Administration for Children and Families

Submission for OMB Review; Comment Request

Title: Objective Evaluation Report (OER)

OMB No.: 0980-0144

Description: OER information is collected to provide the Administration for Native Americans with a final report on each discretionary grant project to meet ANA's legislatively required evaluation of grantees locally-determined grant objectives. This collection also complies with Department of Health and Human Services regulations and policies requiring grantees to submit progress reports and agencies to perform grant oversight.

The information is collected in a narrative format without the use of a government form. Grantees provide self-evaluation information to explain the final status and accomplishments related to each funded, grantee-identified project objective(s). Project objectives are listed on an Objective Work Plan (OWP) which is approved and funded for each grant. An enclosure

with every grant award provides instructions on completing and submitting the OER.

Native American Program Specialists use the OER information to perform legislatively required Federal program oversight such as evaluate project and grantee performance, identify project outcomes suitable for use in program evaluation and Government Performance and Results Act (GPRA) analysis, and to identify grantees and projects that require more detailed Federal training and/or technical assistance. OERs are used in ANA competitive grant programs such as Social and Economic Development Strategies (SEDS), Native American Languages Preservation, Environmental Regulatory Enhancement, etc.

The Administration for Native Americans simplified the way OER information is collected. Until June 1999, OERs were transcribed onto a government designed form where every project objective was listed; grantees often worked to fill in space under each objective to accommodate the volume of information they believed was required. Grantees now use their letterhead and present the level of detail they deem appropriate.

Respondents: State, Local or Tribal Government.
