#### Final Results of Reviews

We determine that revocation of the antidumping duty orders would be likely to lead to continuation or recurrence of dumping at the following percentage weighted-average margins:

Manufacturer/exporter	Margin (percent)
<b>Certain Cold-Rolled Steel Flat Products</b>	
Pohang Iron and Steel Company (POSCO) .....	14.44
All Others .....	14.44
<b>Certain Corrosion-Resistant Steel Flat Products</b>	
Pohang Iron and Steel Company (POSCO) .....	17.70
All Others .....	17.70

In addition, in the administrative reviews of these orders initiated during 1996 and 1998, the Department found antidumping duties were being absorbed. Specifically, in the final results of the administrative reviews initiated in 1996 (covering 1995/96) the

Department found antidumping duties were being absorbed by POSCO on the following percentage of its U.S. sales: 35.54 percent with respect to certain cold-rolled carbon steel flat products, and 14.64 percent with respect to corrosion-resistant carbon steel flat products.<sup>2</sup> Additionally, in the reviews of both of these orders initiated in 1998 (covering 1997/98) the Department found that duties were absorbed by three companies on the following percentage of their U.S. sales: certain cold-rolled carbon steel flat products, POSCO—2.70 percent; and corrosion-resistant carbon steel flat products, Dongbu—20.81 percent, POSCO—6.85 percent, and Union—4.49 percent.<sup>3</sup>

This notice also serves as the only reminder to parties subject to administrative protective orders ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305 of the Department's regulations. Timely notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing this determination and notice in accordance with sections 751(c), 752, and 777(i)(1) of the Act.

*Antidumping and Countervailing Duty Orders; Policy Bulletin*, 63 FR 18871 (April 16, 1998) (Sunset Policy Bulletin).

### Background

On September 1, 1999, the Department published the notice of initiation of sunset review of the antidumping duty order on cold-rolled carbon steel flat products from Germany (64 FR 47767). We invited parties to comment. On the basis of a notice of intent to participate and adequate substantive responses filed on behalf of domestic interested parties and a waiver of participation from respondent interested parties, we determined to conduct an expedited sunset review. The Department is conducting this sunset review in accordance with sections 751 and 752 of the Act.

In accordance with section 751(c)(5)(C)(v) of the Act, the Department may treat a review as extraordinarily complicated if it is a review of a transition order (*i.e.*, an order in effect on January 1, 1995). This review concerns a transition order within the meaning of section 751(c)(6)(C)(ii) of the Act. Therefore, on December 22, 1999, the Department determined that the sunset review of the antidumping duty order on cold-rolled carbon steel flat products from Germany is extraordinarily complicated and extended the time limit for completion of the final results of this review until not later than March 29, 2000, in accordance with section 751(c)(5)(B) of the Act.<sup>1</sup>
