SUPPLEMENTARY INFORMATION:

Title: Certification for Not Performing Accounting for Comparison (Dual Accounting).

OMB Control Number: 1010-0104.

Abstract: The Secretary of the Interior is responsible for collecting royalties from leases producing minerals from leased Federal and Indian lands. The Secretary is required by various laws to manage the production of mineral resources on Indian lands and Federal onshore and offshore leases, to collect the royalties due, and to distribute the funds in accordance with those laws; we perform these royalty management functions for the Secretary.

On August 10, 1999, the Minerals Management Service (MMS) published in the **Federal Register** (64 FR 43506) the notice of a final rulemaking titled

"Amendments to Gas Valuation Regulations for Indian Leases," with an effective date of January 1, 2000. In that Notice, MMS requires that lessees submit the Form MMS-4410, Certification For Not Performing Accounting for Comparison, when gas is never processed prior to entering the pipeline with an index located in an index zone or into a mainline pipeline not in an index zone.

The certification form is part of MMS's final rulemaking amending its regulations governing the valuation, for royalty purposes, of natural gas produced from Indian leases. The gas regulations apply to all gas production from Indian (tribal or allotted) oil and gas leases (except leases on the Osage Indian Reservation). The new regulations resulted from a negotiated rulemaking between Indian tribes and allottees, oil and gas industry, and Government.

Most Indian lease terms require accounting for comparison (dual accounting) when gas produced from the lease is processed. Under the rule, to not perform dual accounting, a lessee must certify, on Form MMS-4410, that the gas was never processed prior to entering the pipeline with an index located in an index zone or into a mainline pipeline not in an index zone. The lessee will be required to sign the certification form for each lease having production that is exempt from dual accounting. This is a one-time certification that will remain in effect until there is a change in lease status or ownership. This certification will allow MMS and the tribes to better monitor compliance with the dual accounting requirement of Indian leases.

In most cases, the lessee will know the disposition of the gas. If gas is sold at the wellhead, the lessee may have to consult with the purchaser of the gas to determine its disposition. The MMS or tribal auditors, Indian representatives, MMS's Royalty Valuation Division, and the Office of Indian Royalty Assistance, may use the information provided on the form.

The current OMB inventory of 5,412 hours is decreased to 2,880 hours. This adjusted decrease of 2,532 burden hours is the result of our originally overestimating the number of Indian leases that would be required to submit Form MMS-4410.

Respondents/Affected Entities: Companies that pay royalties on gas produced from tribal and allotted Indian leases.

Frequency of Response: One-time certification in effect until a change of lease status or ownership.

Estimated Number of Respondents: 720.

Estimated Total Annual Reporting and Recordkeeping Burden: 2,880 hours

Comments: Section 3506(c)(2)(A) of the Paperwork Reduction Act requires each agency A * * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * *. Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Send your comments directly to the offices listed under the **ADDRESSES** section of this notice. OMB has up to 60 days to approve or disapprove the information collection but may respond after 30 days. Therefore, to ensure maximum consideration, OMB should receive public comments by January 3, 2000.

MMS Information Collection Clearance Officer: Jo Ann Lauterbach, (202) 208-7744.

Dated: November 23, 1999.

Title: Safety Net Report.

OMB Control Number: 1010-0103.

Abstract: The Secretary of the Interior is responsible for collecting royalties from leases producing minerals from leased Federal and Indian lands. The Secretary is required by various laws to manage the production of mineral resources on Indian lands and Federal onshore and offshore leases, to collect the royalties due, and to distribute the funds in accordance with those laws; we perform these royalty management functions for the Secretary.

In that Notice, MMS requires that lessees submit the Safety Net Report, Form MMS-4411, when gas production from an Indian lease is sold beyond the first index pricing point.

The Safety Net Report is part of MMS's final rulemaking amending its regulations governing the valuation, for royalty purposes, of natural gas produced from Indian leases. The gas regulations apply to all gas production from Indian (tribal or allotted) oil and gas leases (except leases on the Osage Indian Reservation). The new regulations resulted from a negotiated rulemaking between Indian tribes and allottees, oil and gas industry, and Government.

The safety net calculation establishes the minimum value, for royalty purposes, of natural gas produced from Indian leases. This reporting requirement will assist the Indian lessor in receiving all the royalties that are due and aid MMS in its compliance efforts. The rule requires the lessee to calculate the safety net price using prices received for gas sold downstream of the first index pricing point. It will include only the lessee's or lessee's affiliate's arm's-length contracts and will not require detailed calculations for the costs of transportation. By June 30 following any calendar year, the rule requires the lessee to calculate for each month of the previous calendar year a safety net price. The rule requires the lessee to submit a separate Form MMS-
