**ENVIRONMENTAL PROTECTION
AGENCY****[FRL-6977-9]****Agency Information Collection
Activities: Submission for OMB
Review; Comment Request; Indoor Air
Quality Practices in Schools Survey****AGENCY:** Environmental Protection
Agency (EPA).**ACTION:** Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Title: Indoor Air Quality Practices in Schools Survey, The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before June 13, 2001.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR contact Sandy Farmer at EPA by phone at (202) 260-2740, by email at farmer.sandy@epamail.epa.gov, or download off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 1885.01. For technical questions about the ICR contact John Guevin at EPA by phone at (202) 564-9055.

SUPPLEMENTARY INFORMATION:

Title: Indoor Air Quality Practices in Schools Survey, EPA ICR No. 1885.01. This is a new collection.

Abstract: As part of its authorization under Title IV of SARA, 1986, EPA has been working to promote more effective approaches for preventing, identifying, and solving indoor air quality (IAQ) problems in schools and has developed low-cost guidance entitled IAQ Tools for Schools for that purpose.

The Indoor Air Quality Practices in Schools Survey will allow EPA to gain information regarding the number of schools that have implemented sound IAQ-management practices, such as those activities recommended in its guidance. These data are essential for measuring the effectiveness of EPA's outreach efforts against the Agency's established GPRA goal. EPA is working towards achieving the implementation of sound IAQ practices in 15 percent (or 16,650) of the nation's public and private schools by 2005.

This survey is voluntary. EPA does not expect to receive confidential information from the schools voluntarily participating in the Survey. However, if a respondent does consider

the information submitted to be of a proprietary nature, EPA will assure its confidentiality based on the provisions of 40 CFR Part 2, Subpart B, "Confidentiality of Business Information."

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 10/20/2000 (FR-6886-3); 1 comment was received.

Burden Statement: The annual public reporting and record keeping burden for this collection of information is estimated to average 1.3 hours per response for completing the survey by mail and 0.8 hours per response for completing the survey by telephone. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Public and private elementary and secondary schools operating in the United States.

Estimated Number of Respondents: 1,612.

Frequency of Response: Twice.

Estimated Total Annual Hour Burden: 564 hours.

Estimated Total Annualized Capital and O&M Cost Burden: \$0.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1885.01 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, Office of Environmental Information,

Collection Strategies Division (2822),
1200 Pennsylvania Avenue, NW.,
Washington, DC 20460.

and

Office of Information and Regulatory
Affairs, Office of Management and
Budget, Attention: Desk Officer for
EPA, 725 17th Street, NW.,
Washington, DC 20503.

Dated: May 3, 2001.

Oscar Morales,

Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

[AD-FRL-6977-5]

RACT/BACT/LAER Clearinghouse: Notice of Public Workshops

AGENCY: Environmental Protection
Agency (EPA).

ACTION: Notice of public workshops.

SUMMARY: The EPA operates a clearinghouse of air pollution control technology information known as the Reasonably Available Control Technology (RACT), Best Available Control Technology (BACT), Lowest Achievable Emission Rate (LAER) Clearinghouse (RACT/BACT/LAER Clearinghouse or RBLC). The RBLC has recently received funding needed to implement major improvements and gather missing information. To effectively use these resources, the RBLC needs to communicate with and consider the needs of its users and potential clients. Consequently, several public workshops will be held in 2001 to get user input. The purpose of this notice is to announce the dates and locations of the initial workshops.

DATES: The first two public workshops are scheduled for June 6, 2001 and June 13, 2001. Two additional workshops are under consideration for July 2001 and August 2001.

ADDRESSES: The first workshop will be held in the Ronald Reagan Building in Washington, DC. The second workshop will be held in the EPA's Environmental Research Center in Research Triangle Park, North Carolina. Both workshops will run from 9 a.m. until 5 p.m., Eastern Daylight time, with registration from 8:30 a.m. to 9 a.m. Two other workshops are tentatively scheduled to be held in Denver, Colorado and Chicago, Illinois.

FOR FURTHER INFORMATION CONTACT: The Clean Air Technology Center (CATC) website at <http://www.epa.gov/ttn/catc>

contains detailed information regarding each workshop. Alternatively, you may send an e-mail to catcmail@epa.gov or call the CATC hotline at 919-541-0800 with general questions. A pre-registration form is available on the website. Participants are encouraged to pre-register for the workshops.

SUPPLEMENTARY INFORMATION: The terms RACT, BACT, and LAER indicate emission control and pollution prevention measures required by different provisions of the Clean Air Act. New Source Review (NSR) requirements are case-by-case decisions or determinations based on the requirements of the applicable regulation. The NSR BACT requirements apply to major new and modified sources located in attainment areas (i.e., areas attaining the National Ambient Air Quality Standards (NAAQS)) and subject to Prevention of Significant Air Quality Deterioration (PSD) permitting requirements. The NSR LAER requirements apply to major new and modified sources located in nonattainment areas (i.e., areas that do not meet a NAAQS). Existing sources located in nonattainment areas are subject to RACT requirements. The RACT determinations may also be made on a case-by-case basis, but typically RACT requirements have been prescribed by State and local rules and regulations. The RBLC is primarily a Clearinghouse for air pollution control and pollution prevention technology determinations required for major new and modified sources subject to NSR (BACT & LAER) permitting requirements.

The RBLC will be hosting several public workshops in 2001 to get user input for our efforts to implement improvements to the RBLC. Permitting agency staff represent about one-third of those using the RBLC. The remaining two-thirds of users represent industry, consultants and lawyers preparing NSR permit applications or searching for good technology options for their air pollution abatement problems. The first public workshop will be held in Washington, DC on June 6, 2001. The second public workshop will be held in Research Triangle Park, NC on June 13, 2001. Two other workshops under consideration are tentatively scheduled for Denver, CO in July 2001 and Chicago, IL in August 2001.

Further information regarding the public workshops can be found on EPA's Clean Air Technology Center (CATC) website at <http://www.epa.gov/ttn/catc>. The website contains the details of the first two workshops (location, agenda, etc.) and will include

information on additional workshops after arrangements have been made. We will not publish a separate **Federal Register** notice to announce future workshops. The website contains a pre-registration form, and we encourage participants to pre-register for the workshops. In addition to the website, you may contact us via e-mail at catcmail@epa.gov or call the CATC hotline at 919-541-0800.

Dated: April 27, 2001.

Thomas C. Curran,

*Acting Director, Office of Air Quality,
Planning and Standards.*

FEDERAL COMMUNICATIONS COMMISSION

Sunshine Act Meeting

May 8, 2001.

Deletion of Agenda Item From May 10th Open Meeting

The following item has been deleted from the list of agenda items scheduled for consideration at the May 10, 2001, Open Meeting and previously listed in the Commission's Notice of May 3, 2001.

ITEM NO: 2.

BUREAU: Mass Media.

SUBJECT:

TITLE: Cross-Ownership of Broadcast Stations and Newspapers; and Newspaper/Radio Cross-Ownership Waiver Policy (MM Docket No. 96-197).

SUMMARY: The Commission will consider a Notice of Proposed Rule Making proposing to modify, eliminate, or retain its rule that prohibits common ownership of broadcast stations and newspapers within the same geographic area.

Federal Communications Commission.

Magalie Roman Salas,

Secretary.
