

small not-for-profit enterprises, and small governmental jurisdictions.

This final rule will not have a significant impact on a substantial number of small entities because SIP approvals under sections 110 and 301, and subchapter I, part D of the Clean Air Act do not create any new requirements but simply approve requirements that the State is already imposing. Therefore, because the Federal SIP approval does not create any new requirements, I certify that this action will not have a significant economic impact on a substantial number of small entities.

Moreover, due to the nature of the Federal-State relationship under the Clean Air Act, preparation of flexibility analysis would constitute Federal inquiry into the economic reasonableness of state action. The Clean Air Act forbids EPA to base its actions concerning SIPs on such grounds. *Union Electric Co. v. U.S. EPA*, 427 U.S. 246, 255–66 (1976); 42 U.S.C. 7410(a)(2).

F. Unfunded Mandates

Under Section 202 of the Unfunded Mandates Reform Act of 1995 (“Unfunded Mandates Act”), signed into law on March 22, 1995, EPA must prepare a budgetary impact statement to accompany any proposed or final rule that includes a Federal mandate that may result in estimated annual costs to State, local, or tribal governments in the aggregate, or to the private sector, of \$100 million or more. Under Section 205, EPA must select the most cost-effective and least burdensome alternative that achieves the objectives of the rule and is consistent with statutory requirements. Section 203 requires EPA to establish a plan for informing and advising any small governments that may be significantly or uniquely impacted by the rule.

EPA has determined that the approval action promulgated does not include a Federal mandate that may result in estimated annual costs of \$100 million or more to either State, local, or tribal governments in the aggregate, or to the private sector. This Federal action approves pre-existing requirements under State or local law, and imposes no new requirements. Accordingly, no additional costs to State, local, or tribal governments, or to the private sector, result from this action.

G. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the

agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This rule is not a “major” rule as defined by 5 U.S.C. 804(2).

H. National Technology Transfer and Advancement Act

Section 12 of the National Technology Transfer and Advancement Act (NTTAA) of 1995 requires Federal agencies to evaluate existing technical standards when developing a new regulation. To comply with NTTAA, EPA must consider and use “voluntary consensus standards” (VCS) if available and applicable when developing programs and policies unless doing so would be inconsistent with applicable law or otherwise impractical.

The EPA believes that VCS are inapplicable to this action. Today’s action does not require the public to perform activities conducive to the use of VCS.

I. Petitions for Judicial Review

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by May 23, 2000. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Hydrocarbons, Incorporation by reference, Intergovernmental relations, Ozone, Reporting and recordkeeping requirements, Volatile organic compounds.

Dated: March 10, 2000.

Felicia Marcus,
Regional Administrator, Region IX.

Part 52, Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

PART 52 [AMENDED]

1. The authority citation for Part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart F—California

2. Section 52.220 is amended by adding paragraphs (c)(190)(i)(A)(2), (244)(i)(A)(5), and (244)(i)(F) to read as follows:

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 55

[FRL–6563–9]

Outer Continental Shelf Air Regulations Consistency Update for California

AGENCY: Environmental Protection Agency (“EPA”)

ACTION: Final rule—consistency update.

SUMMARY: EPA is finalizing the update of the Outer Continental Shelf (“OCS”) Air Regulations proposed in the **Federal Register** on November 19, 1999, August 19, 1999, May 27, 1999, August 6, 1998, January 16, 1998, August 23, 1997, July 16, 1997, December 16, 1996, and July 9, 1996. Requirements applying to OCS sources located within 25 miles of states’ seaward boundaries must be updated periodically to remain consistent with the requirements of the corresponding onshore area (“COA”), as mandated by section 328(a)(1) of the Clean Air Act Amendments of 1990 (“the Act”). The portion of the OCS air regulations that is being updated pertains to the requirements for OCS sources for which the Santa Barbara

County Air Pollution Control District, San Luis Obispo County Air Pollution Control District, South Coast Air Quality Management District, and Ventura County Air Pollution Control District are the designated COAs and requirements submitted by the State of California. The intended effect of approving the requirements contained in "Santa Barbara County Air Pollution Control District Requirements Applicable to OCS Sources" (February, 2000), "San Luis Obispo County Air Pollution Control District Requirements Applicable to OCS Sources" (February, 2000), "South Coast Air Quality Management District Requirements Applicable to OCS Sources" (Part I, II and III) (February, 2000), "Ventura County Air Pollution Control District Requirements Applicable to OCS Sources" (February, 2000), and "State of California Requirements Applicable to OCS Sources" (February, 2000) is to regulate emissions from OCS sources in accordance with the requirements onshore.

DATES: This action is effective April 24, 2000.

ADDRESSES: Copies of the documents relevant to this action are available for public inspection during normal business hours at the following locations:

Rulemaking Section (A-5-3), Air and Toxics Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105.

Environmental Protection Agency (LE-6102), 401 "M" Street, SW, Room M-1500, Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Christine Vineyard, Air and Toxics Division (AIR-4), U.S. EPA Region IX, 75 Hawthorne Street, San Francisco, CA 94105, Telephone: (415) 744-1197.

SUPPLEMENTARY INFORMATION:

Background

TABLE 1

Date of Proposed Rule	Federal Register citation
November 19, 1999 ..	64 FR 63271.
August 19, 1999	64 FR 45217.
May 27, 1999	64 FR 29775.
August 6, 1998	63 FR 41991.
January 19, 1998	63 FR 8642.
August 23, 1997	62 FR 45604.
July 16, 1997	62 FR 38047.
December 16, 1996 ..	61 FR 66003.
July 9, 1996	61 FR 36012.

On the dates listed in Table 1, EPA proposed to approve requirements into the OCS Air Regulations pertaining to Santa Barbara County APCD, San Luis

Obispo County APCD, South Coast AQMD, Ventura County APCD, and State of California. These requirements are being promulgated in response to the submittal of rules from local air pollution control agencies and the State of California. EPA has evaluated the proposed requirements to ensure that they are rationally related to the attainment or maintenance of federal or state ambient air quality standards or Part C of title I of the Act, that they are not designed expressly to prevent exploration and development of the OCS and that they are applicable to OCS sources. 40 CFR 55.1. EPA has also evaluated the rules to ensure that they are not arbitrary or capricious. 40 CFR 55.12(e). In addition, EPA has excluded administrative or procedural rules.

A 30-day public comment period was provided in each Proposed Rule, and no comments were received.

EPA Action

In this document, EPA takes final action to incorporate the proposed changes into 40 CFR part 55. No changes were made to the Proposed Rules listed in table 1. EPA is approving the proposed actions as modified under section 328(a)(1) of the Act, 42 U.S.C. 7627. Section 328(a) of the Act requires that EPA establish requirements to control air pollution from OCS sources located within 25 miles of states' seaward boundaries that are the same as onshore requirements. To comply with this statutory mandate, EPA must incorporate applicable onshore rules into Part 55 as they exist onshore.

Administrative Requirements

A. Executive Order 12866

The Office of Management and Budget (OMB) has exempted this regulatory action from Executive Order 12866, entitled "Regulatory Planning and Review."

B. Executive Order 13045

Executive Order 13045, entitled "Protection of Children from Environmental Health Risks and Safety Risks" (62 FR 19885, April 23, 1997), applies to any rule that: (1) Is determined to be "economically significant" as defined under Executive Order 12866, and (2) concerns an environmental health or safety risk that EPA has reason to believe may have a disproportionate effect on children. If the regulatory action meets both criteria, the Agency must evaluate the environmental health or safety effects of the planned rule on children, and explain why the planned regulation is preferable to other potentially effective

and reasonably feasible alternatives considered by the Agency.

This rule is not subject to Executive Order 13045 because it does not involve decisions intended to mitigate environmental health or safety risks.

C. Executive Order 13084

Under Executive Order 13084, Consultation and Coordination with Indian Tribal Governments, EPA may not issue a regulation that is not required by statute, that significantly affects or uniquely affects the communities of Indian tribal governments, and that imposes substantial direct compliance costs on those communities, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by the tribal governments. If the mandate is unfunded, EPA must provide to the Office of Management and Budget, in a separately identified section of the preamble to the rule, a description of the extent of EPA's prior consultation with representatives of affected tribal governments, a summary of the nature of their concerns, and a statement supporting the need to issue the regulation.

In addition, Executive Order 13084 requires EPA to develop an effective process permitting elected and other representatives of Indian tribal governments "to provide meaningful and timely input in the development of regulatory policies on matters that significantly or uniquely affect their communities." Today's rule does not significantly or uniquely affect the communities of Indian tribal governments. Accordingly, the requirements of section 3(b) of Executive Order 13084 do not apply to this rule.

D. Executive Order 13132

Executive Order 13132, entitled "Federalism" (64 FR 43255, August 10, 1999) revokes and replaces Executive Orders 12612, Federalism and 12875, Enhancing the Intergovernmental Partnership. Executive Order 13132 requires EPA to develop an accountable process to ensure "meaningful and timely input by State and local officials in the development of regulatory policies that have federalism implications." "Policies that have federalism implications" is defined in the Executive Order to include regulations that have "substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government." Under

Executive Order 13132, EPA may not issue a regulation that has federalism implications, that imposes substantial direct compliance costs, and that is not required by statute, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by State and local governments, or EPA consults with State and local officials early in the process of developing the proposed regulation. EPA also may not issue a regulation that has federalism implications and that preempts State law unless the Agency consults with State and local officials early in the process of developing the proposed regulation.

This rule will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999), because it merely approves a state rule implementing a federal standard, and does not alter the relationship or the distribution of power and responsibilities established in the Clean Air Act. Thus, the requirements of section 6 of the Executive Order do not apply to this rule.

E. Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA) generally requires an agency to conduct a regulatory flexibility analysis of any rule subject to notice and comment rulemaking requirements unless the agency certifies that the rule will not have a significant economic impact on a substantial number of small entities. Small entities include small businesses, small not-for-profit enterprises, and small governmental jurisdictions.

This final rule will not have a significant impact on a substantial number of small entities because consistency updates under section 328(a) of the Clean Air Act do not create any new requirements but simply approve requirements that the State is already imposing. Therefore, because the consistency update approval does not create any new requirements, I certify that this action will not have a significant economic impact on a substantial number of small entities.

Moreover, due to the nature of the Federal-State relationship under the Clean Air Act, preparation of flexibility analysis would constitute Federal inquiry into the economic reasonableness of state action.

F. Unfunded Mandates

Under Section 202 of the Unfunded Mandates Reform Act of 1995 ("Unfunded Mandates Act"), signed into law on March 22, 1995, EPA must prepare a budgetary impact statement to accompany any proposed or final rule that includes a Federal mandate that may result in estimated annual costs to State, local, or tribal governments in the aggregate; or to private sector, of \$100 million or more. Under Section 205, EPA must select the most cost-effective and least burdensome alternative that achieves the objectives of the rule and is consistent with statutory requirements. Section 203 requires EPA to establish a plan for informing and advising any small governments that may be significantly or uniquely impacted by the rule.

EPA has determined that the approval action promulgated does not include a Federal mandate that may result in estimated annual costs of \$100 million or more to either State, local, or tribal governments in the aggregate, or to the private sector. This Federal action approves pre-existing requirements under State or local law, and imposes no new requirements. Accordingly, no additional costs to State, local, or tribal governments, or to the private sector, result from this action.

G. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This rule is not a "major" rule as defined by 5 U.S.C. 804(2).

H. National Technology Transfer and Advancement Act

Section 12 of the National Technology Transfer and Advancement Act (NTTAA) of 1995 requires Federal agencies to evaluate existing technical standards when developing a new regulation. To comply with NTTAA, EPA must consider and use "voluntary consensus standards" (VCS) if available

and applicable when developing programs and policies unless doing so would be inconsistent with applicable law or otherwise impractical.

The EPA believes that VCS are inapplicable to this action. Today's action does not require the public to perform activities conducive to the use of VCS.

I. Petitions for Judicial Review

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by May 23, 2000. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 55

Environmental protection, Administrative practice and procedures, Air pollution control, Hydrocarbons, Intergovernmental relations, Nitrogen dioxide, Nitrogen oxides, Outer Continental Shelf, Ozone, Particulate matter, Permits, Reporting and recordkeeping requirements, Sulfur oxides.

Dated: March 15, 2000.

Felicia Marcus,

Regional Administrator, Region IX.

Title 40, Chapter I of the Code of Federal Regulations, Part 55, is to be amended as follows:

PART 55—[AMENDED]

1. The authority citation for part 55 continues to read as follows:

Authority: Section 328 of the Clean Air Act (42 U.S.C. 7401 *et seq.*) as amended by Public Law 101-549.

2. Section 55.14 is amended by revising paragraphs (e)(3)(i)(A), (e)(3)(ii)(E), (e)(3)(ii)(F), (e)(3)(ii)(G), and (e)(3)(ii)(H) to read as follows:

§ 55.14 Requirements that apply to OCS sources located within 25 miles of States seaward boundaries, by State.

* * * * *

(e) * * *

(3) * * *

(i) * * *

(A) State of California Requirements Applicable to OCS Sources.

(ii) * * *

(E) *San Luis Obispo County Air Pollution Control District Requirements*

- Rule 316 Storage and Transfer of Gasoline (Adopted 4/17/97)
- Rule 317 Organic Solvents (Adopted 10/23/78)
- Rule 318 Vacuum Producing Devices or Systems-Southern Zone (Adopted 10/23/78)
- Rule 321 Solvent Cleaning Operations (Adopted 9/18/97)
- Rule 322 Metal Surface Coating Thinner and Reducer (Adopted 10/23/78)
- Rule 323 Architectural Coatings (Adopted 7/18/96)
- Rule 324 Disposal and Evaporation of Solvents (Adopted 10/23/78)
- Rule 325 Crude Oil Production and Separation (Adopted 1/25/94)
- Rule 326 Storage of Reactive Organic Liquid Compounds (Adopted 12/14/93)
- Rule 327 Organic Liquid Cargo Tank Vessel Loading (Adopted 12/16/85)
- Rule 328 Continuous Emission Monitoring (Adopted 10/23/78)
- Rule 330 Surface Coating of Miscellaneous Metal Parts and Products (Adopted 4/21/95)
- Rule 331 Fugitive Emissions Inspection and Maintenance (Adopted 12/10/91)
- Rule 332 Petroleum Refinery Vacuum Producing Systems, Wastewater Separators and Process Turnarounds (Adopted 6/11/79)
- Rule 333 Control of Emissions from Reciprocating Internal Combustion Engines (Adopted 4/17/97)
- Rule 342 Control of Oxides of Nitrogen (NO_x) from Boilers, Steam Generators and Process Heaters (Adopted 4/17/97)

- Rule 343 Petroleum Storage Tank Degassing (Adopted 12/14/93)
- Rule 344 Petroleum Sumps, Pits, and Well Cellars (Adopted 11/10/94)
- Rule 352 Natural Gas-Fired Fan-Type Central Furnaces and Residential Water Heaters (Adopted 9/16/99)
- Rule 353 Adhesives and Sealants (Adopted 8/19/99)
- Rule 359 Flares and Thermal Oxidizers (6/28/94)
- Rule 370 Potential to Emit—Limitations for Part 70 Sources (Adopted 6/15/95)
- Rule 505 Breakdown Conditions Sections A., B.1., and D. only (Adopted 10/23/78)
- Rule 603 Emergency Episode Plans (Adopted 6/15/81)
- Rule 702 General Conformity (Adopted 10/20/94)
- Rule 801 New Source Review (Adopted 4/17/97)
- Rule 802 Nonattainment Review (Adopted 4/17/97)
- Rule 803 Prevention of Significant Deterioration (Adopted 4/17/97)
- Rule 804 Emission Offsets (Adopted 4/17/97)
- Rule 805 Air Quality Impact Analysis and Modeling (Adopted 4/17/97)
- Rule 808 New Source Review for Major Sources of Hazardous Air Pollutants (Adopted 5/20/99)
- Rule 1301 Part 70 Operating Permits—General Information (Adopted 4/17/97)
- Rule 1302 Part 70 Operating Permits—Permit Application (Adopted 11/09/93)
- Rule 1303 Part 70 Operating Permits—Permits (Adopted 11/09/93)
- Rule 1304 Part 70 Operating Permits—Issuance, Renewal, Modification and Reopening (Adopted 11/09/93)
- Rule 1305 Part 70 Operating Permits—Enforcement (Adopted 11/09/93)
- (7) *The following requirements are contained in South Coast Air Quality Management District Requirements Applicable to OCS Sources* (Part I, II and III), February 2000:
- Rule 102 Definition of Terms (Adopted 6/13/97)
- Rule 103 Definition of Geographical Areas (Adopted 1/9/76)

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 635

[I.D. 102299B]

Atlantic Highly Migratory Species; Swordfish Quota Adjustment

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Adjustment of annual catch quotas.

SUMMARY: NMFS adjusts the June 1, 1999, through May 31, 2000, directed category quota for North Atlantic swordfish to account for underharvest from the prior fishing year. The directed category annual quota is adjusted to 2,427.38 metric tons dressed weight (mt dw). The 1999–2000 season for North Atlantic swordfish incidental catch category quota remains at 300 mt dw. The annual directed catch category quota for the South Atlantic swordfish fishery remains at 289 mt dw. This action is required under management measures adopted in the Fishery Management Plan for Atlantic Tunas, Swordfish, and Sharks (HMS FMP), and is consistent with the criteria for swordfish quota transfers established at 50 CFR part 635.

DATES: Effective March 21, 2000.

FOR FURTHER INFORMATION CONTACT: Steve Meyers or Jill Stevenson at 301–713–2347; Fax: 301–713–1917.

SUPPLEMENTARY INFORMATION: Analysis of reported landings for the directed North Atlantic swordfish fishery, the North Atlantic incidental swordfish fishery, and the South Atlantic directed swordfish fishery indicate that the quotas for those fisheries were not exceeded during the 1998 fishing year (June 1, 1998, through May 31, 1999). Under 50 CFR 635.27(c)(3)(ii), if total landings are above or below the specific North Atlantic swordfish annual quotas, they must be subtracted from, or added to, the following year's quota for that management area, provided quota modifications are consistent with applicable International Commission for the Conservation of Atlantic Tunas (ICCAT) recommendations. Further, any

carryover adjustments to the 12-month directed catch quota for the North Atlantic swordfish fishery must be apportioned equally between the two semiannual periods. Under 50 CFR 635.27(c)(2)(ii), incidental catch for North Atlantic swordfish may be reallocated to the directed catch quota if not expected to be taken in the incidental fishery before the end of the fishing year.

There is no ICCAT recommendation to modify the South Atlantic swordfish quota based on over or under harvests in prior years. Therefore, the annual quota for South Atlantic swordfish remains at the current quota level of 289 mt dw. There is no incidental catch quota in the South Atlantic swordfish fishery.

Adjusted Catch Quotas

The adjusted annual directed fishery quota for North Atlantic swordfish for the 1998 fishing year was 2,392.3 mt dw. The adjusted quota for incidental harvests of North Atlantic swordfish for the 1998 fishing year was 314.6 mt dw (64 FR 4059, January 27, 1999).

The initial annual directed fishery quota for North Atlantic swordfish for the 1999 fishing year (June 1, 1999, through May 31, 2000) was previously established at 2033.2 mt dw and is divided into two equal semiannual quotas of 1016.6 mt dw, one for June 1 through November 30, 1999, and the other for December 1, 1999, through May 31 of 2000 (63 FR 31710, June 10, 1998). The initial catch quota for incidental harvests of North Atlantic swordfish for the 1999 fishing year is 300 mt dw.

The harvest of North Atlantic swordfish in the directed catch category for the 1998 fishing year is estimated to be 2,308.3 mt dw, or 84.0 mt dw below the directed catch quota of 2,392.3 mt dw. Additionally, the harvest of North Atlantic swordfish in the incidental catch category for the 1998 fishing year was 4.4 mt dw, or 310.2 mt dw below the incidental catch quota of 314.6 mt dw.

The 84.0 mt dw underage from the directed catch quota and the 310.2 mt dw underage from the incidental catch quota for the 1998 fishing year are added to the directed catch quota for the 1999 fishing year, for a revised North Atlantic swordfish directed catch quota of 2,427.4 mt dw. This adjusted annual quota is divided into 2 equal semiannual catch quotas of 1,213.7 mt dw, one for June 1, 1999, through November 30, 1999, and the other for December 1, 1999, through May 31, 2000. NMFS is currently examining landings reports from the first semi-
