

Dated: June 5, 2001.

Thomas M. Corwin,

*Acting Deputy Assistant Secretary for
Elementary and Secondary Education.*

[FR Doc. 01-14767 Filed 6-8-01; 8:45 am]

BILLING CODE 4000-01-M

DEPARTMENT OF EDUCATION

National Assessment Governing Board; Meeting

AGENCY: National Assessment Governing Board; Education.

ACTION: Notice of full board meeting.

SUMMARY: This notice sets forth the schedule and proposed agenda of a forthcoming meeting of the National Assessment Governing Board. This notice also describes the functions of the Board. Notice of this meeting is required under section 10(a)(2) of the Federal Advisory Committee Act. This document is intended to notify the general public of their opportunity to attend.

Individuals who will need accommodations for a disability in order to attend the meeting (i.e. interpreting services, assistive listening devices, materials in alternative format) should notify Munira Mwalimu at 202-357-6938 or at Munira.Mwalimu@ed.gov no later than May 31, 2001. We will attempt to meet requests after this date, but cannot guarantee availability of the requested accommodation. The meeting site is accessible to individuals with disabilities.

Date: June 28, 2001.

Time: June 28—Full Board Meeting 8:30 a.m. to 3 p.m.

Location: Westin Galleria Hotel, 5060 West Alabama, Houston, Texas

FOR FURTHER INFORMATION CONTACT: Munira Mwalimu, Operations Officer, National Assessment Governing Board, 800 North Capitol Street, NW., Suite 825, Washington, DC, 20002-4233, Telephone: (202) 357-6938.

SUPPLEMENTARY INFORMATION: The National Assessment Governing Board is established under section 412 of the National Educational Statistics Act of 1994 (Title IV of the Improving America's Schools Act of 1994) (Pub. L. 103-382).

The Board is established to formulate policy guidelines for the National Assessment of Educational Progress. The Board is responsible for selecting subject areas to be assessed, developing assessment objectives, identifying appropriate achievement goals for each grade and subject tested, and establishing standards and procedures for interstate and national comparisons.

The meeting will commence at 8:30 a.m. with opening remarks, and review and approval of the meeting agenda. From 9 a.m. to 12 noon, the Board will discuss and take action on recommendations of the Committee on Standards, Design, and Methodology (COSDAM) on the NAEP design. From 12 noon to 1 p.m. the Board will receive an update on NAEP related Congressional activities. From 1:00 to 2:00 p.m., the Board will discuss COSDAM's recommendations on the NAEP 2002 Field Test. A general discussion of President Bush's "No Child Left Behind" initiative will take place between 2 p.m. and 3 p.m., upon which time the meeting will adjourn.

Summaries of the activities of the Board's open sessions, which are informative to the public and consistent with the policy of section 5 U.S.C. 552b(c), will be available to the public within 14 days of the meeting. Records are kept of all Board proceedings and are available for public inspection at the U.S. Department of Education, National Assessment Governing Board, Suite #825, 800 North Capitol Street, NW, Washington, DC, from 8:30 a.m. to 5 p.m. Eastern Standard Time.

Dated: June 6, 2001.

Roy Truby,

Executive Director, National Assessment Governing Board.

BILLING CODE 4000-01-M

DEPARTMENT OF ENERGY

Energy Employees Occupational Illness Compensation Act of 2000; Revision to List of Covered Facilities

AGENCY: Department of Energy.

ACTION: Notice of revision of listing of covered facilities.

SUMMARY: On January 17, 2001, the Department of Energy ("Department" or "DOE") published a list of facilities covered under the Energy Employees Occupational Illness Compensation Act of 2000 ("Act"), Title 36 of Public Law 106-398. (66 FR 4003-4009). The Act establishes a program to provide compensation to individuals who developed illnesses as a result of their employment in nuclear weapons production-related activities and at certain federally-owned facilities in which radioactive materials were used. This notice revises that previous list and provides additional information about the covered facilities. The original notice provides detailed background information about this matter.

FOR FURTHER INFORMATION CONTACT:

Office of Worker Advocacy, 1-877-447-9756.

ADDRESSES: The Department welcomes comments on this list. Individuals who wish to suggest additional facilities for inclusion on the list, indicate why one or more facilities should be removed from the list, or provide other information may contact:

Office of Worker Advocacy (EH-8), U.S. Department of Energy, 1000 Independence Avenue, SW, Washington, DC 20585, email: worker_advocacy@eh.doe.gov, toll-free: 1-877-447-9756

SUPPLEMENTARY INFORMATION:

Purpose

The Energy Employees Occupational Illness Compensation Act of 2000 ("Act"), Title 36 of Public Law 106-398, establishes a program to provide compensation to individuals who developed illnesses as a result of their employment in nuclear weapons production-related activities and at certain federally-owned facilities in which radioactive materials were used. On December 7, 2000, the President issued Executive Order 13179 ("Order") directing the Department of Energy ("Department" or "DOE") to list covered facilities in the **Federal Register**, which the Department did on January 17, 2001. This notice revises the previous list and provides additional information about the covered facilities.

Section 2. c. vii of the Order instructs the Department to list three types of facilities defined in the Act:

- (1) Atomic weapons employer facilities, as defined in section 3621 (4);
- (2) Department of Energy facilities, as defined by section 3621 (12); and
- (3) Beryllium vendors, as defined by section 3621 (6).

Compensation options and mechanisms are defined differently for each of these facility categories. The atomic weapons employer category includes facilities in which the primary work was not related to atomic weapons, and consequently these facilities are not commonly known as atomic weapons facilities. Their inclusion in this list is consistent with the Act, and is not intended as a classification for any other purpose.

The list at the end of this notice represents the Department's best efforts to date to compile a list of facilities in these three categories. This listing includes 320 facilities in 40 jurisdictions. It adds five facilities, removes one facility, and consolidates four sets of duplicates and changes one name. The facilities whose names no

longer appear on the list were removed because either the information that was used to justify the initial listing was found to be in error or corporate histories were found to be interwoven and the listings were actually duplicative. The Department is continuing its research efforts, and continued revisions to this list should be expected. The public is invited to comment on the list and to provide additional information.

In addition to continuing its research efforts, the Department is developing information dissemination mechanisms to make facility-specific data available to the public. Information about each listed facility, including the dates and type of work done there, is available by contacting the Office of Worker Advocacy. These descriptions are available in print form and also electronically (via the World Wide Web at <http://www.eh.doe.gov/advocacy>).

Introduction to the Covered Facility List

The list that follows covers the three categories of employers defined by the Act: atomic weapons employers ("AWE"), Department of Energy facilities ("DOE"), and beryllium vendors ("BE").

Each of the categories has been defined in the original notice and include:

1. Atomic Weapons Employers

The lines between research, atomic weapons production, and non-weapons

production are often difficult to draw. For the purposes of this notice, and as directed by the Act, only those facilities whose work involved radioactive material that was connected to the weapons production chain are included. This includes facilities that received radioactive material that had been used in the production of an atomic weapon, or the "back end" of the production cycle, such as waste handling or reprocessing operations. For the purposes of this listing, the Department considers commercial nuclear fuel fabricators to be covered facilities for those periods when they either supplied radioactive materials to the Department or received radioactive materials that had been used in the Department's production reactors.

Corporate information regarding many of the listed facilities is often not readily available. The Department welcomes comments or additional information regarding facilities that may have supported atomic weapons production that are not on this list, as well as information that clarifies the work done at facilities named below.

2. Department of Energy Facilities

The listing of Department of Energy facilities is only intended for the context of implementing this Act and does not create or imply any new Departmental obligations or ownership at any of the facilities named on this list.

3. Beryllium Vendors

Section 3621(6) of the Act defines beryllium vendor as the following:

"(A) Atomics International.

(B) Brush Wellman, Incorporated, and its predecessor, Brush Beryllium Company.

(C) General Atomics.

(D) General Electric Company.

(E) NGK Metals Corporation and its predecessors, Kawecki-Berylco, Cabot Corporation, BerylCo, and Beryllium Corporation of America.

(F) Nuclear Materials and Equipment Corporation.

(G) StarMet Corporation, and its predecessor, Nuclear Metals, Incorporated.

(H) Wyman Gordan, Incorporated.

(I) Any other vendor, processor, or producer of beryllium or related products designated as a beryllium vendor for purposes of this title under Section 3622."

The list indicates private firms that processed, produced, or provided beryllium metal for the Department, as defined by the Act. This information is drawn from a variety of historical documents, to the extent that the Department has been able to identify and locate these records. Nevertheless, it is likely that much information remains to be identified. The Department welcomes comments or additional information about its beryllium vendors.

WI—Besley-Wells	South Beloit	AWE	Wisconsin.
WI—LaCrosse Boiling Water Reactor	LaCrosse	DOE	Wisconsin.
WI—Ladish Co	Cudahy	BE	Wisconsin.
MR—Pacific Proving Ground	Marshall Islands	DOE	Marshall Islands.

¹ Consistent with the Act, coverage is limited to activities not performed under the responsibility of the Naval Nuclear Propulsion program.

² Pacific Proving Ground includes Bikini Atoll, Eniwetok Atoll, Johnston (nuclear weapons testing activities only), and Christmas Island (U.S. nuclear weapons testing activities only).

Issued in Washington, DC June 6, 2001

Paul J. Seligman,

*Acting Director, Office of Worker Advocacy,
Office of Environment, Safety and Health.*

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Office of Energy Efficiency and Renewable Energy

National Energy Policy; Announcement of Public Meetings

AGENCY: Office of Energy Efficiency and Renewable Energy, DOE.

ACTION: Notice of public meetings and request for comments.

SUMMARY: The recently-released National Energy Policy (NEP) recommended a review of current funding and historic performance of the Department of Energy's Office of Energy Efficiency and Renewable Energy programs. To facilitate this review, Department of Energy senior officials will receive public comments on the programs in seven regional meetings during the month of June. Comments should address: (1) The objectives of the current energy efficiency and renewable energy research, development, demonstration and deployment programs, (2) suggested potential objectives for future programs, (3) implementation of current and future programs, and (4) whether these Federal programs are achieving intended objectives.

DATES: Written comments will be accepted and must be submitted to the Department of Energy no later than 5:00 p.m. EDT, June 29, 2001. See **SUPPLEMENTARY INFORMATION** section for meeting dates.

ADDRESSES: Comments may be sent to: Ms. Bonny Overton, U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, EE 3.1, 1000 Independence Avenue, SW., Washington, DC 20585, or e-mail to EERENEP.comments@ee.doe.gov. To accommodate as many individuals as possible, each speaker will be limited to five minutes. In the event that time does not permit all individuals who would like to comment, several other options are available to receive public input. Forms will be available at each location to provide hand-written comments. Written comments will be accepted and must be submitted to the Department of Energy no later than 5 p.m. EDT, June 29, 2001. Written comments should be no more than four single spaced pages, using 12 pitch font and 1 inch margins.

All written comments will be included in the proceedings of the seven public meetings. The Department of Energy also invites their federal partners to submit written comments. Copies of the National Energy Plan can be found on the web at www.energy.gov. For further information about EERE programs, please visit www.EREN.doe.gov.

FOR FURTHER INFORMATION CONTACT: Nancy Jeffery, 202-586-9373.

SUPPLEMENTARY INFORMATION: The following public meetings will be held from 9 a.m. to 9 p.m. From 9 a.m.-10 a.m., the Department will receive comments from public officials only.

June 12—Atlanta, Georgia—Location: Main Auditorium (Lower Level), Richard B. Russell Federal Building and Courthouse, 75 Spring Street SW, Atlanta, GA 30303

June 12—Chicago, Illinois—Location: James Benton Parson Memorial Court Room Dirksen Federal Building, Room 2525, 219 South Dearborn Street, Chicago, Illinois 60604

June 19—Boston, Massachusetts—Location: John A. Volpe National Transportation Systems Center, 55 Broadway, Kendall Square, Cambridge, MA 02142-1093

June 19—Seattle, Washington—Location: Bell Harbor International Conference Center International Promenade room, Pier 66, 2211 Alaskan Way, Seattle, WA 98121-1604

June 21—Denver, Colorado—Location: Adam's Mark Hotel Denver, 1550 Court Place Denver, Colorado 80202

June 21—Philadelphia, Pennsylvania—Location: Myerson Auditorium, 210 South 34th Street, Philadelphia, PA 19104

June 26—Washington, D.C.—Location: Washington Hilton and Towers, 1919 Connecticut Avenue, Washington, DC

Office of Energy Efficiency and Renewable Energy—List of programs

Building Equipment and Materials

The mission of the Buildings Equipment and Materials Program is to advance affordable energy efficiency improvements in building equipment and materials through a targeted program of industry cost-shared research and regulatory options.

Commercial Buildings Integration

The mission of the Commercial Buildings Integration Program is to develop new whole-building technologies and building design and operation strategies that will reduce overall energy needs and improve the quality of building energy services, including voluntary consensus building energy codes and mandatory codes for Federal buildings.

Community Energy Program

The Community Energy Program provides technical assistance,

demonstrations, training, and education to communities to accelerate the use of innovative and cost-effective energy technologies, strategies, and methods. The program helps communities, towns, and cities save energy, create jobs, promote economic growth, and protect the environment through improved energy efficiency and less energy intensive building design and operation.

Energy Star Program

Using the ENERGY STAR symbol as the primary tool, identify and promote high efficiency consumer products and buildings; in partnership with EPA, manufacturers, retailers, utilities, and builders.

Residential Buildings Integration

In partnership with homebuilders, industry, States, and communities, the Residential Buildings Integration Program improves the energy efficiency in new and existing homes through R&D, demonstrations, and regulatory strategies.

State Energy Program

The State Energy Program (SEP) mission is to support States' effective, flexible capacity to promote the use of energy efficiency and renewable energy strategies for meeting energy needs in both the near and long-term future.

Weatherization Assistance Program

The Weatherization Assistance Program works to maximize the number of low-income households receiving cost-effective, energy efficient improvements while ensuring the health and safety of people served.

DUET

The Departmental Energy Management Program is administered by the Federal Energy Management Program's (FEMP) Departmental Utility and Energy Team (DUET). DUET targets FEMP services at DOE facilities to improve energy and water efficiency, promote renewable energy use, and manage utility costs in DOE's facilities and operations.

FEMP

The Office of Federal Energy Management Programs (FEMP) reduces the cost and environmental impact of the Federal government by advancing energy efficiency and water conservation, promoting the use of renewable energy, and assisting federal facilities in managing utility costs and operations, including those of the Department of Energy.
