SUPPLEMENTARY INFORMATION: The PTO requests comments from any interested member of the public on the following Revised Interim Guidelines. As of the publication date of this notice, this revision will be used by PTO personnel in their review of patent applications for compliance with the "written description" requirement of 35 U.S.C. 112, ¶ 1. Because this revision governs internal practices, it is exempt from notice and comment rulemaking under 5 U.S.C. 553(b)(A).

Written comments should include the following information: (1) Name and affiliation of the individual responding, and (2) an indication of whether the comments offered represent views of the respondent's organization or are respondent's personal views. If you

believe the PTO should further amend these revised interim guidelines before they are made final, you should include the following information in your comments: (1) The rationale supporting the proposal, including the identification of applicable legal authority; and (2) a description of the potential benefits and drawbacks of adopting the proposal. The PTO is particularly interested in comments relating to the following topics: (1) The accuracy of the methodology, (2) the legal analysis in the guidelines, and (3) relevant factors to consider in determining whether the written description requirement is satisfied.

Parties presenting written comments are requested, where possible, to provide their comments in machine-readable format in addition to a paper copy.
