**AGENCY:** Bureau of Indian Affairs, Interior

**ACTION:** Notice

**SUMMARY:** This notice advises the public that the Bureau of Indian Affairs (BIA) intends to submit a Draft Environmental Impact Statement (DEIS) for a proposed lease of approximately 443 acres held in trust by the federal government for the Cortina Band of Wintun Indians in Colusa County, California, to the Environmental Protection Agency for public review and comment. The purpose of the proposed action is to allow Cortina Integrated Waste Management, Inc., to develop and operate needed waste treatment facilities referred to as the Cortina Integrated Waste Management Project. The BIA prepared the DEIS in cooperation with the Cortina Band of Wintun Indians and the Band's environmental consultants. A description of the proposed project location and of the environmental issues addressed in the DEIS follow as supplementary information. This notice also announces a public hearing to receive public comments on the DEIS.

**DATES:** Written comments must arrive by February 15, 2000. The Public hearing will be held on February 2, 2000, from 6:30 p.m. to 9:00 p.m.

The public hearing will be held at Colusa Industrial Properties, 100 Sunrise Boulevard, Colusa, California. This hearing will be co-hosted by the BIA and the Cortina Band of Wintun Indians.

**FOR FURTHER INFORMATION CONTACT:** William Allan, (916) 978-6043.

**SUPPLEMENTARY INFORMATION:** The proposed action is the approval of a 25 year lease of 443 acres of the 640 acre Cortina Rancheria to Cortina Integrated Waste Management, Inc., for the development and operation of a landfill, a materials recovery facility, a composting facility, a bio-remediation facility, plus ancillary facilities. These would occupy approximately 213 acres of the lease area. The proposed project site is located in the rugged eastern foothills of the Coast Ranges, just above the west side of the Sacramento Valley in northern California. It is

approximately 50 miles northwest of Sacramento, in the southwest corner of Colusa County.

The landfill is proposed as a Class III solid waste facility, which may only accept non-hazardous, municipal solid waste. The disposal of hazardous waste in a Class III landfill is prohibited. The landfill would be operated as a balefill, designed to consist of four separate phases that are operated sequentially. The active portion of the landfill would typically be less than one quarter acre. The containment system for the landfill would well exceed federal, California and Wintun Environmental Protection Agency regulatory requirements for Class III landfills.

The materials recovery facility proposed as part of the project would separate and recover recyclable materials, thus producing revenue for the Band and reducing the amount of material deposited in the landfill. It would be an enclosed structure on a concrete/asphalt pad.

The proposed composting facility would accelerate natural decomposition of organic waste by bacteria. Its operations would occur within a lined portion of the landfill, utilizing the "turned windrow" method.

The proposed bio-remediation facility for processing petroleum contaminated soils would also be operated within a lined portion of the landfill area. The process consists of adding oxygen, nutrients, and microorganisms to the contaminated soils to enhance the breakdown of the petroleum hydrocarbons.

Alternatives to the proposed project that are considered in the DEIS include the no action alternative and two reduced project alternatives. The environmental issues addressed in the DEIS include land and water resources, air quality, living resources, cultural and socioeconomic resources, land use, traffic, noise, public safety and health, and visual resources.

This notice is published in accordance with Sec. 1503.1 of the Council on Environmental Quality Regulations (40 CFR Parts 1500 through 1508) implementing the procedural requirements of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*), and the Department of the Interior Manual (516 DM 1-6), and is in the exercise of the authority delegated to the Assistant Secretary—Indian Affairs by 209 DM 8.

Dated: December 10, 1999.
