

local governments; and non-profit organizations. Many grantees also subgrant a significant portion of their funds to others (e.g., a state commission conducts a competition and review process and funds AmeriCorps programs throughout a state; a state education agency (SEA) conducts a competition and review process and funds school systems throughout a state). None of the 1300 Senior Corps grantees are permitted by regulation to subgrant.

Learn and Serve America National Service-Learning Clearinghouse

The Learn and Serve America National Service-Learning Clearinghouse is a collaborative effort among twelve national partner organizations to collect and disseminate information on service-learning for national service grantees and the general public engaged in service-learning. Housed at the University of Minnesota, the Clearinghouse maintains and operates a web site and service-learning listservs, a library of print and media materials related to service-learning, and a toll-free information and referral service. Providers will be required to submit copies of service-learning related training materials and training scripts to the Learn and Serve America National Service-Learning Clearinghouse.

Learn and Serve America Training and Technical Assistance Exchange

The Learn and Serve America Training and Technical Assistance Exchange, led by the National Youth Leadership Council, supports service-learning programs in schools, institutions of higher education, and community organizations through peer-based training and technical assistance. The Exchange links programs with local peer mentors, refers programs to regional trainers, and informs programs of regional service-learning events and initiatives. When providing training and technical assistance to Learn and Serve America grantees or subgrantees, providers will be required to coordinate with the Exchange.

National Service Resource Center (NSRC)

Currently managed by ETR Associates, Inc., Santa Cruz, California, the National Service Resource Center (NSRC) serves as a repository of information on all aspects of national service. The NSRC manages most of the Corporation's listservs and its web site includes a calendar of training events and links to all current providers. The NSRC also has a lending library. Training and technical assistance

publications are posted or distributed by the NSRC. Providers will be required to submit copies of their training materials and training scripts to the National Service Resource Center.

Stream of Service

Refers to the Corporation's three main programs: AmeriCorps, Learn and Serve America and National Senior Service Corps. Cross-stream activities, therefore, refer to activities conducted or attended by representatives from more than one program stream.

Subgrantees

Many Corporation grantees competitively award a significant portion of their funds to other entities known as subgrantees. State commissions, for example, subgrant to local non-profit organizations. Senior Corps programs do not subgrant (see "Grantees").

Substream of Service

Refers to the categories within each of the above streams and includes the following:

AmeriCorps

AmeriCorps*State
AmeriCorps*National
AmeriCorps*VISTA
AmeriCorps*National Civilian
Community Corps

Learn and Serve America

Learn and Serve America K-12 School-Based and Community-Based Programs
Learn and Serve America Higher Education programs

National Senior Service Corps

Foster Grandparent Program
Retired and Senior Volunteer Program (RSVP)
Senior Companion Program

Training and Technical Assistance Listserv

Currently managed by the National Service Resource Center, the training and technical assistance listserv is one of the ways providers share best practices with one another. Providers also share effective practices through the National Service Resource Center and the National Service-Learning Clearinghouse.

(CFDA No. 94.009 Training and Technical Assistance)

Dated: November 29, 1999.

William Bentley,

Director, Department of Evaluation and Effective Practices, Corporation for National and Community Service.

DELAWARE RIVER BASIN COMMISSION

Notice of Commission Meeting and Public Hearing

Notice is hereby given that the Delaware River Basin Commission will hold an informal conference followed by a public hearing on Wednesday, December 8, 1999. The hearing will be part of the Commission's regular business meeting. Both the conference and business meeting are open to the public and will be held in the Goddard Conference Room of the Commission's offices at 25 State Police Drive, West Trenton, New Jersey.

The conference among the Commissioners and staff will begin at 9:30 a.m. and will include a presentation on the inaugural meeting of the Water Management Advisory Committee, including a presentation on trends in potable water supplied by the DRBC. Additional items for the conference session include a report on hydrologic conditions in the Basin; a report on activities of the Flow Management Technical Advisory Committee; a report on the Flood Response Meeting of December 2, 1999; a report on talks with the U.S. Army Corps of Engineers regarding alternative funding for DRBC and temporary drought storage at F.E. Walter Reservoir; and revisions to the Commission's proposed meeting schedule for 2000.

In addition to the dockets below, which are scheduled for public hearing at the 1:00 p.m. business meeting, the Commission will address the following: Minutes of the October 27, 1999 business meeting; announcements; report on Basin hydrologic conditions; reports by the Executive Director and General Counsel; and public dialogue. The Commission will also consider resolutions to: establish a Monitoring Advisory Committee; renew the Toxics Advisory Committee; expand the Water Quality Advisory Committee by adding members of the regulated community; authorize the Executive Director to contract for a flow management study; and amend Docket No. D-68-20 CP (Revised)—PSE&G Salem Nuclear Generating Station—to extend the expiration date of the docket to provide adequate time for its review.

The subjects of the hearing will be as follows:

1. *Holdover: Bucks County Water & Sewer Authority D-99-13 CP.* A project to rerate the Harvey Avenue sewage treatment plant (STP) from 0.9 million gallons per day (mgd) to 1.2 mgd for treatment of wet weather inflow. Located at the end of Harvey

Avenue in Doylestown Borough, Bucks County, Pennsylvania, the STP will continue to serve Doylestown Township, Doylestown Borough and Plumstead Township. Following high quality secondary treatment, effluent will continue to discharge to Cooks Run, a tributary of Neshaminy Creek.

2. *Telford Borough Authority D-86-7 CP RENEWAL.* A renewal of a ground water withdrawal project to supply up to 38.6 million gallons (mg)/30 days of water to the applicant's distribution system from Wells No. 1, 3, 4, 5 and 6. Commission approval on September 28, 1988 was extended to 10 years. The applicant requests that the total withdrawal from all wells remain limited to 38.6 mg/30 days. The project is located in Telford Borough, Bucks and Montgomery Counties and West Rockhill Township and Hilltown Township, Bucks County, in the Southeastern Pennsylvania Ground Water Protected Area.

3. *Panther Creek Partners D-87-66 (Revision 2) RENEWAL.* A renewal of a water allocation to supply up to 67 mg/30 days to the applicant's 84 megawatt culm-fired power plant which supplies electricity to the Metropolitan Edison power grid. Commission approval on June 27, 1990 was limited to ten years and will expire unless renewed. No expansion of the approved withdrawal is proposed. A seasonal alternate water source will be provided by the Nesquehoning Borough Authority to offset pre-treatment costs of the applicant's existing Lusanne Tunnel mine pool overflow withdrawal. Since treated wastewater will continue to be used to stabilize ash, no effluent discharge will occur. The project is located just west of the Nesquehoning Creek in Nesquehoning Borough, Carbon County, Pennsylvania.

4. *Borough of East Stroudsburg D-92-72 CP.* A ground water withdrawal project to supply up to 28.2 mg/30 days of water to the applicant's distribution system from new Well No. 4, and to increase the withdrawal limit from all wells from 28.2 mg/30 days to 56.4 mg/30 days. The total combined withdrawal for the applicant's ground water and surface water withdrawals will remain at 75 mg/30 days. The project is located in the Borough of East Stroudsburg, Monroe County, Pennsylvania.

5. *Citizens Utilities Water Company of Pennsylvania D-99-30 CP.* A project to transfer up to 2 mgd of potable water to the applicant's Glen Alsace District service area through an interconnection with the Reading Area Water Authority Maiden Creek Filtration Plant which draws from Lake Ontelaunee Reservoir; no increase in Reading's allocation is

needed. The applicant will continue to serve development in Exeter Township and St. Laurence Borough, and has included design capacity for a projected future service area expansion in Robeson Township, all within Berks County, Pennsylvania. The applicant currently supplies an average of 1.125 mgd from 17 wells and an existing interconnection with Mount Penn Water Authority, Berks County.

6. *Lonza, Inc. D-99-38.* A project to upgrade and expand the applicant's existing 0.06 mgd industrial wastewater treatment plant (IWTP) to provide Best Available Technology for treatment of 0.08 mgd for the applicant's Riverside Plant organic chemical manufacturing facility located on River Road in Upper Merion Township, Montgomery County, Pennsylvania. Treated effluent will continue to discharge to the Schuylkill River via the Matsunk Creek culvert.

7. *Municipal Authority of the Borough of Minersville D-99-44 CP.* A project to modify the applicant's existing potable water treatment plant residual/wastewater management system by constructing two filter backwash holding tanks to replace the existing slow sand filter process. The 0.11 mgd treated effluent will be conveyed to the applicant's Reservoir No. 3 on Dyer Run, a tributary of the West Branch Schuylkill River, located in Cass Township, Schuylkill County, Pennsylvania. No expansion of capacity is proposed.

8. *Gladys Brittingham Farm D-99-58.* A ground water withdrawal project to supply a maximum of 5.6 mg/30 days of water for irrigation of the applicant's farm crops from new Wells No. 162541 and 167042 in the Columbia aquifer. The water will irrigate approximately 26 acres of grain and vegetables. The project is located near the Town of Milton, Sussex County, Delaware.

Proposal to Amend Public Service Electric & Gas Company Docket D-68-20 CP (Revised), Salem Nuclear Generating Station, to extend the expiration date of the docket until six months after completion of review and approval by the New Jersey Department of Environmental Protection. The project is located in Lower Alloways Creek Township, Salem County, New Jersey and will continue to withdraw and discharge in the Delaware River in Water Quality Zone 5.

Documents relating to these items may be examined at the Commission's offices. Preliminary dockets are available in single copies upon request. Please contact Thomas L. Brand at (609) 883-9500, ext. 221, concerning docket-related questions. Persons wishing to testify at this hearing are requested to

register with the Secretary at (609) 883-9500, ext. 203 prior to the hearing.

Individuals in need of an accommodation as provided for in the Americans With Disabilities Act who wish to attend the hearing should contact the Secretary, Pamela M. Bush, at (609) 883-9500, ext. 203, or the New Jersey Relay Service at 1-800-852-7899 (TTY) to discuss how the Commission may accommodate your needs.

Dated: November 22, 1999.

Pamela M. Bush,
Secretary.

DEPARTMENT OF EDUCATION

Submission for OMB Review; Comment Request

AGENCY: Department of Education

SUMMARY: The Leader, Information Management Group, Office of the Chief Information Officer invites comments on the submission for OMB review as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before January 3, 2000.

ADDRESSES: Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: Danny Werfel, Desk Officer, Department of Education, Office of Management and Budget, 725 17th Street, N.W., Room 10235, New Executive Office Building, Washington, D.C. 20503 or should be electronically mailed to the internet address DWERFEL@OMB.EOP.GOV.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Information Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type
