

States may use State waiver authorities to relax authorized State rules to the extent those rules are more stringent than analogous Federal rules (See, for example, 63 FR 65874 at 65925 (November 30, 1998)).

In addition, if a State authorized to implement the RCRA program has a permit waiver authority that is analogous to EPA's authority under section 121(e) of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) or RCRA section 7003, it may use this authority to waive the requirement to obtain a RCRA permit with respect to on-site response actions. As explained in EPA guidance, the two preconditions to allowing the use of this authority are that: "(1) The State has the authority under its own statutes or regulations to grant permit waivers; and (2) the State waiver authority is used in no less stringent a manner than allowed under Federal permit waiver authority, for example, section 7003 of RCRA or section 121(e) of CERCLA." (See the Memorandum, "RCRA Permit Requirements for State Superfund Actions", from J. Winston Porter to Regional Administrators, Region I-X (Nov. 16, 1987) (OSWER Dir. No. 9522.00-2).) Nothing in this clarification document changes or affects this policy in any way.

#### 4. Summary

The references in 40 CFR 272.2501 and appendix A to part 272 to sections 144.64(3) and 291.31 of the Wisconsin Statutes and sections NR 181.55(10) and 680.50 of the Wisconsin Administrative Code provide notice that the State, as part of the authorized program, may use this authority only: (1) to grant variances from the surface impoundment double liner requirements of RCRA in those cases wherein the facility meets all of the requirements of RCRA section 3005(j); (2) to grant variances from more stringent authorized requirements that impose instead the same standards as the less stringent federal requirement; and (3) in the manner consistent with sections 7003 of RCRA or 121(e) of CERCLA, as described in applicable EPA guidance. Use of the State hardship variance authority with respect to any other authorized RCRA requirements is not part of the RCRA approved State program. Of course, States retain authority to waive or vary those State requirements that are broader in scope than, and therefore not part of, the Federal RCRA program. Therefore, with certain limited exceptions discussed herein, a State hardship variance cannot excuse compliance with RCRA program

requirements. Persons who fail to comply with RCRA program requirements are subject to Federal enforcement under sections 3008, 3013, and 7003 of RCRA.

[DA 01-1222, MM Docket No. 01-29, RM-10044]

#### Digital Television Broadcast Service; Butte, MT

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule.

**SUMMARY:** The Commission, at the request of Eagle Communications, Inc., licensee of station KTVN(TV), substitutes DTV channel 33 for DTV channel 2 at Butte, Montana. See 66 FR 9062, February 6, 2001. DTV channel 33 can be allotted to Butte in compliance with the principle community coverage requirements of section 73.625(a) at reference coordinates (46-00-27 N. and 112-26-30 W.) with a power of 1000, HAAT of 576 meters and with a DTV service population of 122 thousand. Since Butte is located within 400 kilometers of the U.S.-Canadian border, concurrence by the Canadian government has been obtained for this allotment.

With this action, this proceeding is terminated.

**DATES:** Effective July 2, 2001.

### DEPARTMENT OF TRANSPORTATION

#### Office of the Secretary

#### 49 CFR Part 40

[Docket No. OST-1999-6578]

#### Procedures for Transportation Workplace Drug and Alcohol Testing Programs; Early Compliance Allowed for Electronic Reporting

**AGENCY:** Office of the Secretary, DOT.

**ACTION:** Compliance date on final rule.

**SUMMARY:** In its final drug and alcohol testing rule published on December 19, 2000, and effective August 1, 2001, the Department authorized laboratories, certified by the Department of Health and Human Services (HHS), to report

negative drug testing results to medical review officers (MRO) using only electronic reports and mandated the use of the new Federal Drug Testing Custody and Control Form (CCF). To provide laboratories lead-time to accomplish the transition to the new CCF, the Department, in coordination with HHS, has determined that earlier compliance with this reporting procedure should be permitted. Additionally, the Department is also permitting early compliance with the reporting of all non-negative results to the MRO using faxed or scanned copies of the laboratory copy of the new CCF.

This document authorizes HHS certified laboratories to initiate electronic reporting as the only reporting necessary for negative results on specimens submitted to laboratories using the new CCF and the reporting of non-negative results using faxed or scanned copies of Copy 1 of the new CCF. Laboratories may continue to use current procedures utilizing mail or courier services.

**DATES:** This document permits as of May 23, 2001 early compliance with the electronic reporting provisions in the final rule published at 65 FR 79462, and effective August 1, 2001.

**FOR FURTHER INFORMATION CONTACT:** Don Shatinsky, Drug and Alcohol Policy Advisor, Office of Drug and Alcohol Policy and Compliance, Department of Transportation, 400 7th Street, SW., Room 10403, Washington, DC 20590, at (202) 366-3784 (voice), (202) 366-3897 (fax), or don.shatinsky@ost.dot.gov/.

**SUPPLEMENTARY INFORMATION:** In the December 19, 2000, **Federal Register** (65 FR 79462), the Department published a comprehensive revision to its drug and alcohol procedures testing regulation (49 CFR Part 40). This complete revision becomes effective August 1, 2001. In this revision, the Department authorizes laboratories to report drug testing results to the MRO electronically and mandates use of the new shorter-version of the Federal Drug Testing Custody and Control Form (CCF).

Currently, the Department and HHS permit laboratories and employers to use the new CCF. The laboratory may transmit all results (negative and non-negative) to the MRO by mail or courier or by either faxing the completed laboratory copy (Copy 1) of the CCF or transmitting a scanned image of the form via computer. On August 1, 2001, for all negative results, laboratories will be permitted to send to MROs an electronically generated laboratory report and will not need to mail, courier, fax or send a scanned copy,
