AGENCY: Department of Defense.

ACTION: Notice of Advisory Committee Meeting.

SUMMARY: The Defense Science Board (DSB) Summer Study will meet in closed session August 13-24, 2001, at the Beckman Center, Irvine, CA. At these meetings, the Defense Science Board will discuss interim findings and recommendations resulting from two ongoing Task Force activities: Defense Science & Technology (S&T) and Precision Targeting.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. At these meetings, the Board will address the issues involved in assuring that the U.S. continues to gain access to and develop technology from which to gain military advantage. They will consider future technologies that should be developed and exploited for military applications, particularly potential technologies that provide the U.S. military an asymmetric advantage in conflict, in deployment, and at home; the appropriate mix of in-house, contractor, university and commercial providers of basic and applied research and of advanced development; how DoD can leverage technology that is under development and produced globally in commercial industry, as well as that which is being discovered and demonstrated in the S&T programs funded by both other U.S. agencies and other nations; the situation of and the contribution of the DoD laboratories in

this changing world; and how to maintain excellence in in-house S&T endeavors.

The Board will also examine the full range of the precision weapons targeting in tactical military operations, from target execution, location, and identification through mission execution and damage assessment. Specifically, all planned precision weapons programs and procurements will be examined to determine the degree to which these weapons are compatible with targeting requirements for different target classes; the degree to which existing and planned reconnaissance and surveillance assets are used to effectively develop target sets, real time targeting data and perform battle damage assessment under varied degrees of cover, concealment and deception; our ability to identify and precisely locate targets while minimizing false alarms using automatic target recognition techniques and precision location technologies; and our ability to attack moving targets.

In accordance with Section 10(d) of the Federal Advisory Committee Act, P.L. No. 92-463, as amended (5 U.S.C. App. II), it has been determined that these Defense Science Board meetings, concern matters listed in 5 U.S.C. § 552b(c)(1), and that accordingly these meetings will be closed to the public.

AGENCY: Department of Education.

SUMMARY: The Leader, Regulatory Information Management Group, Office of the Chief Information Officer, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before August 24, 2001.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. The Leader, Regulatory Information Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including

through the use of information technology.
