**Replacement of Part 90 by Part 88 To Revise the Private Land Mobile Radio Services and Modify the Policies Governing Them and Examination of Exclusivity and Frequency Assignment Policies of the Private Land Mobile Services**

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule; petitions for reconsideration.

**SUMMARY:** This document disposes of two substantially identical petitions for reconsideration or clarification submitted in response to the

Commission's Final rule. The petitions are denied on procedural grounds as untimely; however, the Commission addresses petitioners' concern by treating the petitions as requests for interpretation of the Commission's rule.

**ADDRESSES:** Federal Communications Commission, Room 1-C804, 445 12th Street, SW., Washington, DC 20554.

**FOR FURTHER INFORMATION, CONTACT:** Michael J. Wilhelm, 445 12th Street, SW., Room 4C305, Washington, DC 20554; telephone 202.418.0680; email mwilhelm@fcc.gov.

**SUPPLEMENTARY INFORMATION:** This is a summary of the Commission's *Sixth Memorandum Opinion and Order* (Sixth MO&O) in WT Docket 92-225 released May 25, 2001. The complete text of this *Sixth MO&O* is available for inspection and copying during normal business hours in the FCC Reference Information Center, Courtyard Level, 445 12th Street, SW., Washington, DC 20554; and also is available from the Commission's copying contractor, International Transcription Services (ITS, Inc.) Courtyard Level, 445 12th Street, SW., Washington, DC 20554. The *Sixth MO&O* addressed two petitions for reconsideration directed to 47 CFR § 90.261 as amended in the Fifth Memorandum Opinion and Order 66 FR 8899 2/5/01.

1. In substantially identical petitions for reconsideration, the Alarm Industry Communications Committee of the Central Station Alarm Association (AICC) and Blooston, Mordkofsky, Dickens, Duffy and Prendergrast (Blooston) sought clarification concerning whether 47 CFR 90.261(a) could be construed to render Central Station Alarm stations as fixed, and hence secondary, facilities.

2. Because both petitioners' petitions were based on a June 26, 2000, letter from the Public Safety and Private Wireless Division, and because more than 30 days had elapsed thereafter, the petitions were dismissed as untimely pursuant to 47 CFR 1.5 and 1.429. However, the Commission treated the petitions as requests for interpretation of 47 CFR 90.261 and held that that rule did not operate to classify Central Station Alarm stations as fixed, secondary facilities.

### National Oceanic and Atmospheric Administration

#### 50 CFR Part 622

[I.D. 060501B]

#### Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Shrimp Fishery off the Southern Atlantic States; Reopening of the Penaeid Shrimp Fisheries off South Carolina and Georgia

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Reopening of the penaeid shrimp fisheries in the exclusive economic zone (EEZ) off South Carolina and Georgia.

**SUMMARY:** NMFS reopens the trawl fishery for penaeid shrimp, i.e., brown, pink, and white shrimp, in the EEZ off South Carolina and Georgia. This reopening is taken in accordance with the procedures and criteria specified in the Fishery Management Plan for the Shrimp Fishery of the South Atlantic Region (FMP) and its implementing regulations. The reopening is intended to provide optimal utilization of these penaeid shrimp resources while protecting the spawning stock of white shrimp that has been severely depleted by unusually cold weather conditions.

**DATES:** The reopening is effective 12:01 a.m., eastern daylight savings time, June 16, 2001.

**FOR FURTHER INFORMATION CONTACT:** Dr. Steve Branstetter, 727-570-5305; fax: 727-570-5583; e-mail: Steve.Branstetter@noaa.gov.

**SUPPLEMENTARY INFORMATION:** The commercial penaeid shrimp fishery in the South Atlantic region is managed under the FMP. The FMP was prepared by the South Atlantic Fishery Management Council (Council) and is implemented under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) by regulations at 50 CFR part 622.

#### Background

The FMP and implementing regulations at 50 CFR 622.35 (d) provide the procedures, criteria, and authority for a concurrent closure of the EEZ adjacent to those South Atlantic states that have closed their waters to the harvest of brown, pink, and white shrimp to protect the white shrimp spawning stock if it has been severely

depleted by cold weather. Consistent with those procedures and criteria, the States of Georgia and South Carolina closed their waters to the harvest of brown, pink, and white shrimp and requested that the Council recommend that NMFS implement a concurrent closure of the EEZ off Georgia and South Carolina. The Council approved the States' requests and in turn requested that NMFS concurrently close the EEZ off Georgia and South Carolina to the harvest of brown, pink, and white shrimp. NMFS determined that the recommended closure conformed with the procedures and criteria specified in the FMP and implementing regulations, the Magnuson-Stevens Act, and other applicable law. NMFS implemented the closure effective March 13, 2001 (66 FR 15357, March 19, 2001).

During the closure, no person could:

- (1) Trawl for brown, pink, or white shrimp in the EEZ off Georgia or South Carolina;
- (2) possess on board a fishing vessel brown, pink, or white shrimp in or from the EEZ off Georgia or South Carolina unless the vessel is in transit through the area and all nets with a mesh size of less than 4 inches (10.2 cm) are stowed below deck; or
- (3) use or have on board a vessel trawling in that part of the EEZ off Georgia or South Carolina that is within 25 nautical miles of the baseline from which the territorial sea is measured a trawl net with a mesh size less than 4 inches (10.2 cm).

#### Termination of the Closure

The FMP and implementing regulations at 50 CFR 622.35 (d) state that: (1) The closure will be effective until the ending dates of the closures in the respective states' waters, but may be ended earlier based on the states' request; and (2) if the EEZ closure is ended earlier, NMFS will terminate the closure of the EEZ by filing a notification to that effect with the Office of the Federal Register. Based on biological sampling, the States of Georgia and South Carolina have determined that their respective State's waters will remain closed until sometime after June 16, 2001; however, they have requested the EEZ adjacent to their State's waters be opened effective 12:01 a.m. on June 16, 2001. Therefore, consistent with the procedures in the FMP and its implementing regulations, NMFS publishes this notification to reopen the EEZ off Georgia and South Carolina to the harvest of brown, pink, and white shrimp effective 12:01 a.m., eastern daylight savings time, June 16, 2001.
