

The total FY 2000 application fee revenue is estimated by multiplying the adjusted application fee rate (\$285,740) by the equivalent number of applications projected to qualify for fees in FY 2000 (158), for a total estimated application fee revenue in FY 2000 of \$45,146,920. This is the amount of revenue that FDA is also expected to derive both from establishment fees and from product fees.

#### IV. Fee Calculations for Establishment and Product Fees

##### A. Establishment Fees

At the beginning of FY 1999, the establishment fee was based on an estimate of 318 establishments subject to fees. For FY 1999, 343 establishments qualified for and were billed for

establishment fees, before all decisions on requests for waivers or reductions were made. FDA estimates that a total of 25 establishment fee waivers will be granted in FY1999, for a net of 318 fee-paying establishments, and will use this number again for its FY 2000 estimate of establishments paying fees, after taking waivers into account. The fee per establishment is determined by dividing the adjusted total fee revenue to be derived from establishments (\$45,146,920), by the estimated 318 establishments, for an establishment fee rate for FY 2000 of \$141,971 (rounded to the nearest dollar).

##### B. Product Fees

At the beginning of FY 1999, the product fee was based on an estimate that 2,224 products would be subject to

product fees. By the end of FY 1999, 2,317 products qualified and were billed for product fees before all decisions on requests for waivers or reductions were made. Assuming that there will be about 55 waivers granted, FDA estimates that 2,262 products will qualify for product fees in FY 1999, after allowing for waivers and exemptions, and will use this number for its FY 2000 estimate. Accordingly, the FY 2000 product fee rate is determined by dividing the adjusted total fee revenue to be derived from product fees (\$45,146,920) by the estimated 2,262 products for a product fee rate of \$19,959 (rounded to the nearest dollar).

#### V. Adjusted Fee Schedules for FY 2000

The fee rates for FY 2000 are set out in Table 2 of this document:

Table 2.

Fee Category	Fee Rates for FY 2000
Applications:	
Requiring clinical data	\$285,740
Not requiring clinical data	\$142,870
Supplements requiring clinical data	\$142,870
Establishments	\$141,971
Products	\$19,959

#### VI. Implementation of Adjusted Fee Schedule

##### A. Application Fees

Any application or supplement subject to fees under the PDUFA that is submitted after December 31, 1999, must be accompanied by the appropriate application fee established in the new fee schedule. Payment must be made in U.S. currency by check, bank draft, or U.S. postal money order payable to the order of the U.S. Food and Drug Administration. Please include the user fee ID number on your check. Your check can be mailed to: Food and Drug Administration, P.O. Box 360909, Pittsburgh, PA 15251-6909.

If checks are to be sent by a courier that requests a street address, the courier can deliver the checks to: Mellon Bank, Three Mellon Bank Center, 27th Floor (FDA 360909), Pittsburgh, PA 15259-0001. (Note: This Mellon Bank Address is for courier delivery only.) Please make sure that the FDA P.O. Box number (PO Box 360909) is on the enclosed check.

FDA will bill applicants who submitted application fees from October 1 to December 31, 1999, for the difference between the amount they submitted and the amount specified in the Adjusted Fee Schedule for FY 2000.

##### B. Establishment and Product Fees

By December 31, 1999, FDA will issue invoices for establishment and product fees for FY 2000 under the new Adjusted Fee Schedule. Payment will be due by January 31, 2000. FDA will issue invoices in October 2000 for any products and establishments subject to fees for FY 2000 that qualify for fees after the December 1999 billing.

Dated: December 21, 1999.

##### Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration will publish

periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (301) 443-7978.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

##### Proposed Project: National Registry of Effective Prevention Programs

New—Section 515(d) of the Public Health Service Act (42 USC 290bb-21) requires that the Director of SAMHSA's Center for Substance Abuse Prevention (CSAP) establish a national data base providing information on programs for the prevention of substance abuse and specifies that the data base shall contain information appropriate for use by public entities and information

appropriate for use by nonprofit private entities. Since 1994, CSAP has met this responsibility through the High Risk Populations Databank on programs for the prevention of substance abuse funded by direct CSAP grants. Because relatively few direct grants of this type have been issued in recent years, CSAP must expand its information collection to include voluntary submission of descriptions of effective substance abuse prevention conducted by state and local governments, nonprofit entities, and the private sector.

CSAP has developed a template to enable practitioners who have evidence that their program reduces risk factors or increases protective factors pertaining to substance abuse to nominate their own standardized program for the Registry. Each program that is nominated should have been standardized (including curriculum manuals, implementation manuals, videotapes, etc.), well implemented, and findings should derive from well designed research efforts. Program models nominated will be reviewed and rated by experts annually to be recommended to the field.

CSAP will promote selected models by providing funds to support development of program materials for dissemination, by connecting program developers with organizations able to help in the dissemination efforts, and by promoting model programs nationally through CSAP's State Incentive Grant recipients and regional Centers for Applied Prevention Technology. Annual burden estimates for the Registry are shown in the table below.

Number of respondents	Number of responses/respondent	Hours/response	Total burden hours
250 .....	1	1.25	313
