Meeting of the Arsenic Cost Working Group of the National Drinking Water Advisory Committee

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Under section 10(a)(2) of Public Law 92-423, "The Federal Advisory Committee Act," notice is hereby given that a meeting of Arsenic Cost Working Group of the National Drinking Water Advisory Council established under the Safe Drinking Water Act, as amended (42 U.S.C. S300f *et seq.*), will be held on May 29 and May 30, 2001, from 8:30 a.m.-5:00 p.m. Eastern Time, at RESOLVE, 1255 23rd Street, NW., Suite 275, Washington, DC. The meeting is open to the public, but from past experience, seating will likely be limited.

Following the January 22, 2001 **Federal Register** promulgation of the arsenic rule, a number of concerns were raised to EPA by States, public water systems, and other stakeholders regarding the adequacy of science and the basis for national cost estimates underlying the rule. Because of the importance of the arsenic rule and the national debate surrounding it related to science and costs, EPA's Administrator publicly announced on March 20, 2001, that the Agency would take additional steps to reassess the scientific and cost issues associated with this rule and seek further public input on each of these important issues.

The purpose of this meeting is to bring nationally recognized technical experts together to review the cost of compliance estimates associated with the final arsenic in drinking water rule. The meeting is open to the public to observe. The working group members are meeting to: (1) Gather information; and (2) analyze relevant issues and facts. Statements from the public will be taken if time permits.

For more information, please contact Amit Kapadia, Acting Designated Federal Officer, Arsenic Cost Working Group, U.S. EPA, Office of Ground Water and Drinking Water, Mailcode 4607, 1200 Pennsylvania Avenue, NW., Washington, DC 20460. Phone number: (202)-260-1688. E-mail: kapadia.amit@epa.gov.

Dated: May 14, 2001.

Cynthia C. Dougherty,

Director, Office of Ground Water and Drinking Water.

I. Does this Action Apply to Me?

This action is directed to the public in general and to persons interested in the availability of public information regarding inert or "other" ingredients in pesticide products regulated under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA).

The Inert Disclosure Stakeholder Workgroup was established to advise the United States Environmental Protection Agency, through the Pesticide Program Dialogue Committee (PPDC), on potential measures to increase the availability to the public of information about inert ingredients (also called "other ingredients") under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). Among the factors the workgroup has been asked to consider in preparing its recommendations are: Existing law regarding inert ingredients and Confidential Business Information (CBI); current Agency processes and policies for disseminating inert ingredient information to the public, including procedures for the protection of CBI; informational needs for a variety of stakeholders; and business reasons for limiting the disclosure of inert ingredient information.

The Inert Disclosure Stakeholder Workgroup is composed of participants from the following sectors: environmental/public interest and consumer groups; industry and pesticide users; Federal, State and local governments; the general public; academia and public health organizations.

The Inert Disclosure Stakeholder Workgroup meeting is open to the public. Written public statements are also welcome and should be submitted to the OPP administrative docket OPP-00439A. Any person who wishes to file a written statement can do so before or after the conference call.
