

sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion. Petitioner must provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the amendment under consideration. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

If a hearing is requested, the Commission will make a final determination on the issue of no significant hazards consideration. The final determination will serve to decide when the hearing is held.

If the final determination is that the amendment request involves no significant hazards consideration, the Commission may issue the amendment and make it immediately effective, notwithstanding the request for a hearing. Any hearing held would take place after issuance of the amendment.

If the final determination is that the amendment request involves a significant hazards consideration, any hearing held would take place before the issuance of any amendment.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, or may be delivered to the Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, by the above date. A copy of the petition should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and to Mr. Robert Helfrich, Senior Counsel, Nuclear, Mid-West Regional Operating Group, Exelon Generation Company, LLC, 1400 Opus Place, Suite 900, Downers Grove, Illinois, 60515, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the

Commission, the presiding officer or the presiding Atomic Safety and Licensing Board that the petition and/or request should be granted based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)-(v) and 2.714(d).

For further details with respect to this action, see the application for amendment dated February 22, 2001, as supplemented by letter dated May 4, 2001, which is available for public inspection at the Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible from the Agencywide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room on the internet at the NRC Web site, <http://www.nrc.gov/NRC/ADAMS/index.html>. If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC Public Document Room (PDR) Reference staff at 1-800-397-4209, 301-415-4737 or by email to pdr@nrc.gov.

Dated at Rockville, Maryland, this 31st day of May, 2001.

For the Nuclear Regulatory Commission.

Stewart N. Bailey,

Project Manager, Section 2, Project Directorate III, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-387 and 50-388]

In the Matter of PPL Susquehanna, LLC, Allegheny Electric Cooperative, Inc. (Susquehanna Steam Electric Station, Units 1 and 2); Order Approving Application Regarding Proposed Corporate Restructuring

I

PPL Susquehanna, LLC (PPL Susquehanna or the licensee), owns 90 percent and Allegheny Electric Cooperative, Inc., owns 10 percent of the Susquehanna Steam Electric Station (SSES), Units 1 and 2, located in Luzerne County, Pennsylvania. PPL Susquehanna exclusively operates the facility.

PPL Susquehanna is a wholly owned, direct subsidiary of PPL Generation, LLC, which is a wholly owned, direct subsidiary of PPL Energy Funding Corporation. PPL Energy Funding Corporation is a wholly owned, direct subsidiary of PPL Corporation, the ultimate parent of PPL Susquehanna.

PPL Susquehanna and Allegheny Electric Cooperative, Inc., jointly hold Facility Operating Licenses Nos. NPF-14 for SSES Unit 1 and NPF-22 for SSES Unit 2, issued by the U.S. Nuclear Regulatory Commission (NRC or the Commission) pursuant to part 50 of Title 10 of the Code of Federal Regulations (10 CFR part 50) on July 17, 1982, and March 23, 1984, respectively.

II

Pursuant to Section 184 of the Atomic Energy Act of 1954, as amended, and 10 CFR 50.80, PPL Susquehanna filed an application dated March 6, 2001, which was supplemented by a submittal dated April 4, 2001 (collectively herein referred to as the application), requesting the Commission's consent to the indirect transfer of the SSES Units 1 and 2 licenses, to the extent held by PPL Susquehanna, in connection with the proposed corporate restructuring of PPL Susquehanna's parent organization involving the addition of PPL Energy Supply, LLC, as an intermediary, indirect parent of PPL Susquehanna. The application does not involve Allegheny Electric Cooperative, Inc.

Upon completion of the restructuring, PPL Energy Supply, LLC, will become a wholly owned, direct subsidiary of PPL Energy Funding Corporation and the direct parent of PPL Generation, LLC. PPL Susquehanna, therefore, will become an indirect wholly owned subsidiary of PPL Energy Supply, LLC. No physical changes to the SSES facilities or operational changes are proposed in the application. PPL Susquehanna, the SSES Units 1 and 2 licensee authorized to operate and maintain the facility, and PPL Susquehanna and Allegheny Electric Cooperative, Inc., the licensed owners of SSES Units 1 and 2, will continue to be so following the restructuring. No direct transfer of the license will result from the planned restructuring. Notice of this request for approval was published in the **Federal Register** on April 25, 2001 (66 FR 20839). No hearing requests or written comments were received.

Under 10 CFR 50.80, no license shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission gives its consent in writing. Upon review of the information submitted in the application and other information before the Commission, the NRC staff has determined that the proposed restructuring of PPL Susquehanna's parent organization described above will not affect the qualifications of PPL Susquehanna as a holder of the SSES Units 1 and 2 licenses, and that the indirect transfer of the licenses, to the

extent effected by the restructuring, is otherwise consistent with applicable provision of laws, regulations, and orders issued by the Commission subject to the conditions set forth herein. These findings are supported by a safety evaluation dated May 25, 2001.

III

Accordingly, pursuant to Sections 161b, 161i, and 184 of the Atomic Energy Act of 1954, as amended, 42 U.S.C. 2201(b), 2201(i), and 2234; and 10 CFR 50.80, It is hereby ordered that the application regarding the indirect license transfer referenced above is approved subject to the following condition:

Should the corporate restructuring described above not be completed by June 1, 2002, this Order shall become null and void, provided, however, upon application and for good cause shown, such date may be extended.

This Order is effective upon issuance.

IV

For further details with respect to this Order, see the initial application dated March 6, 2001, the supplemental submittal dated April 4, 2001, and the safety evaluation dated May 25, 2001, which are available for inspection at the Commission's Public Document Room, U.S. Nuclear Regulatory Commission, One White Flint North, Room O-1 F21, 11555 Rockville Pike, Rockville, MD 20852-2738, and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.NRC.gov>).

Dated at Rockville, Maryland, this 25th day of May 2001.

For the Nuclear Regulatory Commission.

David B. Matthews,

Acting Director, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Notice of Public Meeting of the Interagency Steering Committee on Radiation Standards

AGENCIES: Nuclear Regulatory Commission and Environmental Protection Agency.

ACTION: Notice of public meeting.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) will host a meeting of the Interagency Steering Committee on Radiation Standards (ISCORS) on June 21, 2001, in Rockville, Maryland.

The purpose of ISCORS is to foster early resolution and coordination of regulatory issues associated with radiation standards. Agencies represented on ISCORS include the NRC, U.S. Environmental Protection Agency, U.S. Department of Energy, U.S. Department of Defense, U.S. Department of Transportation, the Occupational Safety and Health Administration of the U.S. Department of Labor, and the U.S. Department of Health and Human Services. The Office of Science and Technology Policy, the Office of Management and Budget, and a State Department representative may be observers at meetings. The objectives of ISCORS are to: (1) Facilitate a consensus on allowable levels of radiation risk to the public and workers; (2) promote consistent and scientifically sound risk assessment and risk management approaches in setting and implementing standards for occupational and public protection from ionizing radiation; (3) promote completeness and coherence of Federal standards for radiation protection; and (4) identify interagency radiation protection issues and coordinate their resolution. ISCORS meetings include presentations by the chairs of the subcommittees and discussions of current radiation protection issues. Committee meetings normally involve pre-decisional intra-governmental discussions and, as such, are normally not open for observation by members of the public or media. One of the four ISCORS meetings each year is open to all interested members of the public. There will be time on the agenda for members of the public to provide comments. Summaries of previous ISCORS meetings are available at the ISCORS web site, www.iscours.org and the final agenda for the June meeting will be posted on the site shortly before the meeting.

DATES: The meeting will be held from 1 p.m. to 5 p.m. on Thursday, June 21, 2001.

ADDRESSES: The meeting will be held in the NRC auditorium, at Two White Flint North, 11545 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT:

James Kennedy, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555, telephone 301-415-6668; fax 301-415-5398; E-mail jek1@NRC.GOV.

SUPPLEMENTARY INFORMATION: Visitor parking around the NRC building is limited; however, the NRC auditorium

is located adjacent to the White Flint Metro Station on the Red Line.

Dated at Rockville, MD, this 29th day of May, 2001.

For the Nuclear Regulatory Commission.

Thomas Essig,

Chief, Environmental and Performance Assessment Branch, Division of Waste Management, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards Meeting of the Subcommittee on Plant License Renewal; Notice of Meeting

The ACRS Subcommittee on Plant License Renewal will hold a meeting on June 22, 2001, Room T-2B3, 11545 Rockville Pike, Rockville, Maryland.

The entire meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows: *Friday, June 22, 2001—1:00 p.m. until the conclusion of business.*

The Subcommittee will discuss the need for revising 10 CFR Part 54, "Requirements for Renewal of Operating Licenses for Nuclear Power Plants." The purpose of this meeting is to gather information, analyze relevant issues and facts, and to formulate proposed positions and actions, as appropriate, for deliberation by the full Committee.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Electronic recordings will be permitted only during those portions of the meeting that are open to the public, and questions may be asked only by members of the Subcommittee, its consultants, and staff. Persons desiring to make oral statements should notify the cognizant ACRS staff engineer named below five days prior to the meeting, if possible, so that appropriate arrangements can be made.

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the NRC staff and other interested persons regarding this review.
