#### Carhartt, Inc., McKenzie, Tennessee; Negative Determination on Application for Reconsideration

By letter of May 6, 1999, the company requested administrative reconsideration of the Department's negative determination regarding eligibility to apply for Trade Adjustment Assistance (TAA) applicable to workers and former workers of the McKenzie, Tennessee plant of Carhartt, Inc. The negative determination was signed on April 12, 1999 and published in the **Federal Register** on May 11, 1999 (64 FR 25373). Company officials have now indicated that it was their intention to also request reconsideration of the Department's negative determination eligibility to apply for North American Free Trade Agreement—Transitional Adjustment Assistance (NAFTA-TAA) applicable to workers and former workers of Carhartt, Inc., McKenzie, Tennessee (NAFTA-2952). That negative determination was also signed on April 12, 1999 and published in the **Federal Register** on May 11, 1999.

Pursuant to 29 CFR 90.18(c) reconsideration may be granted under the following circumstances:

(1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;

(2) If it appears that the determination complained of was based on a mistake in the determination of facts not previously considered; or

(3) If in the opinion of the Certifying Officer, a misinterpretation of facts or of the law justified reconsideration of the decision.

The petitioner states that the Carhartt McKenzie sewing facility produced bib overalls. When the plan permanently closed on July 30, 1999, production was transferred to the Carhartt Camden, Tennessee facility.

The NAFTA-TAA petition, filed on behalf of workers of Carhartt, Inc., McKenzie, Tennessee, was denied based on the finding that criteria (3) and (4) of the worker group eligibility requirements of paragraph (a)(1) of section 250 of the Trade Act of 1974, as amended, were not met. There were no company or customer imports from Mexico or Canada of products like or directly competitive with the bib overalls produced by workers at McKenzie. The company did not shift production from McKenzie to Mexico or

Canada. The Department cannot consider the domestic shift of production of bib overalls from McKenzie, Tennessee to Camden, Tennessee as a basis for worker group certification.

### Conclusion

After review of the application and investigative findings, I conclude that there has been no error or misinterpretation of the law or of the facts which would justify reconsideration of the Department of Labor's prior decision. Accordingly, the application is denied.

Signed at Washington, DC, this 30th day of November 1999.
