

dumping has continued over the life of the orders and respondent interested parties have waived their right to participate in these reviews before the Department, and absent argument and evidence to the contrary, the Department determines that dumping is likely to continue if the orders were revoked.

Magnitude of the Margin

In the *Sunset Policy Bulletin*, the Department stated that it will normally provide to the Commission the margin that was determined in the final determination in the original investigation. Further, for companies not specifically investigated or for companies that did not begin shipping until after the order was issued, the Department normally will provide a margin based on the "all others" rate from the investigation. (See section II.B.1 of the *Sunset Policy Bulletin*.) Exceptions to this policy include the use of a more recently calculated margin, where appropriate, and consideration of duty absorption determinations. (See sections II.B.2 and 3 of the *Sunset Policy Bulletin*.)

The Department, in the antidumping duty order on OCTG from Canada, as amended, established deposit rates for the following producers and/or exporters: 13.00 percent for Algoma, 33.78 percent for Ipsco, and 3.18 percent for Sonco. The Department also established a 16.65 percent deposit rate for all other producers and/or exporters (51 FR 21782 (June 16, 1986)).⁸ We note that, to date, the Department has not issued any duty absorption findings in this case.

The Department, in the antidumping duty order on OCTG from Taiwan, established a deposit rate of 26.32 percent for Far East. The Department also established a 26.32 percent deposit rate for all other producers and/or exporters (51 FR 22098 (June 16, 1986)). We note that, to date, the Department has not issued any duty absorption findings in this case.

Antidumping; Oil Country Tubular Goods From Canada; Final Determination of Sales at Less Than Fair Value, 51 FR 15029 (April 22, 1986) and *Oil Country Tubular Goods From Canada; Final Results of Antidumping Duty Administrative Review and Revocation in Part of the Antidumping Duty Order*, 61 FR 49733 (September 23, 1996)).

⁸ The antidumping duty order was subsequently amended. See *Oil Country Tubular Goods (OCTG) From Canada: Amendment to Final Determination of Sales at Less Than Fair Value and Amendment to Antidumping Duty Order*, 51 FR 29579 (August 19, 1986) and *Oil Country Tubular Goods From Canada; Amendment to Final Determination of Sales at Less Than Fair Value and Antidumping Duty Order in Accordance With Decision Upon Remand*, 54 FR 41576 (October 10, 1989).

In its substantive responses, the domestic interested parties argued that the Department should report to the Commission the deposit rates established in the original investigations of these orders because, as stated in the *Sunset Policy Bulletin*, they are the only calculated rates that reflect the behavior of producers and/or exporters without the discipline of the order. Furthermore, with respect to the order on OCTG from Canada, USS/Kobe argued that for two additional producers not examined in the original investigation, Christianson Pipe, Ltd. and Prudential Steel, Ltd., the Department should report the all others rate from the original investigation.

The Department agrees with the domestic interested parties. We find that the dumping margins calculated in the original investigations are the only calculated rates that reflect the behavior of exporters without the discipline of the orders. Consistent with the *Sunset Policy Bulletin*, we determine that the margins calculated in the Department's original investigations are probative of the behavior of Canadian and Taiwanese producers and/or exporters of OCTG if the orders were revoked. Therefore, we will report to the Commission the company-specific and "all others" rates from the original investigations contained in the Final Results of Review section of this notice.

Final Results of Reviews

As a result of these reviews, the Department finds that revocation of the antidumping duty orders would be likely to lead to continuation or recurrence of dumping at the margins listed below:

	Margin (percent)
Canadian manufacturers/exporters:	
Algoma	13.00
Sonco	3.18
Ipsco	Revoked.
Welded Tube	Excluded.
All Others	16.65
Taiwanese manufacturers/exporters:	
Far East	26.32
All Others	26.32

The first 10 actions, with options, of the Dolphin/Wahoo FMP contain measures that are applicable to the dolphin and wahoo stocks in the jurisdictions of all three councils. These include measures to: define the management units; address dealer, vessel, and operator permits; consider data reporting requirements; identify estimates of maximum sustainable yield, optimum yield, and overfishing criteria; and framework options to enable seasonal adjustments to the management structure. Other actions, with options, are separately applicable to each council's area of jurisdiction, and include actions that may be implemented through the framework procedures, e.g. minimum size limits, bag limits, trip limits, and allocations. Based on this review, the Dolphin and Wahoo AP may make recommendations to the Council of preferred actions.

The SSC meeting is scheduled to begin at 1:00 p.m. on January 12, 2000, and will conclude by 5:00 p.m. The SSC meeting will be held at the Doubletree Hotel, 300 Canal Street, New Orleans, Louisiana; telephone 504-581-1300.
