

SR-NASD-98-26 and should be submitted by January 7, 2000.

#### IV. Commission's findings and Order Granting Accelerated Approval of the Amendment

After careful consideration, the commission finds, for the reasons set forth below, that the extension of the Short Sale Rule pilot and the suspension of the existing PMM standards until September 30, 2000, is consistent with the requirements of the Act and the rules and regulations thereunder. In particular, the extension is consistent with section 15A(b)(6)<sup>5</sup> of the Act, which requires that NASD's rules be designed, among other things, to remove impediments to and perfect the mechanism of a free and open market and a national market system and to promote just and equitable principles of trade.

The Commission finds that continuation of the Short Sale Rule pilot and the continued suspension of the current PMM standards will maintain the *status quo* while the NASD develops revised PMM standards. Because the Commission's ultimate stance on the Short Sale Rule may be affected, in part, by the operation of revised PPM standards, it is reasonable to keep the Short Sale Rule pilot in place while work continues on the PMM standards. Furthermore, it is judicious, in the short term, to avoid reintroducing the previous PMM standards prior to implementing new PMM standards.

The Commission finds good cause for approving the extension of the Short Sale Rule pilot and the suspension of existing PMM standards prior to the 30th day after the date of publication of notice of the filing in the **Federal Register**. It could be disruptive to the Nasdaq market and confusing to market participants to reintroduce the previous PMM standards for a brief period prior to implementing a new PMM pilot.

*It is therefore ordered*, pursuant to section 19(b)(2) of the Act,<sup>6</sup> that Amendment No. 8 to the proposed rule change, SR-NASD-98-26, which extends the NASD Short Sale Rule pilot and the suspension of the current PMM standards to September 30, 2000, is approved on an accelerated basis.<sup>7</sup>

For the Commission, by the division of market Regulation, pursuant to delegated authority.<sup>8</sup>

Margaret H. McFarland,

*Deputy Secretary.*

### Federal Aviation Administration

#### Approval of Noise Compatibility Program Amendment, Baton Rouge Metropolitan Airport, Baton Rouge, LA

**AGENCY:** Federal Aviation Administration, DOT.

**ACTION:** Notice.

**SUMMARY:** The Federal Aviation Administration (FAA) announces its findings on the amendment to the noise compatibility program submitted by the city of Baton Rouge, Louisiana under the provisions of Title 49, USC, Chapter 475 and CFR Part 150. These findings are made in recognition of the description of Federal and nonfederal responsibilities in Senate Report No. 96-52 (1980). On March 31, 1992, the FAA determined that the noise exposure maps submitted by the city of Baton Rouge, Louisiana under Part 150 were in compliance with applicable requirements. On September 22, 1992, the Administrator approved the noise

compatibility program. On December 1, 1999, an amendment to the program was approved.

**EFFECTIVE DATE:** The effective date of the FAA's approval of the amendment to the Baton Rouge Metropolitan Airport noise compatibility program is December 1, 1999.

**FOR FURTHER INFORMATION CONTACT:**

Mike Saupp, Department of Transportation, Federal Aviation Administration, 2601 Meacham Boulevard, Fort Worth, Texas, 76137, (817) 222-5645. Documents reflecting this FAA action may be reviewed at this same location.

**SUPPLEMENTARY INFORMATION:** This notice announces that the FAA has given its overall approval to the amendment to the noise compatibility program for Baton Rouge Metropolitan Airport, effective December 1, 1999.

Under Title 49 USC, Section 47504 (Hereinafter referred to as "Title 49"), an airport operator who has previously submitted a noise exposure map may submit to the FAA a noise compatibility program which sets forth the measures taken or proposed by the airport operator for the reduction of existing noncompatible land uses within the area covered by the noise exposure maps. Title 49 requires such programs to be developed in consultation with interested and affected parties including local communities, government agencies, airport users, and FAA personnel.

Each airport noise compatibility program developed in accordance with Federal Aviation Regulations (FAR) Part 150 is a local program, not a Federal Program. The FAA does not substitute its judgment for that of the airport proprietor with respect to which measures should be recommended for action. The FAA's approval or disapproval of FAR Part 150 program recommendations is measured according to the standards expressed in part 150 and Title 49 and is limited to the following determinations:

a. The noise compatibility program was developed in accordance with the provisions and procedures of FAR Part 150;

b. Program measures are reasonably consistent with achieving the goals of reducing existing noncompatible land uses around the airport and preventing the introduction of additional noncompatible land uses;

c. Program measures would not create an undue burden on interstate or foreign commerce, unjustly discriminate against types or classes of aeronautical uses, violate the terms of airport grant agreements, or intrude into areas
