Houston. The jet fuel system activity is currently handled by Ogden Aviation Services.

No specific manufacturing requests are being made at this time. Such

requests would be made to the Board on a case-by-case basis.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment on the application is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is January 31, 2000. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to February 14, 2000).

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations:

U.S. Department of Commerce, Export Assistance Center, 500 Dallas, Suite 1160, Houston, TX 77002  
Office of the Executive Secretary, Foreign-Trade Zones Board, Room 4008, U.S. Department of Commerce, 14th & Pennsylvania Avenue NW, Washington, DC 20230

Dated: November 19, 1999.

### International Trade Administration

#### Extension of Time Limit for Preliminary Results of Full Five-Year Reviews

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of extension of time limit for preliminary results of full five-year ("Sunset") Reviews.

**SUMMARY:** The Department of Commerce ("the Department") is extending the time limit for the preliminary results of seven full sunset reviews initiated on August 2, 1999 (64 FR 41915) covering various antidumping and countervailing duty orders and suspended investigations. Based on adequate responses from domestic and respondent interested parties, the Department is conducting full sunset reviews to determine whether revocation of the antidumping and countervailing duty orders or termination of the suspended investigations would be likely to lead to continuation or recurrence of dumping or a countervailable subsidy. As a result

of these extensions, the Department intends to issue its preliminary results not later than February 18, 2000.

**EFFECTIVE DATE:** November 30, 1999.

**FOR FURTHER INFORMATION CONTACT:**

Mark D. Young or Melissa G. Skinner, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-3207, or (202) 482-1560 respectively.

**Extension of Preliminary Results**

In accordance with section 751(c)(5)(C)(v) of the Tariff Act of 1930, as amended ("the Act"), the Department may treat a sunset review as extraordinarily complicated if it is a review of a transition order (*i.e.*, an order in effect on January 1, 1995). The Department has determined that the sunset reviews of the following antidumping and countervailing duty orders and suspended investigations are extraordinarily complicated:

A-201-802 Grey Portland Cement and Cement Clinker from Mexico

A-307-803 Grey Portland Cement and Cement Clinker from Venezuela

C-122-815 Pure Magnesium from Canada

C-122-815 Alloy Magnesium from Canada

A-122-814 Pure Magnesium from Canada

A-821-802 Uranium from Russia

A-844-802 Uranium from Uzbekistan

Therefore, the Department is extending the time limit for completion of the preliminary results of these reviews until not later than February 18, 2000, in accordance with section 751(c)(5)(B) of the Act.

Dated: November 22, 1999.

**Certain Hot-Rolled Lead and Bismuth Carbon Steel Products From the United Kingdom: Final Results of Changed-Circumstances Antidumping and Countervailing Duty Administrative Reviews**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of final results of changed-circumstances antidumping and countervailing duty administrative reviews.

**SUMMARY:** On October 5, 1999, the Department of Commerce published a notice of initiation and preliminary results of changed-circumstances antidumping and countervailing duty administrative reviews of the antidumping and countervailing duty orders on hot-rolled lead and bismuth carbon steel products from the United Kingdom, in which we preliminarily determined that Niagara LaSalle (UK) Limited is the successor-in-interest to Glynwed Metals Processing Limited for purposes of determining antidumping and countervailing duty liability. We are now affirming our preliminary results.

**EFFECTIVE DATE:** November 30, 1999.

**FOR FURTHER INFORMATION CONTACT:**

Rebecca Trainor or Kate Johnson (Antidumping) or Dana Mermelstein (Countervailing), Office of AD/CVD Enforcement, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone (202) 482-4007, (202) 482-4929, or (202) 482-3208, respectively.

**SUPPLEMENTARY INFORMATION:**

**The Applicable Statute**

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended (the Act), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act (URAA). In addition, unless otherwise indicated, all citations to the Department of Commerce's (the Department's) regulations are to the regulations at 19 CFR Part 351 (1998).

**Background**

On March 22, 1993, the Department published in the **Federal Register** the antidumping duty order on certain hot-rolled lead and bismuth carbon steel products from the United Kingdom (58 FR 15324). Also, on March 22, 1993, the Department published in the **Federal Register** the companion countervailing duty order (58 FR 15327).

On August 18, 1999, Niagara LaSalle (UK) Limited (Niagara) submitted a letter stating that it is the successor-in-interest to Glynwed Metals Processing Limited (Glynwed), and requested that the Department conduct a changed-circumstances review to determine whether Niagara should receive the same antidumping and countervailing duty treatment as is accorded Glynwed with respect to the subject merchandise.

Niagara requested that the result of the Department's changed-circumstances review be retroactive to May 21, 1999, the date of its acquisition of Glynwed.

On October 5, 1999, we published a notice of initiation and preliminary results of changed-circumstances antidumping and countervailing duty administrative reviews (64 FR 53994) in which we preliminarily found that Niagara is the successor-in-interest to Glynwed for purposes of determining antidumping and countervailing duty liability. We stated that this finding would be effective as of the publication date of our final results for the purposes of antidumping duties, and as of May 21, 1999 for purposes of countervailing duties, if affirmed in our final results. We received comments from Niagara on October 15, 1999.

**Scope of the Review**

The products covered by this review are hot-rolled bars and rods of nonalloy or other alloy steel, whether or not descaled, containing by weight 0.03 percent or more of lead or 0.05 percent or more of bismuth, in coils or cut lengths, and in numerous shapes and sizes. Excluded from the scope of this review are other alloy steels (as defined by the *Harmonized Tariff Schedule of the United States* (HTSUS) Chapter 72, note 1 (f)), except steels classified as other alloy steels by reason of containing by weight 0.4 percent or more of lead, or 0.1 percent or more of bismuth, tellurium, or selenium. Also excluded are semi-finished steels and flat-rolled products. Most of the products covered in this review are provided for under subheadings 7213.20.00.00 and 7214.30.00.00 of the HTSUS. Small quantities of these products may also enter the United States under the following HTSUS subheadings: 7213.31.30.00; 7213.31.60.00; 7213.39.00.30; 7213.39.00.60; 7213.39.00.90; 7213.91.30.00; 7213.91.45.00; 7213.91.60.00; 7213.99.00; 7214.40.00.10, 7214.40.00.30, 7214.40.00.50; 7214.50.00.10; 7214.50.00.30, 7214.50.00.50; 7214.60.00.10; 7214.60.00.30; 7214.60.00.50; 7214.91.00; 7214.99.00; 7228.30.80.00; and 7228.30.80.50. HTSUS subheadings are provided for convenience and customs purposes. The written description of the scope of this proceeding is dispositive.

**Interested Party Comments**

Niagara argues that, while the Department properly recognized that Niagara's antidumping deposit rate as of May 21, 1999, should be that of the former Glynwed, the preliminary notice
