Method And Format For Submitting Risk Management Plans (RMPs) Under Section 112(r) of the 1990 Clean Air Act Amendments

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: This document provides information about the method and format for submitting risk management plans (RMPs) under EPA's regulations for preventing chemical accidents, 40 CFR part 68. RMPs must be submitted by the owner or operator of any facility that has a process containing more than a threshold quantity of a chemical listed at 40 CFR 68.130. The deadline for submitting RMPs is June 21, 1999, for any facility with a process containing more than a threshold quantity of a listed chemical by that date. EPA is issuing two documents, the "RMP*Submit User's Manual" and the "RMP ASCII File Format," for use in submitting RMPs.

ADDRESSES: The RMP*Submit User's Manual and the RMP ASCII File Format are available on the Internet at: <http://www.epa.gov/swercepp/rmp-dev.html>. To obtain paper copies of these documents, please contact the National Center for Environmental Publications

and Information (NCEPI) at 1-800-490-9198. The EPA publication number for the RMP*Submit User's Manual is EPA 550-B99-001. The RMP paper form is Appendix A of the User's Manual. The User's Manual will automatically be sent out with all RMP*Submit requests from NCEPI. The EPA Publication number for the RMP ASCII File Format is EPA 550-B99-002.

Docket. These documents are also available in Docket A-98-08, Category VI and are available for public inspection and copying between 8:00 a.m. and 5:30 p.m., Monday through Friday (except government holidays), at Room M1500, U.S. Environmental Protection Agency (6102), 401 M St., SW, Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: For technical information on the RMP*Submit User's Manual, contact Karen Shanahan at (202) 260-2711. For technical information on the RMP ASCII File Format, contact Lisa Jenkins at (202) 260-7951. The Emergency Planning and Community Right-to-Know Information Hotline (Hotline) is available to answer questions about the Risk Management Program at 800-424-9346, or (703) 412-9877 from the local Washington, DC area.

SUPPLEMENTARY INFORMATION: EPA's rule requiring submission of RMPs (61 FR 31668, June 20, 1996) provides that the Agency will provide information on the "method and format" for submission prior to June 21, 1999 (40 CFR 68.150(a)). The purpose of this notice is to provide that information.

The RMP*Submit User's Manual describes the "method" for RMP submissions to EPA. In brief, regulated sources should submit their RMP electronically on diskette to the EPA Reporting Center if they are able to do so. Those who are unable to submit on diskette may use the RMP paper form (provided in Appendix A of the User's Manual). If the paper form is used, an Electronic Waiver Form (Appendix B of the User's Manual) should also be completed.

The RMP ASCII File Format provides the "format" in which RMPs should be submitted to EPA. RMP*Submit™ (a free software program for submission) and the RMP paper form (for use with the electronic waiver form) are already in this format. If you are planning to use RMP*Submit or the RMP paper form, you do not need the RMP ASCII File Format. The purpose of the RMP ASCII File Format is to assist commercial software vendors who are creating RMP software products, so that their software will put RMPs into the proper format.

EPA recently promulgated a rule that made several changes to RMP data elements (63 FR 964, Jan. 6, 1999). The documents described in this notice include those changes to the RMP regulations. EPA's information collection request for the recent rule and the RMP submission documents was approved by the Office of Management and Budget (OMB) on February 22, 1999. The information collection requirements covered by the request were assigned OMB control number 2050-0144. RMPs may now be submitted to EPA.

Dated: February 24, 1999.

David Speights,

Acting Director, Chemical Emergency Preparedness and Prevention Office, Office of Solid Waste and Emergency Response.
