

DEPARTMENT OF DEFENSE**Department of the Army, Corps of Engineers****33 CFR Part 334****United States Navy Restricted Area, Elizabeth River, Craney Island, VA**

AGENCY: United States Army Corps of Engineers, DoD.

ACTION: Notice of proposed rulemaking and request for comments.

SUMMARY: The Corps of Engineers is proposing regulations to establish a restricted area in the vicinity of the Craney Island Refueling Station, Portsmouth, Virginia. These regulations will enable the Navy to enhance security around vessels moored at the facility. 33 U.S.C. 1 states, in part, that: It shall be the duty of the Secretary of the Army to prescribe such regulations for the use, administration, and navigation of the navigable waters of the United States as in his/her judgment the public necessity may require for the protection of life and property. The regulations are necessary to safeguard Navy vessels and United States government facilities from sabotage and other subversive acts, accidents, or incidents of similar nature. These regulations are also necessary to protect the public from potentially hazardous conditions which may exist as a result of Navy use of the area.

DATES: Written comments must be submitted on or before June 25, 2001.

ADDRESSES: U. S. Army Corps of Engineers, ATTN: CECW-OR, 441 G Street, NW., Washington, DC 20314-1000.

FOR FURTHER INFORMATION CONTACT: Mr. Frank Torbett, Headquarters Regulatory Branch, Washington, D.C. at (202) 761-4618, or Mr. Rick Henderson, Corps of Engineers, Norfolk District, Regulatory Branch, at (757) 441-7653.

SUPPLEMENTARY INFORMATION: Pursuant to its authorities in Section 7 of the Rivers and Harbors Act of 1917 (40 Stat. 266; 33 U.S.C.1) and Chapter XIX, of the Army Appropriations Act of 1919 (40 Stat. 892; 33 U.S.C.3) the Corps proposes to amend the restricted area regulations in 33 CFR part 334 by adding § 334.293 which establishes a restricted area in the Elizabeth River adjacent to the Craney Island Refueling Station in Portsmouth, Virginia. The public currently has unrestricted access to the facility and units assigned there. To better protect vessels and personnel stationed at the facility, the Commander, Navy Region, Mid-Atlantic

has requested the Corps of Engineers establish a Restricted Area which will enable the Navy to implement a waterside security program that is currently not available at the facility.

Procedural Requirements*a. Review Under Executive Order 12866*

This proposed rule is issued with respect to a military function of the Defense Department and the provisions of Executive Order 12866 do not apply.

b. Review Under the Regulatory Flexibility Act

These proposed rules have been reviewed under the Regulatory Flexibility Act (Pub. L. 96-354) which requires the preparation of a regulatory flexibility analysis for any regulation that will have a significant economic impact on a substantial number of small entities (i.e., small businesses and small Governments). The Corps expects that the economic impact of the establishment of this restricted area would have practically no impact on the public, no anticipated navigational hazard or interference with existing waterway traffic and accordingly, certifies that this proposal if adopted, will have no significant economic impact on small entities.

c. Review Under the National Environmental Policy Act

An environmental assessment has been prepared for this action. We have concluded, based on the minor nature of the proposed additional restricted area regulations, that this action, if adopted, will not have a significant impact to the quality of the human environment, and preparation of an environmental impact statement is not required. The environmental assessment may be reviewed at the District office listed at the end of **FOR FURTHER INFORMATION CONTACT**, above.

d. Unfunded Mandates Act

This proposed rule does not impose an enforceable duty among the private sector and, therefore, is not a Federal private sector mandate and is not subject to the requirements of Section 202 or 205 of the Unfunded Mandates Act. We have also found under Section 203 of the Act, that small Governments will not be significantly and uniquely affected by this rulemaking.

List of Subjects in 33 CFR Part 334

Danger zones, Marine safety, Restricted areas, Waterways.

For the reasons set out in the preamble, the Corps proposes to amend 33 CFR part 334, as follows:

PART 334—DANGER ZONE AND RESTRICTED AREA REGULATIONS

1. The authority citation for part 334 continues to read as follows:

Authority: 40 Stat. 266 (33 U.S.C. 1) and 40 Stat. 892 (33 U.S.C. 3).

2. Section 334.293 would be added to read as follows:

§ 334.293 Elizabeth River, Craney Island Refueling Pier Restricted Area.

(a) *The area.* The waters within an area beginning at a point on the shore at latitude 36°53'17.4" N, longitude 76°20'21" W; thence easterly to latitude 36°53'16.8" N, longitude 76°20'14.4" W; thence southwesterly to latitude 36°53'00" N, longitude 76°20'18" W; thence southeasterly to latitude 36°52'55.2" N, longitude 76°20'16.5" W; thence southwesterly to latitude 36°52'52.2" N, longitude 76°20'18" W; thence southwesterly to latitude 36°52'49.8" N, longitude 76°20'25.8" W; thence northwesterly to latitude 36°52'58.2" N, longitude 76°20'33.6" W; thence northeasterly to a point on the shore at latitude 36°53'00" N, longitude 76°20'30" W; thence northerly along the shoreline to the point of beginning.

(b) *The regulation.* No vessel or persons may enter the restricted area unless specific authorization is granted by the Commander, Navy Region, Mid-Atlantic and/or other persons or agencies as he/she may designate.

(c) *Enforcement.* The regulation in this section shall be enforced by the Commander, Navy Region, Mid-Atlantic, and/or persons or agencies as he/she may designate.

Dated: May 4, 2001.

Charles M. Hess,

Chief, Operations Division, Directorate of Civil Works.

BILLING CODE 3710-92-P

DEPARTMENT OF DEFENSE**Department of the Army, Corps of Engineers****33 CFR Part 334****United States Navy Restricted Area, Elizabeth River, Lambert's Bend, VA**

AGENCY: United States Army Corps of Engineers, DoD.

ACTION: Notice of proposed rulemaking and request for comments.

SUMMARY: The Corps of Engineers is proposing regulations to establish a restricted area in the vicinity of Lambert's Bend and the Craney Island Refueling Station, Portsmouth, Virginia.

These regulations will enable the Navy to enhance security around vessels moored at the facility. 33 U.S.C. 1 states, in part, that: It shall be the duty of the Secretary of the Army to prescribe such regulations for the use, administration, and navigation of the navigable waters of the United States as in his/her judgment the public necessity may require for the protection of life and property. The regulations are necessary to safeguard Navy vessels and United States government facilities from sabotage and other subversive acts, accidents, or incidents of similar nature. These regulations are also necessary to protect the public from potentially hazardous conditions which may exist as a result of Navy use of the area.

DATES: Written comments must be submitted on or before June 25, 2001.

ADDRESSES: U.S. Army Corps of Engineers, ATTN: CECW-OR, 441 G Street, NW., Washington, DC 20314-1000.

FOR FURTHER INFORMATION CONTACT: Mr. Frank Torbett, Headquarters Regulatory Branch, Washington, D.C. at (202) 761-4618, or Mr. Rick Henderson, Corps of Engineers, Norfolk District, Regulatory Branch, at (757) 441-7653.

SUPPLEMENTARY INFORMATION: Pursuant to its authorities in Section 7 of the Rivers and Harbors Act of 1917 (40 Stat. 266; 33 U.S.C. 1) and Chapter XIX, of the Army Appropriations Act of 1919 (40 Stat. 892; 33 U.S.C. 3) the Corps proposes to amend the restricted area regulations in 33 CFR Part 334 by adding § 334.295 which establishes a restricted area in the Elizabeth River, near Lambert's Bend adjacent to the Naval Deperming Station, Portsmouth, Virginia. The public currently has unrestricted access to the facility and units assigned there. To better protect vessels and personnel stationed at the facility, the Commander, Navy Region, Mid-Atlantic has requested the Corps of Engineers establish a Restricted Area which will enable the Navy to implement a waterside security program that is currently not available at the facility.

Procedural Requirements

a. Review Under Executive Order 12866

This proposed rule is issued with respect to a military function of the Defense Department and the provisions of Executive Order 12866 do not apply.

b. Review Under the Regulatory Flexibility Act

These proposed rules have been reviewed under the Regulatory Flexibility Act (Pub. L. 96-354) which

requires the preparation of a regulatory flexibility analysis for any regulation that will have a significant economic impact on a substantial number of small entities (i.e., small businesses and small Governments). The Corps expects that the economic impact of the establishment of this restricted area would have practically no impact on the public, no anticipated navigational hazard or interference with existing waterway traffic and accordingly, certifies that this proposal if adopted, will have no significant economic impact on small entities.

c. Review Under the National Environmental Policy Act

An environmental assessment has been prepared for this action. We have concluded, based on the minor nature of the proposed additional restricted area regulations, that this action, if adopted, will not have a significant impact to the quality of the human environment, and preparation of an environmental impact statement is not required. The environmental assessment may be reviewed at the District office listed at the end of **FOR FURTHER INFORMATION CONTACT**, above.

d. Unfunded Mandates Act

This proposed rule does not impose an enforceable duty among the private sector and, therefore, is not a Federal private sector mandate and is not subject to the requirements of Section 202 or 205 of the Unfunded Mandates Act. We have also found under Section 203 of the Act, that small Governments will not be significantly and uniquely affected by this rulemaking.

List of Subjects in 33 CFR Part 334

Danger zones, Marine safety, Restricted areas, Waterways.

For the reasons set out in the preamble, the Corps proposes to amend 33 CFR part 334, as follows:

PART 334—DANGER ZONE AND RESTRICTED AREA REGULATIONS

1. The authority citation for part 334 continues to read as follows:

Authority: 40 Stat. 266 (33 U.S.C. 1) and 40 Stat. 892 (33 U.S.C. 3).

2. Section 334.295 would be added to read as follows:

§ 334.295 Elizabeth River, Lamberts Bend, Naval Deperming Station, Restricted Area.

(a) *The area.* The waters within an area beginning at 36°52'10" N, longitude 76°20'02" W; thence easterly to latitude 36°52'10" N, longitude 76°19'55" W; thence southerly to latitude 36°51'57" N, longitude 76°19'55" W; thence westerly

to latitude 36°51'57" N, longitude 76°20'02" W; thence northerly to the point of origin.

(b) *The regulation.* No vessel or persons may enter the restricted area unless specific authorization is granted by the Commander, Navy Region, Mid-Atlantic and/or other persons or agencies as he/she may designate.

(c) *Enforcement.* The regulation in this section, promulgated by the United States Army Corps of Engineers, shall be enforced by the Commander, Navy Region, Mid-Atlantic, and/or persons or agencies as he/she may designate.

Dated: May 4, 2001.

Charles M. Hess,

Chief, Operations Division, Directorate of Civil Works.

BILLING CODE 3710-92-P

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

33 CFR Part 334

United States Navy Restricted Area, Hampton Roads and Willoughby Bay, VA

AGENCY: United States Army Corps of Engineers, DoD.

ACTION: Notice of proposed rulemaking and request for comments.

SUMMARY: The Corps of Engineers is proposing to amend the regulations which established a restricted area, in waters of the United States, adjacent to the Norfolk Naval Base, Norfolk, Virginia. The proposed amendment will close off an open area on the south side of the base and changes the enforcement responsibility from the base Commander to the Commander, Navy Region, Mid-Atlantic. These regulations will enable the Navy to enhance security around vessels moored at the facility. 33 U.S.C. 1 states, in part that: It shall be the duty of the Secretary of the Army to prescribe such regulations for the use, administration, and navigation of the navigable waters of the United States as in his/her judgment the public necessity may require for the protection of life and property. The regulations are necessary to safeguard Navy vessels and United States government facilities from sabotage and other subversive acts, accidents, or incidents of similar nature. These regulations are also necessary to protect the public from potentially hazardous conditions which may exist as a result of Navy use of the area.
