SUPPLEMENTARY INFORMATION:

I. Background

Title 30 CFR 45.3 provides that independent contractors may voluntarily obtain a permanent MSHA identification number by submitting to MSHA their trade name and business address, a telephone number, an estimate of the annual hours worked by the contractor on mine property for the previous calendar year, and the address of record for service of documents upon the contractor. Independent contractors performing services or construction at mines are subject to the Federal Mine Safety and Health Act and are responsible for violations of the Act committed by them or their employees.

Although independent contractors are not required to apply for the identification number, they will be assigned one by MSHA the first time they are cited for a violation of the Mine Act. MSHA uses the information to issue a permanent MSHA identification number to the independent contractor.

II. Desired Focus of Comments

Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed extension of the information collection related to Identification of Independent Contractors. MSHA is particularly interested in comments which:

- evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- enhance the quality, utility, and clarity of the information to be collected; and
- minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

MSHA uses the information to issue a permanent MSHA identification

number to the independent contractor. This number allows MSHA to keep track of a contractor's violation history so that appropriate civil penalties can be assessed for violations of the Mine Act or its accompanying mandatory health and safety standards.

III. Current Actions

MSHA is requesting that the approval be extended for three years.

BILLING CODE 4510-43-M

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-254 and 50-265]

Commonwealth Edison Company and MidAmerican Energy Company (Quad Cities Nuclear Power Station, Units 1 and 2); Order Approving Application Regarding Change in Shareholders of MidAmerican Energy Holdings Company

I

MidAmerican Energy Company (MidAmerican) owns a 25-percent interest in Quad Cities Nuclear Power Station, Units 1 and 2 (Quad Cities). Commonwealth Edison Company (ComEd) owns the remaining 75-percent share of Quad Cities. In connection therewith, MidAmerican and ComEd hold Facility Operating Licenses Nos. DPR-29 and DPR-30 for Quad Cities issued by the U.S. Atomic Energy Commission pursuant to Part 50 of Title 10 of the Code of Federal Regulations

(10 CFR Part 50) on December 14, 1972. Under these licenses, only ComEd, acting for itself and as agent and representative of MidAmerican, has the authority to operate Quad Cities. Quad Cities is located in Rock Island County, Illinois.

II

By application transmitted under two cover letters dated November 15, 1999, as supplemented on January 3, January 5, and February 14, 2000, and which cross referenced a submittal dated November 2, 1999, MidAmerican and ComEd submitted a request for approval by the U.S. Nuclear Regulatory Commission (NRC or Commission) to the extent a proposed change in the shareholders of MidAmerican Energy Holdings Company (MEHC), the parent company of MidAmerican, would effect an indirect transfer of the Quad Cities licenses, as held by MidAmerican, within the scope of 10 CFR 50.80. The change involves the acquisition of all of the now publicly traded, widely held stock of MEHC, by a small group of investors. This group of investors consists of Berkshire Hathaway, Inc., and/or subsidiaries thereof (Berkshire); David L. Sokol, the Chairman and Chief Executive Officer of MEHC; and Walter Scott, MEHC's largest individual shareholder, and/or certain Scott family interests; and potentially other members of MEHC's management. The application indicates that following the proposed change in MEHC shareholders, Berkshire's investment in MEHC voting common stock will be 9.9% of shares outstanding, the investment associated with Mr. Scott will be approximately 88.1%, and Mr. Sokol will hold approximately 2% of the voting common stock of MEHC; the latter two percentages being subject to slight variation in the event of participation by other members of MEHC management. The overall equity holdings, taking into account convertible preferred stock, would be approximately 81% for Berkshire and 18% for Mr. Scott and associates, with less than 1% for all others. Mr. Scott will be able to appoint four directors to the MEHC board, while Berkshire will be able to appoint two directors to the board, which will comprise ten members. According to the application, following the change in MEHC shareholders MidAmerican would continue to be a 25 percent minority owner and possession-only licensee of Quad Cities and would remain an "electric utility" as defined in 10 CFR 50.2, engaged in the generation, transmission, and distribution of electric energy for wholesale and retail.
