has determined pursuant to Figure 2–1, paragraph 34(h) of Commandant Instruction M16475.1C, that this action is categorically excluded from further environmental documentation.

#### **Coast Guard**

33 CFR Part 117

[CGD01-01-076]

#### Drawbridge Operation Regulations: Annisquam River, Blynman Canal, MA

#### AGENCY: Coast Guard, DOT.

**ACTION:** Notice of temporary deviation from regulations.

**SUMMARY:** The Commander, First Coast Guard District, has issued a temporary deviation from the drawbridge operation regulations for the SR 127 Bridge, mile 0.0, across the Annisquam River, Blynman Canal, in Gloucester, Massachusetts. This deviation from the regulations allows the bridge owner to keep the bridge in the closed position from June 18, 2001 through June 27, 2001, at various times to facilitate the emergency repair of the bridge power supply cable.

**DATES:** This deviation is effective from June 18, 2001 through June 27, 2001.

FOR FURTHER INFORMATION CONTACT: John McDonald, Project Officer, First Coast Guard District, at (617) 223–8364.

**SUPPLEMENTARY INFORMATION:** The SR 127 Bridge, at mile 0.0, across the Annisquam River Blynman Canal in Gloucester, Massachusetts, has a vertical clearance of 7 feet at mean high water, and 16 feet at mean low water in the closed position.

The existing drawbridge operation regulations require the draw to open on signal at all times.

The bridge owner, Massachusetts Highway Department (MHD), requested a temporary deviation from the drawbridge operating regulations to facilitate the emergency repair of the bridge power supply cable.

The contractor must work five fourhour days from June 18, 2001 through June 22, 2001, during daylight hours, at slack tide in order to excavate the underwater trench for the new power supply cable. The working hours will vary each day depending upon the time period that slack tide occurs. During these four-hour work periods each day the bridge will not open for vessel traffic.

The bridge will operate according to its normal schedule, opening on demand, from June 23, 2001 through 7 a.m. June 25, 2001. From 7 a.m. June 25, 2001 through midnight on June 27, 2001 the bridge will not open for vessel traffic in order to change over to the new cable and connect all the power supply wires at the bridge. This deviation to the operating regulations allows the owner of the SR 127 Bridge to keep the bridge in the closed position four-hours a day during daylight hours at slack tide from June 18, 2001 through June 22, 2001 and from 7 a.m. on June 25, 2001 through midnight on June 27, 2001.

In accordance with 33 CFR 117.35(c), this work will be performed with all due speed in order to return the bridge to normal operation as soon as possible. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: May 24, 2001.

# OMB Approvals Under the Paperwork Reduction Act; Technical Amendment

**AGENCY:** Environmental Protection Agency (EPA). **ACTION:** Final rule.

**SUMMARY:** In compliance with the Paperwork Reduction Act (PRA), this technical amendment amends the table that lists the Office of Management and Budget (OMB) control numbers issued under the PRA for Standards of Performance for New Stationary Sources (NSPS) Smelters including: Primary Copper, Subpart P; Primary Zinc, Subpart Q; Primary Lead, Subpart R; and Ferroalloy Production Facilities, Subpart Z.

**EFFECTIVE DATE:** This final rule is effective June 8, 2001.

**FOR FURTHER INFORMATION CONTACT:** Deborah Thomas by phone at (202) 564– 5041; by facsimile at (202) 564–0050 or e-mail at *thomas.deborah@epa.gov.* 

SUPPLEMENTARY INFORMATION: EPA is amending the table of currently approved information collection request (ICR) control numbers issued by OMB for various regulations. The amendment updates the table to list those information collection requirements promulgated under the NSPS Smelters including Primary Copper, Lead, and Zinc Smelters, and Ferroalloy Production Facilities. The affected regulations are codified at 40 CFR 60.160–166, 60.170–176, 60.180–186, 60.260–266. EPA will continue to present OMB control numbers in a consolidated table format to be codified in 40 CFR part 9 of the Agency's regulations. The table lists CFR citations with reporting, recordkeeping, or other information collection requirements, and the current OMB control numbers. This listing of the OMB control numbers and their subsequent codification in the CFR satisfies the requirements of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*) and OMB's implementing regulations at 5 CFR part 1320.

This ICR was previously subject to public notice and comment prior to OMB approval. Due to the technical nature of the table, EPA finds that further notice and comment is unnecessary. As a result, EPA finds that there is "good cause" under section 553(b)(B) of the Administrative Procedure Act, 5 U.S.C. 553(b)(B), to amend this table without prior notice and comment.

#### I. Administrative Requirements

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and is therefore not subject to review by the Office of Management and Budget. In addition, this action does not impose any enforceable duty, contain any unfunded mandate, or impose any significant or unique impact on small governments as described in the Unfunded Mandates Reform Act of 1995 (Public Law 104-4). This rule also does not require prior consultation with State, local, and tribal government officials as specified by Executive Order 12875 (58 FR 58093, October 28, 1993) or Executive Order 13084 (63 FR 27655 (May 10, 1998), or involve special consideration of environmental justice related issues as required by Executive Order 12898 (59 FR 7629, February 16, 1994). Because this action is not subject to notice-and-comment requirements under the Administrative Procedure Act or any other statute, it is not subject to the regulatory flexibility provisions of the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). This rule also is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997) because EPA interprets Executive Order 13045 as applying only to those regulatory actions that are based on health or safety risks, such that the analysis required under section 5– 501 of the Order has the potential to influence the regulation. This rule is not subject to Executive Order 13045 because it does not establish an environmental standard intended to mitigate health or safety risks.

#### **Congressional Review Act**

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small **Business Regulatory Enforcement** Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. Section 808 allows the issuing agency to make a good cause finding that notice and public procedure is impracticable, unnecessary or contrary to the public interest. This determination must be supported by a brief statement. 5 U.S.C. 808(2). As stated previously, EPA has made such a good cause finding, including the reasons therefor, and established an effective date of June 8, 2001. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the Federal Register. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

#### Oscar Morales,
