

IV. Conclusion

The NRC has determined, for the reasons given in the preceding discussion, that the request to prevent operation of the units at D. C. Cook until there is reasonable assurance that significant non-compliances have been identified and corrected so that systems are in conformance with their design-basis and licensing-basis requirements has been satisfied. The regulatory oversight actions being taken by the NRC as stated above will provide reasonable assurance that systems at D. C. Cook will be in conformance with their design-basis and licensing-bases, thus meeting the request made in the Petition and eliminates the need to modify, suspend, or revoke the licenses at D. C. Cook. The request to hold a public hearing into the issues raised in the Petition and Addendum in the Washington, D.C. area before the first unit at D. C. Cook is authorized to restart has been granted. Action has been taken on each concern identified in the Addendum, as stated above.

As provided for in 10 CFR 2.206(c), a copy of this Decision will be filed with the Secretary of the Commission for the Commission's review. This Decision will constitute the final action of the Commission 25 days after issuance unless the Commission, on its own motion, institutes review of the Decision at that time.

Dated at Rockville, Maryland this 11th day of February 1999.

For the Nuclear Regulatory Commission.

Director, Office of Nuclear Reactor Regulation.

Part 1: Deletions of Five Systems of Records

As a result of this review, the Postal Service has determined that it no longer maintains records covered by five of its systems. Therefore, the following systems of records are being deleted from the Postal Service's inventory of Privacy Act systems: (1) 040.040, Customer Programs—Customer Holiday Address List File; (2) 100.020, Office Administration—Commercial Accounts Communicator Letter; (3) 130.010, Philately—Ben Franklin Stamp Club Coordinators and Project Leaders List; (4) 130.020, Philately—Educators Stamp Fun Mailing Lists; and (5) 130.050, Philately—United States Postal Service Olympic Pen Pal Club. Under 5 U.S.C. 552a(e)(1) and (4), effective immediately on February 23, 1999, these systems of records are deleted from the list of systems that appeared in 54 FR 43652, 55 FR 41284 and 56 FR 23093.

Part 2: Advance Notice of New Routine Uses and Altered Systems

Reports of new routine uses and new and altered systems (except for those minor changes not required to be reported that are identified in paragraph 2.B.1 below), as required by 5 U.S.C. 552a(r), have been submitted to OMB and Congress pursuant to paragraph 4.c.(1)(f) of Appendix I of OMB Circular A-130, "Federal Agency Responsibilities for Maintaining Records About Individuals," dated February 20, 1996.

A. New Routine Uses

Routine uses are added to two systems of records, USPS 120.060 and USPS 120.061. Records in these systems are collected to meet the financial reporting requirements imposed by the Ethics in Government Act of 1978. Proposed routine use no. 3 in 120.060 and proposed routine use no. 4 in 120.061 are identical and correspond to routine uses made applicable to the two government-wide systems for financial disclosure records that are managed by the Office of Government Ethics: OGE/

GOVT-1 and OGE/GOVT-2. Routine use no. 5 in 120.061 is adopted as a result of the ethics legislation (the Ethics Reform Act of 1989, Pub. L. 101-194) that makes certain waiver determinations publicly available. The added routine uses represent long-standing uses that would be obvious and necessary to accomplish the purpose for which the systems are maintained and, in some instances, indicate the public availability required by law.

Two routine uses are added to USPS 010.010, which contains address change and mail forwarding records. Proposed routine uses numbers 7 and 8 correspond, respectively, to postal regulations that authorize disclosure of change of address information when needed in connection with jury service and when authorized in connection with the Postal Service's address correction service that is available to mailers upon request. Both routine uses are being added to bring the system notice into conformity with regulations of long-standing.

B. Altered Systems

Following are systems changes to categories of records, categories of individuals, authority, and routine uses and other changes to those systems descriptions that are minor in nature:

1. USPS 010.010—On December 29, 1994, the Postal Service published in the **Federal Register** (59 FR 67223) a final rule which substantially changed its address disclosure regulations governing disclosure of individuals' address change filings covered by system of records USPS 010.010. The rule prohibits disclosure of change of address information pertaining to individuals or families to anyone except government agency requesters, persons legally empowered to serve legal process, and when necessary to comply with a court order. The categories of records in the system and the routine uses are amended to conform with the rule.

2. USPS 050.020 was established to maintain information that relates to an employee's pay. The description of the categories of individuals is expanded to include beneficiaries of former employees who qualify for annuity protection program life insurance benefits. Editorial changes also have been made to other sections of the system description.

3. USPS 120.152—This document proposes to expand the types of records covered by this system by including information collected about employees who use Postal Service housing facilities when enrolled in training. A

room discrepancy report is completed on each occupied room for reasons such as evidence of smoking, damages, missing items, unregistered person(s), etc. Because repeated offenses could result in action against the student, comments regarding each incident are documented. These comments are maintained and may be retrieved by the student's name. The categories of records section of USPS 120.152 is revised to include information collected about a students on the room discrepancy report. A change to the categories of records in the system and an editorial change to the system manager(s) and address sections of the system USPS 120.152 follow.

Part 3: Editorial Corrections/Revisions

The remaining revisions to the systems of records notices are editorial in nature, and do not affect the character or use of information contained in the systems. Most revisions reflect organization name changes due to agency restructuring. Other revisions improve, without expansion, the systems notices. Changes to routine use K in the Prefatory Statement and editorial revisions to other systems of records were made. The systems of records are amended by making the following additions and changes:

SYSTEM LOCATION:

[CHANGE TO READ] Office of the (1) Chief Postal Inspector, Headquarters; (2) Field Operations Support Groups; and (3) Inspectors-in-Charge (30 divisions).

* * * * *

CATEGORIES OF RECORDS IN THE SYSTEM:

[CHANGE TO READ] Information within this system relates to Inspection Service investigations carried out in accordance with applicable policies, regulations, procedures, and statutes. The investigations may relate to criminal, civil, or administrative matters, including personnel suitability and security clearance. Generally, investigative case files are physically located in the responsible Inspection Service Division, Field Operations Support Group, or Headquarters. These files may contain investigative reports, background data including arrest records, statements of informants and witnesses, laboratory reports of evidence analysis, search warrants, summons and subpoenas, and other information related to the investigation. Personal data in the system may include fingerprints, handwriting samples, reports of confidential informants, physical identifying data, voiceprints, polygraph tests, photographs, and individual personnel and payroll information. Inspection Service database systems contain additional or summary duplicative case files and other information in support of investigations. In addition, Inspection Service divisions maintain reference files and indexes, as needed, for quick access in day-to-day operations.

The specific authority for the Postal Inspection Service to investigate postal

offenses and civil matters relating to the Postal Service is conferred at 39 U.S.C. 404(a)(7), 18 U.S.C. 3061, and 5 U.S.C. App 3. In the exercise of that authority, the Inspection Service conducts investigations pursuant to the following Federal statutes and administrative rules, which are not intended to be all-inclusive. Although other Federal agencies may have primary investigative jurisdiction over some of the statutes listed, the Inspection Service applies those statutes for cases involving postal personnel or property or as authorized by the Attorney General of the United States (18 U.S.C. 3061(b)(2)). These are the primary statutes that impact the Postal Inspection Service, but an investigation may involve statutes not listed.
