Proposed Project: Community Mental Health Centers (CMHC) Construction Grantee Checklist—(OMB No. 0930–0104, Extension, no change)—Recipients of Federal CMHC construction funds are obligated to use the constructed facilities to provide mental health services. The CMHS Act was repealed in 1981 except for the provision requiring grantees to continue using the facilities

for mental health purposes for a 20-year period. In order for SAMHSA's Center for Mental Health Services to monitor compliance of construction grantees the grantees are required to submit an annual report. This annual Checklist enables grantees to supply necessary information efficiently and with a minimum of burden. The following table summarizes the annual burden for this program.

	Annual respondents	Responses/ respondent	Hours per response	Annual burden
CMHS Grantee Construction Checklist [42 CFR 54.209(h), 42 CFR 54.213, 42 CFR 54.214]	*24	1	.33	8

*Average over the 3-year approval period as grantees with service obligations continue to complete their period of obligation.

Privacy Act of 1974—Narrative Statement for a New System of Records to Implement the Interior Department Childcare Subsidy Program

The purpose of the new system of records is to collect information from employees of the Interior Department in order to determine their eligibility for childcare subsidy in the form of tuition assistance, to determine the amount of the subsidy, and to implement the program for eligible employees. The new system of records also collects information from employees' child care provider(s) for verification purposes, such as ensuring that providers are

licensed, and information needed to issue payments directly to child care providers.

Authority for the Interior Department's childcare subsidy program is found in the Consolidated Appropriations Act of 2001, Public Law 106-544, which permits Federal agencies to use appropriated funds available for salaries to assist lower income employees with their child care costs. (See Section 633 of H.R. 5658, incorporated by reference into Public Law 106-544.) The authority in the Consolidated Appropriations Act of 2001 expires at the end of fiscal year 2001. If legislation is enacted extending the authority, the Department may choose to continue to operate this program if appropriated funds are available. The notice of establishment of this system of records is intended to cover the potential extension of the program.

It is estimated that one percent of Interior Department employees might be eligible for the subsidy. If one percent apply for the subsidy, the total number of individual records will not exceed 6000.

The Interior Department proposes to enter into a contract with a non-federal organization to process the applications and implement the program. This contractor will receive employees completed applications and determine eligibility and tuition assistance amount based on a formula determined by the Interior Department. The non-federal organization is currently administering the childcare subsidy programs for other federal agencies, and as a result currently handles federal employee personal information and has established procedures to minimize the risk of unauthorized access to the system of records. The contract between the Interior Department and the non-federal organization will require the organization to adhere to federal standards of privacy.

The new system of records will collect income and provider data on an application form ("Child Care Provider Information Form—OPM Form 1644" [OMB Clearance Number 3206-0240]) submitted by employees. The application will only request personal data that is necessary to determine whether an employee is eligible for the subsidy and information necessary to administer the subsidy for eligible employees. The system will contain information from only those individuals who choose to apply for the subsidy. The proposed collection of records will only be used for the purpose of determining eligibility, determining the

amount of the subsidy, and for administration of the subsidy program.

The proposal relates to State and local governments. One of the requirements of the subsidy is for childcare providers to be licensed or regulated in the state or location in which they operate. Childcare providers will be required to submit a copy of their latest license and/or statement of compliance from their state and/or local authority.

This system of records does not entail any changes to computer installations, communications networks, or any other general changes in information collection, handling, storage or dissemination.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Information Collection to be Submitted to the Office of Management and Budget (OMB) for Approval Under the Paperwork Reduction Act

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of Intent To Request Information Collection Authority.

SUMMARY: We, the U.S. Fish and Wildlife Service, will be submitting to the OMB the collection of information described for approval under the provisions of the Paperwork Reduction Act of 1995. Copies of specific information collection requirements and explanatory material may be obtained by contacting our Information Collection Clearance Officer at the address or phone number listed below.

DATES: You must submit comments on or before April 16, 2001.

ADDRESSES: Your comments and suggestions on specific requirements should be sent to our Information Collection Clearance Officer, U.S. Fish and Wildlife Service, MS 222, ARLSQ, 1849 C Street, NW, Washington, D.C. 20240; Telephone 703/358-1943.

FOR FURTHER INFORMATION CONTACT: Jeffrey L. Horwath, Division of Fish and Wildlife Management Assistance and Habitat Restoration, Arlington, Virginia, at 703/358-1718.

SUPPLEMENTARY INFORMATION: We propose to submit the following information collection clearance requirements to the OMB for review and approval under the Paperwork Reduction Act of 1995, Pub. L. 104-13. We currently have OMB approval #1018-0070, which expires 10/31/01.

Your comments are invited on: (1) Whether this collection of information is necessary for us to properly perform our functions, including whether this information will have practical utility; (2) the accuracy of our estimate of burden, including the validity of the methodology and assumptions we use; (3) ways to enhance the quality, utility, and clarity of the information we are proposing to collect; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. An agency may not conduct or sponsor, and a person is not required to a collection of information unless the agency displays a currently valid OMB control number.

Section 101(a)(5)(A) of the Marine Mammal Protection Act of 1972 authorizes us, acting on behalf of the Secretary of the Interior, to allow the incidental, unintentional take of small numbers of marine mammals during a specified activity (other than commercial fishing) in a specified geographic region. Prior to allowing these takes, however, we must find that the total of such taking will have a negligible impact on the species or stocks, and will not have an unmitigable adverse impact on the availability of the species or stocks for subsistence uses by Alaska Natives.

The information that we propose to collect will be used to evaluate applications for specific incidental take regulations from the oil and gas industry to determine whether such regulations, and subsequent Letters of Authorization (LOA), should be issued; the information is needed to establish the scope of specific incidental take regulations. The information is also required to evaluate the impacts of the activities on the species or stocks of the marine mammals and on their availability for subsistence uses by Alaska Natives. It will ensure that all available means for minimizing the incidental take associated with a specific activity are considered by applicants.

We estimate that the burden associated with the request will be a total of 3,140 hours for the full 3-year period of OMB authorization. Two hundred hours will be required to complete the request for specific procedural regulations. For each LOA expected to be requested and issued subsequent to issuance of specific procedural regulations, we estimate that 20 hours will be invested: 8 hours will be required to complete each request for
