

includes: (1) A tribal resolution requesting a contract or annual funding agreement; (2) a summary of the program or portion thereof to be operated by the tribe/consortium or tribal organization; and (3) a summary identifying the source and amount of program or services funds to be contracted or included in an annual funding agreement and contract support requirements. In the event that two tribes or tribal organizations have the same start date and application date, then the next date for determination of priority shall be the date the fully complete application was received by the BIA.

If all of the above are equal, and if funds remaining in the ISD fund are not adequate to fill the entire amount of each award's contract support requirement, then each will be awarded a proportionate share of its requirement and shall remain on the Indian Self-Determination Fund Roster in appropriate order of priority for future distributions.

New contract/annual funding agreement is defined as the initial transfer of a program, previously operated by the BIA to the tribe/consortium or tribal organization.

An expanded contract/annual funding agreement is defined as a contract/annual funding agreement which has become enlarged, during the current fiscal year through the assumption of additional programs previously operated by the BIA.

Criteria for Determining CSF Need for Ongoing/Existing Contracts/Annual Funding Agreements

CSF for ongoing and existing contracts/annual funding agreements will be determined using the following criteria:

(1) All TPA contracted programs or those programs included in annual funding agreements in FY 1999 and continued in FY 2000, including contracted or annual funding agreement programs moved to TPA in FY 2000.

(2) Direct program funding increases due to inflation adjustments and general budget increases.

(3) TPA programs started or expanded in FY 2000 that are a result of a change in priorities from other already contracted/annual funding agreement programs.

(4) CSF differentials associated with tribally-operated schools that receive indirect costs through the application of the administrative cost grant formula. These differentials are to be calculated in accordance with the criteria prescribed in the Choctaw decision dated September 18, 1992, issued by the

Contracting Officer, Eastern Region office. Copies of this decision can be obtained by calling the telephone number provided in the **FOR FURTHER INFORMATION CONTACT** section.

(5) CSF will be distributed to the Office of Self-Governance for ongoing annual funding agreements, on the same basis as regional offices.

(6) Funds available for Indian Child Welfare Act (ICWA) programs or reprogrammed from ICWA to other programs will be considered ongoing for the purposes of payment of contract support costs.

(7) The use of CSF to pay prior year shortfalls is not authorized.

(8) Programs funded from sources other than those listed above that were awarded in FY 1999 and are to be awarded in FY 2000 are considered as ongoing.

Dated: February 17, 2000.

Assistant Secretary, Indian Affairs.

Bowie Resources, Ltd. and Oxbow Mining, Inc. applied to the BLM for the Iron Point and Elk Creek coal lease tracts respectfully to extend the production life of their existing underground mines. Similarly, Bowie applied to the BLM for a coal exploration license to further delineate coal resource in lands adjacent to their ongoing mining. The requested Iron Point Tract and the exploration license area are adjacent to the presently approved permit area for the Bowie No. 2 Mine which is operated by Bowie. Likewise, the requested Elk Creek Tract is adjacent to the presently approved permit area for the Sanborn Creek Mine which is operated by Oxbow. These applications encompass federal coal on BLM and National Forest system lands. The federal coal resource to be offered is limited to coal recoverable by underground mining methods.

The USDA Forest Service is a joint lead agency in the preparation of the EIS because the surface of some of the land in the applications is administered by the Forest Service. The Office of Surface Mining Reclamation and Enforcement is a cooperating agency in the preparation of the EIS because it is the Federal agency that would review the mining plans for the two proposed tracts if they are leased, and recommend approval or disapproval of the mining plans to the Secretary of the Interior.

The EIS analyzes four alternatives. Besides the no-action alternative and the plans as submitted in the applications, two other alternatives were examined in the EIS. The other alternatives analyzed the possibility of multiseam mining and the restriction of subsidence due to underground mining activity in key areas to protect surface resources.

The DEIS was filed on September 3, 1999 and the DEIS comment period extended through November 3, 1999. An informal open house was held on October 7, 1999 and a public hearing was held on October 14, 1999 at Hotchkiss High School in Hotchkiss, Colorado.

Freedom of Information

Comments, including names and street addresses of respondents, will be available for public review at the addresses listed above during regular business hours (7:45 a.m.–4:30 p.m.), Monday through Friday, except holidays, and may be published as part of the Final EIS. Individual respondents may request confidentiality. If you wish to withhold your name or street address from public review or from disclosure

under the Freedom of Information Act, you must state this prominently. Such requests will be honored to the extent allowed by law. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety. Proprietary data so marked shall be treated in accordance with the laws and regulations governing the confidentiality of such information.
