SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments clearly understood, and OSHA's estimate of the information burden is correct. The Occupational

Safety and Health Act of 1970 (the Act) authorizes information collection by employers as necessary or appropriate for enforcement of the Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657).

The information collection requirements in the 1,3-Butadiene Standard provide protection for employees from the adverse health effects associated with exposure to 1,3-Butadiene. In this regard, the 1,3-Butadiene Standard requires employers to: Monitor employees' exposure to 1,3-Butadiene; develop and maintain compliance and exposure-goal programs if employee exposures to 1,3-Butadiene are above the Standard's permissible exposure limits or action level; monitor employee health; maintain employee exposure-monitoring and medical records, and provide employees with information about their exposures and the health effects of exposure to 1,3-Butadiene.

II. Proposed Actions

OSHA proposes to extend the OMB approval for the collection of information (paperwork) contained in the 1,3-Butadiene Standard (29 CFR 1910.1051). OSHA will summarize the comments submitted in response to this notice, and will include this summary in the request to OMB to extend the approval of the information collection requirements contained in the 1,3-Butadiene Standard (29 CFR 1910.1051).

Type of Review: Extension of currently approved information collection requirements.
