

describes, evaluates, and compares four alternatives for managing the natural resources and public use opportunities for the Ohio River Islands National Wildlife Refuge. One of the alternatives represents the Service's Proposed Action. The four alternatives are:

Alternative A. This alternative is the No Action alternative as required by National Environmental Policy Act regulations. Selection of this alternative would maintain the status quo; there would be no significant changes to current management practices. This alternative serves as the baseline from which to compare the other three alternatives.

Alternative B. This alternative represents the Service's Proposed Action; that is, the alternative currently recommended for approval. Selection of this alternative would include expansion of the Refuge by acquiring remaining islands and embayments, which total to over 8,000 acres. Alternative B would emphasize restoration and reforestation of native bottomland floodplain forest to the Ohio River. Opportunities for all six priority public uses would improve, including an increased importance on environmental education and outreach programs.

Alternative C. This alternative would increase Refuge habitat diversity with increased management of early successional habitat. This habitat would also be more favorable for many game species and associated expanded consumptive recreational uses. Fishing, hunting and trapping allowable by state laws regulations would be offered and promoted. Selection of this alternative would also increase acquisition to over 8,000.

Alternative D. This alternative would manage Refuge lands to provide and maximize undisturbed resting, feeding, and breeding areas for wildlife, especially migratory birds. All visitation would be tightly regulated and confined to certain designated areas. Hunting and fishing would be eliminated from all Refuge lands under this Alternative. Boating and shore use would also be prohibited on Refuge lands. Selection of this alternative would also increase acquisition to over 8,000 acres.

ACTION: Notice of Intent to Prepare an Environmental Impact Statement and Notice of Scoping on a proposal from The Pittsburg and Midway Coal Mining Co. to exchange privately owned lands and minerals in WY for Federal coal in the decertified Powder River Federal Coal Production Region.

SUMMARY: BLM received a proposal to exchange Federal coal in the WY Powder River Basin (PRB) for properties owned by Pittsburg & Midway Coal Mining Co. (P&M) on February 4, 1999. P&M is a wholly owned subsidiary of Chevron Corporation. The Federal coal P&M proposes to acquire is located in northern Sheridan County, WY. The lands and minerals P&M proposes to offer in exchange for the coal are located in Carbon, Lincoln, and Sheridan counties, WY. The Powder River Regional Coal Team (RCT) reviewed this exchange proposal at a public meeting held on October 27, 1999, in Gillette, WY.
