SUPPLEMENTARY INFORMATION:

I. Abstract

Regulations at 50 CFR 622.6 (b) and 640.6 require that each fish or spiny lobster trap or pot be marked with a tag or the vessel permit number, depending on the fishery, and have a buoy attached that meets specified identification requirements. The marking of gear aids law enforcement, helps to ensure that vessels only harvest fish from their own gear, and makes it easier for fishermen to report the use of gear in unauthorized locations.

The regulations at 622.41 require that aquaculture site materials be distinguishable from the natural occurring substrate, depending on the area either through marking or other method. The marking of aquacultured site materials aids determination of the origin of those materials and thereby helps ensure compliance with the regulations.
