ENVIRONMENTAL PROTECTION AGENCY

FRL-6564-1]

Proposed Agreement Pursuant to Section 122(h)(1) of the Comprehensive Environmental Response, Compensation, and Liability Act for the 7-7 Merger, Inc., Superfund Site

AGENCY: Environmental Protection Agency ("EPA").

ACTION: Notice; Request for public comment on proposed CERCLA 122(h)(1) agreement with Weitron Steel Corporation; USX Corporation; Sloss Industries Corporation; Shenango Incorporated; Roanoke Gas Company; Republic Technologies International, L.L.C.; Reilly Industries, Inc.; Premier

Refractories, Inc.; North Star Steel Company; Granite City Division of National Steel Corporation; Lone Star Steel Company; Koppers Industries, Inc.; Kaiser Ventures, Inc.; Honeywell International, Inc. (f/k/a Allied Signal Inc.); Columbia Gas of Pennsylvania, Inc.; Coopers Creek Chemical Corporation; ENCOAL Corporation; Bethlehem Steel Corporation; Aristech Chemical Corporation, and; AK Steel Corporation for the 7-7 Merger, Inc., Superfund Site.

SUMMARY: In accordance with section 122(i)(1) of the Comprehensive Environmental Response, Compensation and Liability Act of 1984, as amended ("CERCLA"), EPA hereby gives notice of a proposed administrative agreement concerning the 7-7 Merger Inc., hazardous waste site at 607 Freeland Road, Wooster, Wayne County, Ohio (the "Site"). EPA proposes to enter into this agreement under the authority of sections 106 and 122(h) of CERCLA. The proposed agreement has been executed by Weitron Steel Corporation; USX Corporation; Sloss Industries Corporation; Shenango Incorporated; Roanoke Gas Company; Republic Technologies International, L.L.C.; Reilly Industries, Inc.; Premier Refractories, Inc.; North Star Steel Company; Granite City Division of National Steel Corporation; Lone Star Steel Company; Koppers Industries, Inc.; Kaiser Ventures, Inc.; Honeywell International, Inc. (f/k/a Allied Signal Inc.); Columbia Gas of Pennsylvania, Inc.; Coopers Creek Chemical Corporation; ENCOAL Corporation; Bethlehem Steel Corporation; Aristech Chemical Corporation; and AK Steel Corporation (the "Settling Parties").

Under the proposed agreement, the Settling Parties are resolving EPA's claims against them for response actions and EPA response and oversight costs at the site. The Settling Parties are conducting an emergency response at the site and paying to the Hazardous Substances Superfund all past response costs and costs of overseeing the emergency response to the extent that these costs exceed \$150,000. EPA incurred response costs mitigating an imminent and substantial endangerment to human health or the environment, present or threatened by hazardous substances at the site. EPA also incurred and will incur response costs overseeing response activities conducted and to be conducted at the site by the Settling Parties. EPA is compromising \$150,000 of its response costs based on EPA's Orphan Share Policy.

For thirty days following the date this notice is published, the EPA will

receive written comments relating to this proposed agreement. EPA will consider all comments received and may decide not to enter this proposed agreement if comments disclose facts or considerations which indicate that the proposed agreement is inappropriate, improper or inadequate.

DATES: EPA must receive comments on the proposed agreement before April 28, 2000.

ADDRESSES: You should address comments to the Docket Clerk, U.S. Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois, 60604-3590, and should refer to: In the 7-7 Merger, Inc., Site, Wooster, Ohio, U.S. EPA Docket No. V-W-00-C-584.

FOR FURTHER INFORMATION CONTACT: Stuart P. Hersh, U.S. Environmental Protection Agency, Office of Regional Counsel, C-14J, 77 West Jackson Boulevard, Chicago, Illinois, 60604-3590, (312) 886-6235.

You may obtain a copy of the proposed administrative settlement agreement in person or by mail from the EPA's Region 5 Office of Regional Counsel, 77 West Jackson Boulevard, Chicago, Illinois, 60604-3590. Additional background information relating to the settlement is available for review at the EPA's Region 5 Office of Regional Counsel.

Authority: The Comprehensive Environmental Response, Compensation, and Liability Act, as amended, 42 U.S.C. 9601-9675.

Richard C. Karl,

Acting Director, Superfund Division, Region 5.

FEDERAL COMMUNICATIONS COMMISSION

[DA 00-109]

United States and Canada Reach Agreement Regarding Use of the 220-222 MHz Band Along Their Border

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: This document announces that the Federal Communications Commission, the National Telecommunications and Information Administration, and Industry Canada have signed an interim sharing Arrangement regarding use of the 220-222 MHz band along the United States-Canada Border. Now that the

Arrangement has been agreed upon, any non-nationwide Phase I 220 MHz licensee with a base station authorized at a location North of Line A must construct its base station and place it in operation, or commence service, on all authorized channels by January 21, 2001. The authorization of a licensee that does not construct its base station and place it into operation, or commence service, by January 21, 2001, cancels automatically on that date and must be returned to the Commission. United States licensees along the border whose construction deadlines had previously been delayed pending completion of this Arrangement between the United States and Canada are now required to complete construction and commence operation by January 21, 2001.

DATES: Effective January 21, 2000.

FOR FURTHER INFORMATION CONTACT: Dan Abeyta, Wireless Telecommunications Bureau, at (202) 418-1538; Henry Straube, International Bureau, at (202) 418-2144.

SUPPLEMENTARY INFORMATION: This *Public Notice*, reproduced without footnotes, was released January 21, 2000. It is available for inspection and copying during normal business hours in the FCC Reference Center, 445 Twelfth Street, S.W., Washington D.C. The complete text may be purchased from the Commission's copy contractor, International Transcription Service, Inc., 1231 20th Street, N.W., Washington D.C. 20036 (202) 857-3800. The complete document is also available via the internet at <http://www.fcc.gov/Bureaus/Wireless/Public-Notices/2000/index2.html>.

Interim Sharing Agreement Reached Regarding Use of 220-222 MHz Band with Canada

The Federal Communications Commission, the National Telecommunications and Information Administration, and Industry Canada have signed an interim sharing Arrangement regarding use of the 220-222 MHz band along the U.S.-Canada border. The Arrangement will resolve long-standing uncertainty regarding use of this band in the border area. In addition, by significantly reducing the amount of cross-border coordination required, the Arrangement will allow quick implementation of new services expected to be offered in the band. U.S. licensees along the border whose construction deadlines had previously been delayed pending completion of a U.S.-Canada agreement will now be required to complete construction and

commence operation by January 21, 2001.

The Arrangement governs operations in the 220-222 MHz band within 120 kilometers of the U.S.-Canada border. The Arrangement identifies 200 channel pairs within this band and allots each channel pair for primary use by the United States or Canada, or for shared use. Frequencies allotted for primary use by one country may also be used on a secondary basis by the other country provided certain conditions are met. The Arrangement also provides antenna height and power restrictions, and there are special sharing arrangements for certain geographic areas and for low power stations. In addition, the Arrangement provides that, to the extent possible, certain specified channels will be available for implementation of Intelligent Transportation Systems/ Intelligent Vehicle Highway System and Public Safety and Mutual Aid services. Beyond 120 kilometers from the border, both countries have full and unrestricted use of all channels in the band.

In commenting on the Arrangement, International Bureau Chief Donald Abelson stated, "This Arrangement builds on the strong cooperative relationship between the U.S. and Canada and encourages prompt provision of new services to the citizens on both sides of the border while protecting licensees and consumers from cross-border interference." This Arrangement was reached as part of an on-going Commission effort to negotiate sharing agreements with Canada and Mexico that will promote efficient spectrum use in border areas.

In 1995, the Commission extended the construction deadline for non-nationwide Phase I 220 MHz licenses that were located north of Line A, near the Canadian border, due to the uncertainties surrounding the future of these licenses prior to reaching an agreement with Canada. The construction period was extended until twelve months after an agreement was reached between the United States and Canada on sharing the 220-222 MHz band. Now that the Arrangement has been realized, any non-nationwide Phase I 220 MHz licensee with a base station authorized at a location north of Line A must construct its base station and place it into operation, or commence service, on all authorized channels by January 21, 2001. The authorization of a licensee that does not construct its base station and place it into operation, or commence service, by January 21, 2001, cancels automatically on that date and must be returned to the Commission.

The full text of the Arrangement has been placed on file at the International Bureau Reference Room CY-A257, located on the Courtyard level of 445 12th St. S.W., Washington, D.C. Copies are also available from the International Transcription Service at (202) 857-3800 and can be downloaded from the FCC's International Bureau internet site at <http://www.fcc.gov/ib/pnd/agree>.

Federal Communications Commission.

James D. Schlichting,

Deputy Chief, Wireless Telecommunications Bureau.
