Frequency: At 2-year intervals.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

This survey will serve multiple purposes. It will gauge the American public's awareness of, familiarity with, attitudes about and feelings toward the Air Force Research Laboratory. It will also gauge where the American public would go for information regarding the Air Force Research Laboratory. The survey asks what they currently know about the laboratory and notes some discoveries and projects the lab has worked and whether these are familiar to the American public or not. The survey also asks if they are familiar with the publications and products of the laboratory and asks how satisfied they are with these products. The survey will allow for comparisons of data to better target communication efforts to effectively communicate Air Force Research Laboratory information to the public. Findings from these surveys of the civilian population also will be compared with similar data to be gathered from the internal Air Force population at approximately the same time, providing a valuable head-to-head comparison of civilians' and Air Force people's perceptions of what the Air Force Research Laboratory does.

Janet A. Long,

Air Force Federal Register Liaison Officer.
