DEPARTMENT OF LABOR

Employment and Training Administration

Solicitation for Grant Applications (SGA) Job Training Partnership Act, Title III-B: Skills Shortages, Partnership Training/System Building Demonstration Program

AGENCY: Employment and Training Administration, Labor.

ACTION: Notice of availability of funds and solicitation for grant applications (SGA).

This Notice Contains All of the Necessary Information and Forms Needed To Apply for Grant Funding. **SUMMARY:** The U.S. Department of Labor (DOL), Employment and Training Administration (ETA) announces a competitive demonstration solicitation for grant applications (SGA) to respond to employers' identified skill shortages through the establishment or strengthening of regional consortia. Grants will be made to successful applicants which provide evidence of being positioned to plan and implement

a successful strategy to respond to shortages of workers seeking employment with skills needed by specific employers in a regional labor market (including typical local commuting area). Successful applicants must also initiate a skill training design for preparing eligible dislocated workers, incumbent workers and new entrants into the workforce that will alleviate skill shortages within the region which the applicant represents and provide the necessary skill sets to those seeking new employment or reemployment.

The funding for this program will be the demonstration authority of the Secretary's National Reserve Account appropriated for Title III-B of the Job Training Partnership Act (JTPA) of 1982, as amended, and administered in accordance with 29 CFR parts 95 and 97, as applicable.

Applicants are also encouraged to be familiar with the provisions of the Workforce Investment Act of 1998 (WIA). As the Department moves toward implementation of WIA which becomes effective July 1, 2000, and for the next few years, it is anticipated that even greater emphasis will be placed on regional and unified planning and other initiatives to accommodate or address regional workforce development concerns. It is expected that the consortia established or strengthened as a result of the award of these demonstration grant funds will actively collaborate with the emerging structures of WIA implementation.

The Department encourages interested applicants to consult with other on-going programs such as grantees funded by the June 1998 \$7.7 million dislocated worker technology demonstration and the June 1999 \$10 million manufacturing technology demonstration program. Information regarding these demonstrations may be found at <http://www.doleta.gov>. In addition, experiences gained through current regional initiatives may provide insight into developing a regional consortia approach to addressing workforce development needs and strategies.

In addition to partnership-building activities to address skill shortages, the grants funded as a result of this SGA will support assessment of community employment needs (community audits), designing or adapting training curricula based upon specific "just-in-time" employer needs, and limited operational testing of a training design. Partnerships and systems for responding to skill shortages developed as a part of this demonstration will be expected to continue, and indeed improve and
